

The following song, written by Mr. Drew was sung at the Celebration of the Columbia (D. C.) Typographical Society, by E. Klopfer:

The Inventien of Printing. 'Tis said that in the olden time. Ere printing was invented, The want of such a principle Was very much lamented; For there were men-as there are now-Who were forever seeking To renovate old things, I trow. Or set the world a-creaking.

> CHORUS. Let feudal ages go to pi, We'll set the form anew, boys. We'll ink, and beat, and pull, and fly, And prore what we can do, boys.

No penny press was then in vogue To print without permission; And books, as now, were not a drug, Much less a cheap edition. So then some jolly Dutchmen said They'd put their heads together, And print a book with types of lead, And bind it up in leather. Let feudal ages, &c.

They tell of Laury Coster, who Set up in Harlem City, And had his jours and devil too-But was it not a pity. That while he kept a Christmas day, And thought of nothing wrong, sir, To Mentz the devil ran away. And took the types along sir! Let feudal ages, &c.

Old Gutten burg soon learnt the art, (Which but for him were lost us,) And wanting coins to make a start. He borrowed spoons from Faustus. At law-gerheads they soon arrived; To court the matter passed, sir, And after Gutty had been shrived Von Faustus had him cost, sir, Let fendal ages, &c.

One Schoeffer now with Faust combined, They had a rule between 'em, That he who left his pi behind Upon the boards, should clean 'em, And Gutty, who, by dint of law, Had learnt its moods and tenses, Soon published the Catholicon Joannes Januensis" Let fendal ages, &c.

The science thus extending wide, The Doctor made a leap, sir, And soon in Paris was espied-A selling Bibles cheap, sir. He thought he'd play a vankee trick, And say his books were written; But laying on the thing too thick, He got his fingers bitten. Let feudal ages, &c

His script was all so uniform, His titles stamped with blood, sir; None but the devil could send out Of volumes such a flood sir, To see his Bibles come so fast, The Frenchmen grew affrighted, Again the law upon him called-But this time uninvited. Let feudal ages, &c.

His sanctum now was ravaged quite-The Doctor had to yield, sir; The den was soon unveiled to sight, Which had been long concealed, sir. The blood was there in cans and kegs-The Doctor own'd 'em his'n-A tail grew out betwixt his legs, Whilst on his way to prison! Let feudal ages, &c.

The Printer's boy is thus en-tailed With charms of magic dread, sir; And if to see his horns you've failed, I beg you feel his head, sir. You'll have the dark conviction then Of what the league has cost us, And why it bears the cognomen: "The Devil and Dr. Faustus."

> CHORUS. Now feudal ages are in pi, We've set the form anew, boys, We'll ink, and roll, and pull, and fly, And prove what we can do, boys.

Shoemaking. Professor Ingraham thus graphically describes the lown of Lynn, Massachusetts, the seat of shoemakers, and the vast cordwainery of the whote Umon.

"The very pleasant and thriving town of Lynn is the Paradise of shocmakers! its young men, carry transferred from the cradle to the last, cut their feeth and leather at the same time, and its pretty maidens learn to bind shoes with the introduction of their a-b abs. Lovers exchange hearts over a kid slipper, and swear eternal fidelity over a lap-stone. If they would get married, they ask old Dr. Waxend, the parson, if he will stitch them together, and they will pay him in shoe-mending. Whipping their children is called tanning, and the rod they use is a coulide. The little boys swear by 'hides and leather,' and play at games which they call high and low quarter, and toe.' A child newly born is a lapstone, and the age of their children is known by the number of shoes they wear. Boys are called rights, and girls lefts-an old maid is an odd slipper, and an old bachelor an odd boot. The street doors to their dwellings are 'insteps,' and a man in an overcoat The fields about the town are patches, and a fellow half-sens over is half-soled. They never see an oak tree but they directly calculate the number of pegs it will make, and when they behold bees at work they reflect that the only end of wax is waxed end. They look on all cattle and sheep as only leather-growers, and beleive that hogs were only made to produce bristles. Its lap-stones would pave Brandway, and its lasts, if piled together, would make

WISTAR'S

BALSAM OF WILD CHERRY, Compound Balsamic Preparation from

The best remedy known to the world for the cure of toughs, colds, asthma, croup, bleeding of the hings, whooping cough, bronchitis, influ-enza, shortness of breath, pain and weakness in the breast or side, liver complaint, and the

first stages of CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in ist regret form, but it has cured many after all other means of relief bad been tried n vnin .- And why not ! It seems that the WILD CHERRY was destined by Nature to be our PA-NACEA for the vavaging diseases of this e ld latitude. Let not the despairing invalid waste his money and loose TIME, to him so all important, in experimenting with the trashy nostroms of the day, but use at once a medicine that will care, if a cure be p stible - a medicine that science approves, and many years of experience have demonstrated that it always relieves.

"There is no such thing as fail." in the history of this wonderful BALSAM. Evidence the most convincing -evelence that no one can doubt, fully establi hes this fact. For the sake of brevity we select the following from thousands.

Isaac Platt, Esq., Editor of the Pokerpsie Eagle, one of the most influential journals in the state of New York, states under the authority of his own name, that a young lady, a relative of his, of very delicate constitution, was attacked in Feb. 1842 with severe cold, which immediately produced spit ting of blood, cough, fever, and other dangerous and alarmic g symptoms. Through medical treatment and one she pa tially received during summer. But on the return of winter she was attacked more violently than at first, she became scarcely able to walk and was troubled with cough, chills and fever every day, and appeared to be going rapidly with consump ion; at this time, when there was nesign of improvement, Mr. Platt precured a bottle of WISTAR'S BALSAM OF WILD CHERRY, which she took, and it seemingly restored her. She got a second, and before it was half taken she was restored to perfect health, which she has enjoyed to the present time, without the slightert symptom of her former dier se.

Mr. P att save "the cure come under my own observation and I cannot be mistaken as to the facts." EXTRACT OF A LETTER FROM A POST

MASTER, DATED PEMBROKE, Washington co., Maine, Apr. 29, 1844 MR. ISAAC BUTTS .- Dear Sir: At the re quest of many of my friends in this place and vicicity who are afflicted with consumption and liver complaints, I take the libery of asking you to appoint some one in this county as agent to sell Wis-TAR's BALSAM OF WILD CHERRY, and to send him a few dozen, as there is none of it for sale within 200 miles from this I have no doubt that it would me-t with a ready sale if it were where it could be

procured without too much expense and delay. My wife was attacked about six m oths since with what the physicians called the first stage of consumption-a complaint very prevalent in this section of country. Having seen the Ba'sam advert sed in Augusta.

200 MILES FROM HERE, 20 I took the pains to send there for a buttle of it, which she took, and which helped her so much that I sent for two bottles more, which she has a so taken, and he now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you. Please inform me by return of mail whether you conclude to send some, and if so to whom, in order hat it may be known where it can be had,

I am with re-peet yours, etc. P. G. PARNSWORTH, P. M. The whole country is fast learning that no medicine-no physician-no preparation of any kind whatever-can count Dr. Wiscan's Bassas or WILD CHERRY.

A TRULY WONDERFUL CURE.

WATERVILLY, Oneids co., N. V. Sept. 15, 1843 Dear Sir-I owe it to the afflicted to inform v a that in January last I was attacked by a very vilent cold, caused by working in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and sides, and also a listresong cough. I had in attendance all the lest medical aid in our village; but after exhausting all their skill to no avail, they pronounced my disease a CONFIRMED CONSUMPTION, and they one and all gave me up to die. After much persussion I got the consent of my physician to use the BALSON OF WILD CHERRY prepared by DR WISCAR. I purchased of the Agent in our place one buttle, before using half of which I began to gain strength, and it was very evident my cough was much better and my symptoms in every way impriving. I have now used three bottles, and am restored to perfect vania Bank not given in the above list, may be set health. This result is alone owing to the use of DR WISTAR'S BALSAM OF WILD CHER RY; and I take this method of g ving you the in formation, partly to pay you the debt of gratitude lowe you, and partly that other- similarly afflicted may knew where to apply for relief,

Very truly yours, JAMES SAGE, Ma. Palmen Druggist, under date of Waterville, Sept. 24th, 1843, writes;

The statement given you by Mr. James Sage is well known to be true by this whole community It certainly was a most remarka le cure. The sale of the Bal-om is very good, and its success in curetruty flattering. Yours respectfully. D. D. PALMER.

THE MOST REMARKABLE

CURE EVER RECORDED. HADDONFIELD, N. J., April 20, 1843, On or about the 13th day of October, 1841, I was larly affect d, to make it public. taken with a violent poin in the side near the liver. which continued for about five days, and was followed by the breaking of an u'eer, or al seess in wardly, which releved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thoug' t he could do but in the for me except give me some Mercury Pells, which I refused to take, feeling -a) sfied that they could do me to good; many other tem dies were then procured by my wife and friends, but none dat me any good-and the discharge of blood and corruption still continued every f w days, and at last become so offensive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to reise much more blood than I had done before—and my disease continued in this way, still growing worse. until February, when all hope of my recovery was given up, and my friends all thought I would die of a Galloping Consumption. At this moment when my life was apparen by drawing near its close, I heard of DR. WISTAR'S BALSAM OF WILD CHELRY, and got a bottle which ar-LIEVED ME IMMEDIATELY; and by the use of only three bottles of this medicine, all my pains were removed—my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this time I have enjoyed good health.

a prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our own land for wise purposes, that many who know nothing of the mode of its preparation are endeavoring to reap pecuniary benefits by selling an article similar in name, or in appearance, or by representing their own trash as superior to this BALSAM, or by putting up a mixture and solemnly asseverating that it is imported from a foreign country, which is not the All these deceptive arts go to show that WISTAR's BALSAN is known to the world to be tended with a most decided improvement in the ge"THE GREAT REMEDY," and that to sell peral strength of the system, eradicating any seeds any mixture it must be like this in name, or pur- of disease that may have been generated, besides port to be like it in su' stauce.

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Deptra-tive Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally. that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that hus taken it, have derived so signal beneficial results from it, that it is recommended by them with the u most confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is off-red with confidence, as the chespest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be at giving health and vigor to the body .- For the cure of Scrofula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sofficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla. Reading, March 14, 1813,

Mn. Ofkrer :- I believe it the uty of every one to do whatever in their power lies, for the bone fit of their fellow man, and having had positive proof in my own family, of the wonderful properties of your Depurative Syrup of Sarsaparilla, I m st conscientiously recommend it to the afflicted. We had the misfortune to lose two of our children, by the breaking out of ulcerous sozes that covered the seases arising from the abuse of Mercury, &c., face, head and neck, although we had some of the most scientific physicians to attend them and had tried all the known remedies, including Swaim's Panacea, without avail. Another of my children was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we of your Deputative Syrup of Sassparilla, we were induced to make trial of it, as the last resort; if acted like a charm: the picers commenced beating immediately, a few bottles entirely restored her to her health, which she has enjoyed uninterraptedly ever since As a purifier of the blood, I verily believe it has not its equal. JOHN MOYER, Tailor,

Douglassville, April 19th, 1843, Mr. OAKLEY :- My son Edmund Lenf. bad the scrofula in the most, dreadful and distressing manner for three years, during which time he was deprived of the use of his timbs, his bead and neck were covered with ulcers. We tried all the differ. ent remedies, but to no effect, until recommended by Dr. Johnson of Nonistown, and also Dr. Isaac Hiester, of Reading, to use your Depurative Syrup of Sarsapurilla, of which I obtained several bottles the use of which drave the disease entirely out of his system, the sore healed up, and the child was restored to perfect health, which he has enjoyed uninterruptedly ever since, to the ast, nishment of many persons who seen him du ing his affliction I have thought it my duty, and send you this certificate that others who have a like affliction in the family may know where to obtain so valuable a medicine. ROSE CINTMENT FOR TETTER.

RINGWORMS, PIMPLES ON THE PACE, AND OTHER CUTANEOUS ERUPTIONS The following certificate describes one of the most extraordinary cures ever effected by any application.

PHILADELPHIA, February 10, 1838. OR twenty years I was severely difficted with TETTER on the Face and Head: the disease commenced when I was seventeen years old, and continued until the Pall of 1836, varying in violeace, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst-the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the discose, I used a great many at plications, (among them several celebrated prepurations) as well as taking inward remedies. ncluding a number of bottles of Swaim's Panacea, Extract of Sarsaparilla, &c. In fact, it would be impossible to enumerate all the medicines I used I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the cruption began to disappear, and before I had used a jar the disease was entirely cuted. It has now been nearly a year and a half since, and there is not a vestige of the disease remaining, except the scars from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller account to any person wanting further satisfaction, who will call on me. At the time I commenced using the Rose Ointment I would have given hundreds of dollars to be rid of the disease. Since using it, I have recommended it to several persons, among them my mother, who had the disease badon her arm,) who were all cured by it,

Rose Gintment, for Tetter. A PROOF OF ITS EFFICACY.

PRILADELPHIA, May 27th, 1839. PHIS is to certify that I was severely afflicted with Tetter in the hands and feet for upwards of forty years; the disease was attended generally with violent itching and swelling. I applied to number of physicians, and used a great many applicallons without effecting a cure. About a year since, I applied the Rose Dintment, which entirely stopped the itching, and a few applications immediately cured the disease, which there has been no return of, authough I had never been rid of it at any time for forty years. MEDICAL APPROBATION

Of the ROSE OINTMENT, for Tetter. A LTHOLIGH the superiority of the preparation over all others is fully established, the propries tors take pleasure in laying before the public the following certificate from a respectable physician, graduate of the University of Pennsylvania, Dr. Bangh, having found in this semedy that relief for a tedious and disagreeable affection which the means within the range of his profession failed to afford, has not besitated to give it his approbation, although he prejudices and interests of that profession are prosed to secret Remedies.

PRILADELPHIA, Sept. 19, 1836. I was recently troubled with a tedious herpetic eruption, which covered nearly one side of my face, and extended over the ear. Mr. Vaughan, proprie tot of the Rose Ointment, observing my face, inststed on my trying his preparation, of which he handed me a jar. Aith ugh in common with the members of my profession, I discountenance and disapprove of the numerous nostrums palmed upon the public by ignorant pretenders, I feel in justice bound to except the Rose Ointment from that class of medicines, and to give it my approbation, as it entireby cured the eruption, although it had resisted the usual applications.
