

There's Beauty Every Where.

BY JAMES A. BEVERIDGE.

There's beauty in the dashing wave,
When the storm is raging high—
There's beauty in the quiet stream
As it gently glideth by.
There's beauty in the cloudless night
When stars are shining clear,
Or darkness shuts them from the sight—
There's beauty every where.

Winter is Coming.

BY ELIZA COOK.

Winter is coming! who cares? who cares?
Not the wealthy and proud, I trow:
"Let it come," they cry, "what matter to us
How chilly the blast may blow?"
"We'll feast and carouse in our lordly halls,
The goblet of wine we'll drain,
We'll mock at the wind with shouts of mirth,
And music's echoing strain."
"Little care we for the biting frost,
While the fire gives forth its blaze;
And what to us is the dreary night,
While we dance in the waxlight's rays?"
'Tis thus the rich of the land will talk!
But think! oh, ye pompous great,
That the harrowing storm ye laugh at within
Falls bleak on the poor at your gate!

Parisian Chi-Chat.

The system which has for some time past prevailed of bodies of men banding together for the purposes of robbery and assassination, is now occupying the attention of Government. Trials of the most vivid interest have been heard before the tribunals, which have elicited the most extraordinary facts, and before which the banditti of Spain and Italy, the tales of La Sage, and the romances of Mrs. Radcliffe, must hide their diminished heads. The land of robbers who have recently been tried before the Cour d'Assises de la Seine, is denominated as "Bande Lanckpaer," surnamed the "Sleepers" in thieves' slang. They were known to hover about the low public houses in the suburbs of Paris, and to decoy, under various pretexts, the mechanics and laborers, to drink and sport. These victims, thus led into the snare, unhesitatingly partook of the refreshment, into which some drug was put which caused instantaneous sleep. They were then easily plundered. One of the accused, named Mulot, kept a public house of this nature, and is not only a principal agent of the "Sleepers," but the chief of another gang devoted solely to thefts. Jean Lanckpaer, better known by the name of Lampot, already had suffered severe punishments. This ruffian, when questioned for his defence, replied that he had no objection to give an account of his life up to the period when he commenced the honorable profession of a thief; and added that his father was a blackguard gambler, and passed his life with women of degraded character, which so disgusted him that he ran away to Paris; that he was embarrassed for funds and used to prowl about the wine houses, where he met with some good fellows, who took him to lodge at Mother Paris's. The next day he tried his hand at stealing meats, fowls and vegetables, which the respectable hostess cooked, and received in lieu of rent, boarding and washing—and thus commenced his honorable career. From the evidence adduced there is no doubt that the various bands amount to many thousands—that they are distributed throughout France—that in fact they are regularly organized, and have their various officers, secretaries, &c., &c. I understand that since the examinations of the principal leaders have confessed, and that the authorities are now in possession of their plans, and that their destruction is now certain. It appears that they are entered as early as eight years of age, male and female children—that each is instructed in a particular branch, and are sent to commit depredations in churches or steamboats, &c. An honorary medal has been produced, given to Don Alexis Chauvargard, for some specially ingenious robbery by him invented, and carried out successfully.

A regular backwoodsman of Yazoo swamp was asked how old he was.

"Why, stranger," said he, "I can't edzactly say; but when this country was first discovered, I was then a right smart chunk of a cub!"

WISTAR'S BALSAM OF WILD CHERRY.

A Compound Balsamic Preparation from Wild Cherry Bark and Tar. The best remedy known to the world for the cure of coughs, colds, asthma, croup, bleeding of the lungs, whooping cough, bronchitis, influenza, shortness of breath, pain and weakness in the breast or side, liver complaint, and the first stages of CONSUMPTION.

We will not assert that this BALSAM will cure Consumption in its worst form, but it has cured many after all other means of relief had been tried in vain. And why not? It works by the aid of NATURE for the curing of diseases of this kind. Let not the despairing invalid waste his money and lose TIME, to him as all important, in experimenting with the trashy nostrums of the day, but use of once a medicine that will cure, if a cure be possible—a medicine that science approves, and many years of experience have demonstrated that it always relieves.

"There is no such thing as a free lunch" in the history of this wonderful BALSAM. Evidence the most convincing—evidence that no one can doubt, fully established by the fact. For the sake of brevity we select the following from thousands.

MR. ISAAC BUTTS.—Dear Sir: At the request of many of my friends in this place and vicinity who are afflicted with consumption and liver complaints, I take the liberty of asking you to appoint some one in this county as agent to sell WISTAR'S BALSAM OF WILD CHERRY, and to send him a few dozen, as there is none of it for sale within 200 miles from here. I have no doubt that it would need with a ready sale in every where it could be procured without too much expense and delay.

EXTRACT OF A LETTER FROM POSTMASTER DATED PENNSYLVANIA, Washington Co., Maine, Apr. 29, 1844.

MR. ISAAC BUTTS.—Dear Sir: At the request of many of my friends in this place and vicinity who are afflicted with consumption and liver complaints, I take the liberty of asking you to appoint some one in this county as agent to sell WISTAR'S BALSAM OF WILD CHERRY, and to send him a few dozen, as there is none of it for sale within 200 miles from here.

200 MILES FROM HERE.

I took the pains to send there for a bottle of it, which she took, and which helped her so much that I sent for two bottles more, which she has also taken, and she now says she has not felt so well for six years as she does at this time. All those who have inquired of me and ascertained what effect the Balsam had, are anxious to have some for sale in this vicinity, which is the cause of my writing you. Please inform me by return of mail whether you conclude to send some, and if so to whom, in order that I may be known where it can be had.

A TRULY WONDERFUL CURE.

WATERVILLE, Me., N. Y., Sept. 15, 1843. Dear Sir—I send you the enclosed bill for the medicine which I was attacked by in the water, which settled on my lungs. It was accompanied by a very severe pain in my breast and sides, and also a distressing cough. I had in attendance all the best medical aid in our village; but after exhausting all their skill to no avail, they pronounced my disease a confirmed consumption, and they one and all gave me up to die. After much persuasion I got the consent of my physician to use the BALSAM OF WILD CHERRY prepared by Dr. WISTAR. I purchased of the Agent in our place one bottle, before using half of which I began to gain strength, and it was very evident my cough was much better and my symptoms in every respect improved. I have used three bottles, and am restored to perfect health. This result is all owing to the use of DR. WISTAR'S BALSAM OF WILD CHERRY. I and I take this method of giving you the information, partly to pay you the debt of gratitude I owe you, and partly that others similarly afflicted may know where to apply for relief.

THE MOST REMARKABLE CURE EVER RECORDED.

HADDONFIELD, N. J., April 20, 1843. On or about the 13th day of October, 1841, I was taken with a violent pain in the side near the liver, which continued for about five days, and was followed by the breaking of an ulcer, or abscess, inwardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he thought he could do but little for me except give me some Mercury Pills, which I refused to take, feeling satisfied that they could do me no good; many other remedies were then procured by my wife and friends, but none did me any good—and the discharge of blood and corruption still continued every few days, and at last became so offensive that I could scarcely breathe. I was also seized with a violent cough, which at times caused me to raise much more blood than I had done before—and my disease continued in this way, still growing worse, until February, when all these symptoms were given up, and my friends all thought I would die of a GALDING CONSUMPTION. At this moment, when my life was apparently drawing near its close, I heard of DR. WISTAR'S BALSAM OF WILD CHERRY, and got a bottle which relieved me immediately; and by the use of only three bottles of this medicine, all my pains were removed—my cough and spitting of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (which is a carpenter,) and up to this time I have enjoyed good health.

OAKLEY'S DEPURATIVE SYRUP.

The valuable properties of Oakley's Depurative Syrup of Sarsaparilla, as a purifier of the blood, it is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has been introduced, it takes precedence over all others; every one that has taken it, have derived so signal and beneficial results from it, that it is recommended by them with the utmost confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strength of the system, eradicating any seeds of disease that may have been generated, bracing health and vigor to the body.

ROSE OINTMENT FOR TETTER.

PHILADELPHIA, February 10, 1838. FOR twenty years I was severely afflicted with Tetter on the Face and Head: the disease commenced when I was seventeen years old, and continued until the Fall of 1835, varying in violence, but without ever disappearing. During most of the time, great part of my face was covered with the eruption, frequently attended with violent itching; my head swelled at times until it felt as if it would burst—the swelling was so great, that I could scarcely get my hat on. During the long period that I was afflicted with the disease, I used a great many applications, (among them several celebrated preparations) as well as taking various remedies, including a number of bottles of Swain's Panacea, Extract of Sarsaparilla, &c. In fact, it would be impossible to enumerate all the medicines I used. I was also under the care of two of the most distinguished physicians of this city, but without receiving much benefit, and I despaired of ever being cured. In the fall of 1836, the disease at the time being very violent, I commenced using the Rose Ointment, (prepared by Vaughan & Davis.) In a few applications the violent itching ceased, the swelling abated, the eruption began to disappear, and before I had used a jar the disease was entirely cured. It has now been nearly a year and a half since, and there is not a vestige of the disease remaining, except the scars from the deep pits formed by the disease. It is impossible for me to describe in a certificate the severity of the disease and my suffering, but I will be pleased to give a fuller account to any person wanting further satisfaction, who will call on me. At the time I commenced using the Rose Ointment I would have given hundreds of dollars to be rid of the disease. Since using it, I have recommended it to several persons, (among them my mother, who had the disease badly on her arm,) who were all cured by it.

JAMES DURNELL, No. 156, Race St. The Rose Ointment is prepared by E. B. Vaughan, South East corner of Third and Race streets, Philadelphia, and sold on agency in Sunbury, by H. B. MASSER, May 14th, 1843. Agent.

MEDICAL APPROBATION OF THE ROSE OINTMENT, FOR TETTER.

ALTHOUGH the superiority of the preparation of Tetter in the hands and feet for upwards of forty years; the disease was attended generally with violent itching and swelling. I applied to a number of physicians, and used a great many applications without effecting a cure. About a year since, I applied the Rose Ointment, which entirely stopped the itching, and a few applications immediately cured the disease, which there has been no return of, although I had never been rid of it at any time for forty years.
