

cion, the honor, the rights, and the interests of our country.

The President then refers to instructions given to Gen. Taylor in August last, authorizing him, in case of emergency, to call upon Texas and the neighboring states for volunteers, and says:

On the 2d day of March, he was again reminded, "in the event of the approach of any considerable Mexican force, promptly and efficiently to use the authority with which he was clothed to call to him such auxiliary force as he might need." War actually existing, and our territory having been invaded, General Taylor, pursuant to authority vested in him by my direction, has called on the Governor of Texas for four regiments of State troops—two to be mounted, and two to serve on foot; and on the Governor of Louisiana for four regiments of infantry, to be sent to him as soon as practicable.

In further vindication of our rights and defence of our territory, I invoke the prompt action of Congress to recognize the existence of the war, and to place at the disposition of the Executive the means of prosecuting the war with vigor, and thus hastening the restoration of peace. To this end I recommend that authority should be given to call into the public service a large body of volunteers to serve for not less than six or twelve months, unless sooner discharged.

A volunteer force is, beyond question, more efficient than any other description of citizen soldiers; and it is not to be doubted that a number far beyond that required would readily rush to the field upon the call of their country. I further recommend that a liberal provision be made for sustaining our entire military force, and furnishing it with supplies and munitions of war.

The most energetic and prompt measures, and the immediate appearance in arms of a large and everpowering force, are recommended to Congress as the most certain and efficient means of bringing the existing collision with Mexico to a speedy and successful termination.

In making these recommendations, I deem it proper to declare that it is my anxious desire not only to terminate hostilities speedily, but to bring all matters in dispute between this government and Mexico to an early and amicable adjustment; and, in this view, I shall be prepared to renew negotiations whenever Mexico shall be ready to receive propositions, or to make propositions of her own.

DISSENT.—The nerves of the human body—those necessary agents which immediately connect man with external nature—are singularly prone to have their functions disordered by an oppressed condition of the stomach; the minute termination of that portion of the nervous expanded upon the organs of digestion conveying the morbid impression to the brain. And although the Head can, undoubtedly, like other organs, be the seat of primary disorder, yet, in the great majority of cases, the uneasy sensations there experienced are symptomatic of disordered Stomach; and further, there is abundant evidence to prove that cruditates in the Stomach and Bowels can, in every grade of human existence give rise to spasmodic action in every organ of the body; and whether we survey it in the agonising form of Tic Doloréux—the alarming convulsions of the Epileptic seizure—or in that irritable condition of the nerves of the head occasioning palpitation—they can all frequently be traced to the source above mentioned, and be cured by mild evacuant and tonic remedies. To relieve a state of so much suffering and distress, (in which body and mind also participate), BRANDRETT'S PILLS are confidently recommended; as, by combining aromatic, tonic and cleansing properties, they remove all oppressive accumulations, strengthen the Stomach, induce a healthy appetite, and impart tranquility to the nervous system.

"TRUTH IS MIGHTY AND WILL PREVAIL."
A. B. MARSHALL,
No. 188 Chestnut Street, between Seventh and Eighth Streets,
PHILADELPHIA.

IS now prepared to offer, Wholesale and Retail, a large assortment of FANCY and STAPLE DRY GOODS, suited to the Country as well as City Trade. He continues the system of "no abatement in prices," which he has pursued for the past ten years, and desires to call the special attention of the public to it as the only true system of retail business, and which is decidedly to the interest of the purchaser to promote. It is quite time the fraudulent practice of selling a high price, and abating to make the purchaser believe they are the "favored few," was done away with, as, nine times out of ten, they are made to pay a higher price (however great the reduction) than the like style and quality can be purchased at the "One Price Store."

A. B. M. is in regular receipt of the newest and cheapest seasonable goods, and when any article depreciates in value the price is at once marked down so low that it cannot be underbid. By this system the purchaser can, at all times, buy with confidence and satisfaction, and without waste of time in useless bargaining. He has at this time a complete assortment of

Measles.
DR. SMITH'S ADVICE.
THE Measles appeared in Europe about the same time with the small pox, and have a great affinity to that disease. They both come from the same quarter of the world, are both infectious, and seldom attack the same person but once. The Measles are most common in the spring season, and generally disappear in the summer. The disease itself, when properly managed, seldom proves fatal; but its consequences are often very troublesome. Our business is to assist nature to throw out the eruption. Blood-letting is almost certain death.

Nothing ever discovered has done the work so gently and effectually as Dr. SMITH'S (Sugar Coated) "Indian Vegetable Pills." You need not force them down, either.
CAUTION.—As a miserable imitation has been made, by the name of "Sugar Coated Pills," it is necessary to be sure that Dr. G. BART. SMITH'S signature is on every box. Price 25 cents.
