

'OLD ROUGH AND READY.'—We have heard several very good anecdotes related of General Taylor by a gentleman who served under him in Florida. The following is one of the number:—During the war with the Seminoles, the army was frequently supplied with corn which had become damaged by exposure to damp air. Gen. Taylor had a horse which was called 'Clay-bank,' a very good animal, but he did not particularly fancy Uncle Sam's musty rations. The General used to partake of the same fare as the soldiers under him, and so did 'Clay-bank,' so far as the corn was concerned, but he was a little dainty. The General was very fond of hominy, and musty corn made anything but a pleasant diet. He would not lay himself liable to the suspicion of 'picking' to the prejudice of the soldiers, so old 'Clay-bank' would be let loose among the sacks of corn, and after rolling very carefully, the sagacious animal would commence gnawing a hole into one which pleased him. The General would watch the manœuvre until he saw 'Clay-bank' had made a choice, then, calling his servant, would direct him to have 'Clay-bank' stabled immediately for fear he might do mischief; but he would say, 'as the animal has gnawed a hole in the bag, take out a quart or so of the corn and make a dish of hominy.' The trick was played several times, but by and by it became known that whenever 'Clay-bank' gnawed into a sack, sweet corn was to be found, and the incident became a standing joke, during the war.—Lancaster Union.

LONGEVITY.—Doct. Casper, of Berlin, says, that the longevity of females is greater than that of males. He shows that the medium or average duration of life, has increased considerably in most European and American cities of late years. No doubt the Temperance cause has had its influence.

Another important agent of influence on the probable duration of life, is Marriage. It is proved by Casper, that the married state is favorable to longevity, and especially in reference to the male sex. He adds—

The so-called climacteric periods of life, do not seem to have any influence on the longevity of either sex.

The medium duration of life, at the present time, is, in Russia, about 21 years; in Prussia, 29; in Switzerland, 34; in France, 36; in Belgium, 36; and in England and the United States, 38 years.

In reference to the influence of profession or occupations on life, it seems that ecclesiastics are, on the whole, the longest, and medical men the shortest, lives. Military men are nearly between the two extremes; but yet proportionally, they, more frequently than others, reach very advanced years.

The mortality is very generally greater in manufacturing than agricultural districts.

The mortality among the poor is always greater than among the wealthier classes.

A GOOD REPLY.—A Sabbath School teacher, instructing his class on that portion of the Lord's prayer, 'Thy will be done on earth as it is in heaven,' said to them, 'You have told me, my dear children, what is to be done—the will of God; and where it is to be done—on earth; and how it is to be done—as it is done in heaven. How do you think the angels and happy spirits do the will of God in heaven, as they are to be our pattern?' The first child replied:—'They do it immediately.' The second, 'They do it diligently.' The third, 'They do it all ways.' The fourth, 'They do it with all their hearts.' The fifth, 'They do it altogether.' Here a pause ensued, and no child appeared to have an answer; but, after some time, a little girl arose and said, 'Why, sir, they do it without asking any questions.'

DID YOU EVER?—We select the following paragraphs from the Boston Mail.

Did you ever know a lady with very white teeth to put her hand over her mouth when she laughed?

Did you ever know a boy to keep a piece of plain cake till it was mouldy?

Did you ever know a money dealer that didn't expect a panic and great distress in the money market?

Did you ever know a person to believe you when you explained how you got a black eye?

Did you ever know a young lady that did not have some very curious pieces of sewing, that she couldn't let the young gentlemen see?

Did you ever know a young lady who was too weak to stand up during prayer in church, who could not dance all night without being tired at all?

Did you ever know a young man to hold a skein of yarn for his favorite without getting it strangely tangled?

A WOMAN'S ADVANTAGE.—A woman may say what she likes to you without the risk of getting knocked down for it.

She can take a snooze after dinner, while her husband has to go to work.

She can dress herself in neat and tidy clothes for a dollar, while a man has to fork over at least forty to get a respectable suit.

She can go forth into the streets without being invited to treat at every coffee house.

She can pant her face if too pale, or flour if it be too red.

She can stay at home in time of war, and wed again if her husband is killed.

She can wear corsets if too thick, other 'fixes' if to thin.

She can eat, drink, and be merry, without its costing her a penny.

She can get divorced from her husband, whenever she sees any one she likes better.

She can run in debt, and make her husband pony up the cash.

And she can wear shoes, while her husband has to tug to get his boots on.

OAKLEY'S DEPURATIVE SYRUP.

THE valuable properties of Oakley's Depurative Syrup of Sarsaparilla, as a purifier of the blood, is so well known to the public generally, that it is unnecessary to occupy much space in setting forth the advantages to be derived from its use; wherever the medicine has once been introduced, it takes precedence over all others; every one that has taken it, have derived so signal beneficial results from it, that it is recommended by them with the utmost confidence. Physicians of the highest standing in the profession, prescribe it to patients under their care; containing nothing deleterious, but being composed of the most mild, yet efficacious vegetable materials, it is offered with confidence, as the cheapest and most efficient purifier of the blood now known. The use of a few bottles, especially in the spring months, will be attended with a most decided improvement in the general strength of the system, eradicating any seeds of disease that may have been generated. Besides giving health and vigor to the body.—For the cure of Scrofula or Kings Evil, Rheumatism, Tetter, Pimples or eruptions of the Skin, White Swelling, Fistula, Chronic Cough Asthma, &c. The numerous certificates in the possession of the subscriber and his agents, from physicians and others, are sufficient to convince the most skeptical of its superiority over all preparations of Sarsaparilla.

Sold wholesale and retail, by the proprietor, GEORGE W. OAKLEY, North 5th street, Reading, Berks County, and to be had of the following persons:
In Northumberland County.—H. B. Masser, Sunbury; Ireland & Moxel, McEwenville; D. Krauser, Milton.
In Union County.—J. Gearhart, Selingsgrove; A. Gutulis, Milliford.
In Columbia County.—R. W. McCay, Washington.

Reading, March 14, 1843.

MR. OAKLEY—I believe it the duty of every one to do whatever in their power, for the benefit of their fellow man, and having had positive proof in my own family of the wonderful properties of your Depurative Syrup of Sarsaparilla, I most conscientiously recommend it to the afflicted. We had the misfortune to lose two of our children, by the breaking out of ulcers sores that covered the face, head and neck, although we had some of the most scientific physicians to attend them, and had tried all the known remedies, including Swain's Panacea, without avail. Another of my children was attacked in the same manner, her face and neck was completely covered; the discharge was so offensive, and the disease at such a height, that we despaired of her life. Seeing the wonderful effects of your Depurative Syrup of Sarsaparilla, we were induced to make trial of it, as the last resort; it acted like a charm; the ulcers commenced healing immediately, a few bottles entirely restored her to her health, which she has enjoyed uninterrupted ever since. As a purifier of the blood, I verily believe it has not its equal.

JOHN MOYER, Tailor,
Walnut street, near Fourth, Reading.

Douglasville, April 19th, 1843.
MR. OAKLEY—My son Edmund Leaf, had the acrofolia in the most dreadful and distressing manner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different remedies, but to no effect, until recommended by Dr. Johnson of Norristown, and also Dr. Isaac Heister, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles, the use of which drove the disease entirely out of his system, the sores healed up, and the child was restored to perfect health, which he has enjoyed uninterrupted ever since, to the astonishment of many persons who see him during his affliction. I have thought it my duty, and send you this certificate that others who have like affliction in the family may know where to obtain so valuable a medicine. Yours truly,
AMELIA D. LEAF.
