

MAJORS EDITORS.—On the 9th inst., Gen. Kearney, with about eight hundred men, left this town on an excursion south. We went to a village called Tonic, about one hundred miles distant. We struck the Rio Grande twenty-seven miles from this place, at a village called San Domingo, inhabited by the Pueblo Indians. Our reception at this village was quite a grand affair, the principal men and braves of the tribe met us six miles from the town, and escorted us in; the braves were mounted on their best horses, and dressed in the most gaudy apparel, and armed and equipped in the same manner as when they go out for the purpose of fighting. When the General passed the head of this column, they fired off their guns, and then one by one each side of our companies proceeded to the rear, and then wheeled and came down close to our line at the top of the speed of their horses, yelling and going through all the manoeuvres of a regular charge; they met again at the head of our column, fired at each other with their pistols, made passes with their lances, and then filed off and returned to the head of our companies. This was repeated several times, to the great admiration and astonishment of all who witnessed it. I have never seen better horsemen any where, and from what I could discover, I should take them to be formidable in battle, if properly armed. They are fine looking men, and much superior in every respect to the Mexican population. They have a very fine village, most splendid vineyards, and appear to be much more comfortable in every respect than the Mexicans. When we got into the village, we were invited into the Priest's house, where a most sumptuous repast was set out, consisting of the best grapes I ever saw, melons, apples, cakes, and with liquor sufficient to wash them down.

There is at this town quite an extensive church, to which is attached the priest's house, where he keeps his traps or conchinas. The priest at this place has four—two of them are quite good looking. After our repast the General made a speech to the citizens, who appeared quite well pleased; they then escorted us out of town, and we went on our way rejoicing, with full stomachs, and every man with just liquor enough in him to make him feel patriotic. This was the only Indian village we visited.

After we left San Domingo, we passed through villages every eight or ten miles, until we reached the village of Tonic. Most of them, however, were quite small, and the inhabitants, with the exception of two or three men in each, are a poor miserable set.

The only villages on the Rio Grande that we visited worthy of note, are San Domingo, San Philipps, Albuquerque and Tonic. Albuquerque was the residence of Armijo. We halted a short time at this place going and returning. General Kearney called on the late Governor's wife and passed an hour or two, as he told me, very pleasantly. She is said to be an intelligent woman, and departed herself with much propriety. Her husband, (Armijo), it is said, has gone to the Passo, and it is supposed, will continue on to the city of Mexico.

ONE OF THE "BLUE HEN" CHICKENS.—We extract the following from a letter written from Monterey, by Samuel W. Chambers, to his mother, at Wilmington, Del.

I was with Col. Jack Hays' and Walker's Texas mounted Rangers—we dismounted, and went in on the other side of the town we occupied the first day, fire-shooters and cutliss in hand, and took a battery. We suffered very much in entering through a heavy fire—our horses were nearly all killed. We scattered, every man for himself, (that was left of us) into houses, and fired out. I was one of the fortunate ones. I sometimes think that I was not born to be killed. Since the war with Mexico, I have had six horses killed under me. In August I had 100 men in my charge, reconnoitering, and was surrounded by General Canales' cavalry, just above Veraugo, and I lost 60 of my men, and killed 200 of the Mexicans. Monterey is surrounded by mountains. The Mexicans had twenty pieces of artillery mounted around the town. They had them to rake the streets, which they did.

THE THOUSAND DOLLAR SHAWL.—"See!" said a sweet-faced lady to a young gentleman with whom she was walking past one of our fashionable churches. "See!" said she, pointing to a lady who was entering the consecrated building, "that lady has on a thousand dollar shawl!"

He looked at the lady, who for mere ornament, (for it had not the qualities of warmth,) could make so prodigious an outlay for a single piece of garment. But, say her poorer neighbors, who is very charitable; she is secretary to an association for relieving the poor. This made me think better of her. Meeting a friend, he told him of what he had seen, giving him also a description of the lady, and of his pleasure in knowing that so wealthy a lady had a charitable heart.

"Wealthy! wealthy! Charitable heart! My dear sir, she carries all she owns on her back, except her lap dog. Her husband, poor devil, is bankrupt, and no wonder. Charitable! Yes! A poor child came shivering, and asked alms; the maid stated the case to the mistress. 'Well, Bridget, it is hard, but I cannot help her. Tell her we have nothing to give her now.' Bridget was going down stairs to send the little girl away as hungry as she came; but she was wanted. 'Bridget, poor Toby's sick; he has no appetite. I fear I shall lose the little brute. Here is a half dollar; take it and buy him a chicken. I think if it is nicely cooked, he may relish it.'

THE COLLECTOR AND IRON MASTERS OF VERMONT have held a meeting, propose to ask for a modification of the new tariff.

GRAMMATICAL TAUTOLOGY.

I'll prove the word that I've made my theme, Is that that may be doubled without blame; And that that that, thus troubled, I may use, And that that that that critics may abuse May be correct. Farther—the dots to bother— Five THATS may closely follow one another! For be it known, that we may safely write Or say, that that that that that man writ was right; Nay, e'en, that that that that that that follow'd Thro' six repeats the grammar's rule has hal-low'd; And that that that that that that began Repeated seven times is right. Deny't who can.

GRAIN.—Wheat, white is worth 115 & 116c; do red 105 & 106c. Rye is held at 70c. Corn—65c for Penna. round, 60c for flat, and 63c for white. Oats are worth 30 & 31c. WHISKEY.—21 & 22c per gallon.

A DETERMINATION OF BLOOD TO THE HEAD, as it is called, can be accounted for upon no other principle than from corrupt and stagnant humors in the venous circulation, which prevent a proper return of the vital fluid to the heart. The blood can have no more predilection for the head than for any other part; indeed its own specific gravity would give it a tendency to the extremities; but when the passages are choked up, and it comes, as it were, prisoner in the head no wonder there is a distention or swelling of the blood vessels, a pressure upon the brain, and headache, giddiness, palpitation of the heart, insanity, apoplexy, and other dreadful results.

Wright's Indian Vegetable Pills are always certain to prevent the above unpleasant complaints, because they expel from circulation those very humors which are the cause not only of all disordered motions of the blood, but of every malady incident to man. They also aid and improve digestion, and therefore will most assuredly give health and vigor to the body, as well as prevent any evil consequences from what is termed a rush of blood to the head.

CAUTION.—It should be remembered that Mr. Edward Cole, of Philadelphia, Mr. John Dixon, of Easton, Pa., and Messrs. Browning & Brothers, of Philadelphia, are not agents of ours, and as they purchase no Wright's Indian Vegetable Pills at our office, we cannot guarantee as genuine any medicine they may have for sale.

Agent for the sale of Wright's Indian Vegetable Pills in Sunbury, HENRY MASSER. For other agencies see advertisement in another column.

CAUSE OF WORMS.—A CURE FOR WORMS.—Worms are formed from the foul humors which settle in the stomach and in the intestines, because these matters have acquired, by their degeneration, a strong slimy nature proper to the concentration of those insects. They are variously named—the round worm, generally in persons of tender years; the tapeworm, a most troublesome insect; and also the long thread worm, the tenes or tape worm, &c. &c. They exist under different forms, sometimes they knit together and go out into balls; often they divide and go out one after another. When they ascend through the intestinal canal, they may be ejected by the mouth, and even by the nose. When this happens the patient is in such danger, such symptoms being strong evidence that his system is dangerously encumbered with the corruption, and its removal and these two afflictions when united, may cause instant death, or a short illness, ending in inevitable death.

Brand et al's Pills remove not only the worms of whatever kind, but also the humors which form them, and upon which they feed. Besides, they have the property of evacuating every substance which might favor a new formation of worms, by regenerating the mass of humor.

Purchase of H. B. Masser, Sunbury, or of the agent, published in another part of this paper.

MARRIED. On the 1st inst., by the Rev. J. W. Haughwout, Mr. CHARLES GOLICK to Miss SMITH, both of Augusta township.

Dyspepsia of 10 Years' Standing. The wife of Captain Roberts, on Vine Street, near Water, Cincinnati, has been afflicted with DYSPEPSIA in its most aggravated form for the last ten years, was recommended by celebrated physicians of Boston, New York, Philadelphia, Baltimore, and Cincinnati, to travel, as they could do nothing for her. She did so, but it did her no good. She then commenced using the most powerful medicines of the day for her complaint, but they did her no benefit. Going to a friend of Dr. Smith's, she concluded to give them a trial—sent to G. F. Thomas, Main street, between Third and Fourth, Dr. Smith's Agent for Cincinnati, and purchased a box, took them according to direction, and was with her first day that she derived more benefit from the use of one box of Dr. Smith's Sugar Coated Veg. Table Pills, than from any other medicine she has made use of during the ten years. (The above was sent to G. F. Thomas on the 31 Dec. 1844.)—Cin. Times.

CAUTION.—As a miserable impostor has been made by the name of "Sugar Coated Pills," it is necessary to be sure that Dr. G. F. Thomas's signature is on every box. Price 25 cents. Principal Office, 179 Greenwich St., New York. Sold by JOHN W. PHILING, Sunbury, WM. FORSYTHE, Northumb'd.

FEVER & AGUE.

TENS OF THOUSANDS of untalented beings in the "Ague Section" of our country are now tormented with that hateful complaint, FEVER & AGUE, or BILIOUS INTERMITTENT FEVER, or CHILLS AND FEVER, as it is variously called. The source of this evil is the community "from Maine to Georgia," and from the Atlantic to the Rocky Mountains, declares ROWAND'S IMPROVED TONIC MIXTURE to be the great and only safe, sure and radical cure, when properly used. This cannot be over-stated. It restores the natural feelings and elasticity of the constitution in a manner that nothing else will. Extract of a letter, dated LAWISTON, Pa. Oct. 16, 1842. "Every bottle of the Improved Tonic Mixture sent has been sold, and I do not know of one instance that it did not effect a cure. Four bottles cured five cases of the worst kind of Fever and Ague—one case was myself. After trying Quinine and all other cure thought of by my Physician, finding no relief, I finally sent for one bottle of your Tonic Mixture, and was relieved, in fact cured in 24 hours. Please send on a fresh supply, as there is none left." You're truly, SAMUEL HOPPER.

Sold on Agency in Sunbury, by H. Masser and others, and all the Storekeepers in the adjoining Counties. October 17, 1846.—

A NATURAL REMEDY

Suited to the Human Constitution, and equal to the cure of every curable Disease, will be found in WRIGHT'S INDIAN VEGETABLE PILLS, OF THE North American College of Health.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil, and are, therefore, better adapted to our constitutions than Medicines imported from foreign drugs, however well they may be compounded; and as WRIGHT'S INDIAN VEGETABLE PILLS are founded upon the principle that the human body is in truth SUBJECT TO BUT ONE DISEASE, namely, corrupt humors, and that said Medicine cures this disease on NATURAL PRINCIPLES, by cleansing and purifying the body, it will manifest that, if the constitution is not entirely exhausted, a perseverance in their use, according to directions, is absolutely certain to drive disease of every name to the body. When we wish to restore a revamp of morals to fertility, we don't it of the superabundant water. In the manner, if we wish to restore the body to health, we must eliminate it of impurity. WRIGHT'S INDIAN VEGETABLE PILLS will be found one of the best, if not the very best medicine in the world for driving out this GROSS PURGATIVE PALLET, because they expel from the body all morbid and corrupt humors, the cause of the disease, in an easy and Natural Manner; and while they every day give rise to new humors, disease of every name is rapidly driven from the body. The full and highly respectable storekeepers have been duly authorized agents for the sale of Wright's Indian Vegetable Pills, in Northumber-land County: Henry Masser, Sunbury, E. & J. Kaufman, Augusta township, Samuel Herb, Little Mahanoy, William Deppen, Jackson, Bennevise Hollister, Upper Mahanoy, John G.
