RETURNING TO THE WAR.—We find in a HANCE'S SARSAPARILLA, OR BLOOD Pittsburg paper the following paragraph in reference to Capt. Hill:

Captain Hill .- Captain Hill arrived in this city, from the seat of government on Tuesday evening, and left yesterday on the steamhost New England, on his way to Mexico to resume the command of his company. The captain informs us that he has been invested with full power to have the mutineers in his company, who attempted his life at New Orleans, courtmartialed and properly punished. Capt. Hill exonerates Cole, Wynkoop and B'ack from all blame attached to his difficulty.

FROM St. DONINGO .- The N. O. Times says : -By the arrival here yesterday, of the brig Seaman, Captain Blackman, from Port-au-Prince which place the left on the 1st ult., we learn from a passenger, that President Ritchie left Port-au-Prince on the 15th January, with 15,000 troops for Hayti. It was intended to raise 6000 men more, in order to increase the army to 35,-000. The remainder of the army were at Portau Prince. Every thing remained quiet, and the laws were well adminis ered. Markets dull when the Seaman left.

THE NEW PLANET -- The bure, to of longitudes, of Paris, has come to an agreement with the prine pal astronomers of Europe, as Gausz, Encke Strure, and Herschel, to give the name of Septune to the new planet discovered under the indications of M. Le Verrier, by the sign of a trident .- Exchange paper.

The public has already given it a name, that of its discoverer. Le Verrier, an honor which is due this great mathematician and astronomer. especially since the attempt on the part of some of the English astronomers to deprive him of the merit of the discovery to which his profound investigation led him. It is laughable to see the earnestness with which a rival claim to this discovery has been urged by some of the English journals. One of them in its zeal cries out "Don't let the Frenchman have the new planet! Don't let him have is !"

SUBBER CRANGES.-There is nothing more trying to the human e nstitution than sudden changes of atmosphere. He t rarefies the blood, quickens the circulation, and increases the perspiration; but when suddenly checked, those humors which should pass off by the skin are thrown off inward y, causing coughs, e. Ida, consumpti n, difficulty of breathing, watery and influmed eyes, sore throat, fevers, theumatic pains in various parts of the body, and many other completate, the usual symptoms of catching cold.

Wrights Indian Vegetable Piels are a delightful medicine for carrying off a cold-because they expol from the body those humors which are the cause not only of the above complaints, but of every malady under heaven. Four or five of said Indian Vegetable pills taken every night on going to bed will, in a few days, carry off the most obstinate cold; at the some time the digestive organs will be restored to a healthy tone, and the blood so completely purified, that new life and vigor will be given to the whole frame.

Beware of Counterfeits .- The public are tan tioned against the many spurious medicines which, in order to deceive, are called by names similar to Wright's Indian Vegetable Pills.

Pills have the signature of Wm. Wright written with a pen on the top label of each box. To counterfeit this is Porgery, and all others should be

THE BRANDREYS PILLS are entirely Vegetable and made on those principles which long experience has proved correct. It is now no speculation, when they are resorted to in sickness, for they are known to be the best cleanuers of the stomach and tiowels, and in all dyspeptic and bilious cases they are a great blessing. Let every family keep these Pruze in the house. If faithfully used when there ts occasion for medicine, it will be very seldom that a Doctor will be required. In all cases of cold, tough, or thenmatism, the afficied owe it to their Lodies to use these Pille.

SOMETHING NEW!

THE Subscribers have the exclusive right wending J. M. THATCHER'S Hot Blast Hot Air Cooking TO WE.

in the counties of Northumberland, Columbia and Schuylkill; and from the encouragement met with already, they expect to do a large tusiness. This store is constructed on an entirely new principle, and on the only principle that con make both a good wood and coal stove. The inventor has oversome all the difficulties that so frequently belong to other sloves. He has by his arrangement, con-structed a broffing Oven in front, where in broiling, reseting, frying or baking may be done, and all the smell that sriers therefrom must pass into the combunible chamber, and is not at all thrown out into the room D Bee'des this, there is an oven only two inches less than the whole size of the store, wherein baking or rossting may be done as well as it can be in the common brick oven. This oven is always fit for nee when the stove is heated, as the whole draught of hot air passes a-

reund it constantly.
Peblic attention is particularly called to the stove. It can be eren at our Store and Tin E-tab-lishment in North Danville, at the sign of the Coumbia Tin shop, and at the Found y of Robrbach & Clement in Sunbury, where its particular quali-ties will be fully shown and explained to any person wishing to examine it.

The subscribers continue to have on hand all kinds of parlor stoves, such as radiators, eylenders, fancy and plain, suitable for all who may favor us with a call; also common sheet and Russis Iron. which can be made in any desirable shape; tog ther with a general assortment of tin and japanned ware, wholesa's and retail. The undersigned, having seen in operation the hot biast hot air cooking stove, invented and patented by J. M.
