

**The Crops.**  
 The New York Journal of Commerce says—  
 A gentleman who has just returned from a tour through the States of New York, Ohio, Indiana and Illinois, informs us that in the Northern part of the two last mentioned States (particularly Illinois); the fall-sown wheat is a good deal winter-killed; but that with this exception, the crop looks well throughout the whole region. He is of opinion that the crop of Ohio and New York will be as large as last year.—Another gentleman just arrived from Illinois, tells us that not only in the North, but in the Southern part of the State, and in fact throughout the State, the wheat is very much winter-killed, and that in numerous cases the fields have been re-sown, the grain being simply harrowed in, so as not to destroy the surviving part of the winter-sown.—Our informant is of opinion that Illinois will not raise more wheat this year than will be required for the consumption of her inhabitants. He however says there will be oceans of Indian corn, and that if the price of wheat should be high, a portion of it will be sent off, and its place supplied at home by the coarser article. In the Southern part of Wisconsin and Iowa he says the wheat crop has suffered in the same way as in Illinois; but perhaps not to such a degree. In Michigan he understands there is a prospect of an excellent crop. There has been no lack of rain in any of the Western States. In Western New York, rain was much needed.

The Westminister, Md., Carrollton of yesterday says—  
 We have had no rain in this county of any account for several weeks, and as a necessary consequence much of the wheat looks bad. In the limestone land not more than half a crop is expected, whilst in the red land it cannot exceed one-third of a crop.

The Norfolk Herald of Thursday says that much of the growing wheat in the vicinity of that place is stunted by the drought, and prematurely heading. The Corn crops have suffered from frosts.

**A SIGN.**—The Democrats of Sussex county, N. J., a county which polls a larger Democratic majority than any other in the State, have called a meeting for the 25th inst. to nominate Gen. Taylor as a candidate for the Presidency.

**GEN. TAYLOR'S FARM.**—We are happy to learn that the Mississippi flood, which swept a few days ago over Gen. Taylor's plantation, did little or no injury to his property. The old General himself can stand fire, and his farm can stand water.

The exports of Breadstuffs from Baltimore to England and Ireland, during the week ending Thursday evening, says the Baltimore American, were 16,403 bbls. Flour: 20,227 bushels Wheat; 79,960 bushels Corn; 35,000 bushels Oats; 13,000 bushels Ship stuff; and 2,421 barrels Corn Meal—the aggregate market value of which was at least two hundred and thirty thousand dollars.

The taxes to be paid by the citizens of New York this year exceed \$2,500,000. The expenditures of last year exceeded the income \$11,737, which amount is added to the taxes of the present year.

**THE ILLUMINATION** in New Orleans on the evening of the 15th, in honor of the victories in Mexico, was a magnificent affair. Upon the single building occupied for the Mayor's office, there were 7,000 lamps. Some of the squares had variegated lamps hung around the railings and suspended upon the trees, while in the centre pyramids, completely festooned with tapers, produced an agreeable contemplation.

**COL. YELL'S SON.**—The President, it is stated, has taken the son of Col. Yell to adopt and educate him as his own son. Col. Yell and the President were warm personal as well as political friends. The last letter which the brave soldier is supposed to have written was to Col. Polk, directing the advance of Col. Yell's pay due to his family. He was poor, and his family were dependent upon him.

A letter in the New York Courier says that one of the volunteer companies recently raised in Missouri for service in Mexico is commanded by an old and respected citizen of St. Louis, about fifty years of age, and worth at least \$100,000, who served in the last war with Great Britain.

The train of cars from London to Birmingham, on the 25th ult., went the distance in two hours and thirty minutes, including three stoppages, to allow other trains to pass in opposite directions. This is at the rate of fifty six miles an hour. A part of the distance was run at the rate of seventy five miles an hour. Twenty-one miles were run in twenty-one minutes.

**SUICIDE OF A YOUNG LADY.**—On Tuesday considerable excitement was created at Pittsburgh in consequence of a young and beautiful female committing suicide by jumping from the Monongahela Bridge. Her name was Elizabeth Richardson.

The following is a list of the new American papers published in Mexico:

**AN ILLINOISIAN IN BATTLE.**—The following incident is mentioned as having occurred at the battle of Quena Vista during the severest part of the fight.  
 Captain Coffey, who commanded a company in the Illinois Regiment, received a very severe wound in the left arm, fracturing it; the lieutenant colonel of the regiment was standing near him. The gallant captain came up to him and said—"Colonel, I am wounded, but must stick to my company." In a few minutes he returned to the same officer, and exclaimed—"Colonel, they've shot me again." He had then received a ball in his left shoulder. "I am sorry for it—stay with your company as long as possible," was the reply to him. Capt. C. returned to his company, and in a few minutes an 18 pound shot struck the ground a few feet before him, ricocheting over his head and covering him with sand and gravel, and stinging him severely with the pebbles thrown into his face. Faint with the loss of blood from his two wounds and under the impression that the explosion of a shell had severely wounded him, he returned a third time to the same person, exclaiming—"Colonel, I am now torn to pieces, and must get away if I can, but never yield the day to them;" and yet he was neither a Mississippian nor a Kentuckian, but a plain, straight forward Illinoisian, who had been shot twice and torn to pieces once before he gave way.

**PHILADELPHIA MARKET.**  
 TUESDAY, MAY 25.  
**Flour and Meal.**—The market for breadstuffs is still inactive, and without material change in prices. We notice sales of 1800 to 2000 bbls of Flour, at \$9. In consequence of the more abundant supply and lower prices at New York, we hear that 3000 bbls were bought there yesterday for this market. Sales of Corn Meal at \$5 a 55¢ and \$5 44. Rye Flour is worth \$6 41¢.

**GRAIN.**—Wheat is still in demand, at \$2 05 for red and \$2 10 a \$2 12 for white. Large sales of Corn at \$1 14 a 1 16, weight. Oats, Southern, 60¢; Northern 65¢.  
**WHEATKEY** is firm at 35 a 37¢.

**BALTIMORE MARKET.**

 We note a sale of Virginia Oats at 58 cents; another of Md. at 60 cents; and a cargo of North River at 62 cents.  
**WHISKEY.**—The demand is moderate at 34 cents for hds. and 35 cts. for bbls—sales of the latter to day.

**Downiness, Swelling of the Head, a roaring noise in the ears, headache, palpitation of the heart, &c.**—Wright's Indian Vegetable Pills are a certain cure for the above unpleasant complaints, because they purge from the body those stagnant and corrupt humors which, when floating in the general mass of circulation, are the cause of a determination or rush in the blood to the head, giddiness, loss of memory, dimness of sight, downiness, pain of the head, and many other symptoms of a loaded and corrupt state of the blood.

Wright's Indian Vegetable Pills are also one of the very best medicines in the world for the cure of indigestion, and therefore will not only remove all the above unpleasant symptoms, and entirely prevent any evil consequences resulting from a rush of blood to the head, but will most assuredly restore the body to a state of sound health.

Beware of counterfeiters of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.  
 Agent for the sale of Wright's Indian Vegetable Pills in Sunbury, HENRY MASSER. For other agencies see advertisement in another column.

**TRUST TO BRANDRETH'S PILLS,** take them so as to produce a brisk effect, and your sickness will be the affair of a day or two, while those who are too wise to follow this common-sense advice, will be sick for months. Let the sick enquire of the agents for Brandreth's Pills whether these things are so or not. Let them enquire among their friends and ask the same question. Verily if evidence is wanted it shall be procured. To the sick let me say, use the BRANDRETH PILLS; is the best advice mortal man can give you.  
 Purchase of H. Masser, Sunbury, or of the agents published in another part of this paper.

**Dyspepsia of 10 Years' Standing.**  
 THE wife of Captain Roberts, on Vine street, near Water, Cincinnati, has been afflicted with DYSPEPSIA in its most aggravated form for the last ten years, was recommended by celebrated physicians of Boston, New York, Philadelphia, Baltimore, and Cincinnati, to travel, as they could do nothing for her. She did so, but it did her no good. She then commenced using the most popular medicines of the day for her complaint, but derived no benefit. Seeing an advertisement of DR. SMITH'S VEGETABLE SUGAR COATED PILLS in the paper, she concluded to give them a trial—sent to G. F. Thomas, Main street, between Third and Fourth, Dr. Smith's Agent for Cincinnati, and purchased a box, took them according to direction, and can with heart feel joy state that she derived more benefit from the use of one box of Dr. Smith's Sugar Coated Vegetable Pills, than from any other medicine she has made use of during the ten years. (The above was sent to G. F. Thomas on the 3d Dec. 1844.—Cin. Times.)

**CAUTION.**—As a miserable imitation has been made, by the name of "Sugar Coated Pills," it is necessary to be sure that Dr. G. F. THOMAS'S signature is on every box. Price 25 cents.

**TESTIMONY IS NOW RECEIVED FROM ALL QUARTERS OF THE GLOBE.**  
 THE following letters are presented with a view to more fully showing the opinions of physicians in relation to the medical value of Dr. SWANEY'S COMPOUND SYRUP OF WILD CHERRY.  
 Dr. SWANEY—Dear Sir, Having used your Compound Syrup of Wild Cherry, extensively in my practice, I was requested by your agent, Dr. Crocher, to express my opinion in writing of its properties as a remedial agent. I most cheerfully comply, as I feel by so doing, I will discharge a debt I owe the community at large, and physicians in particular. As much as I detest quick remedies and patent nostrums, I was induced from a failure of the most potent expectorants, recommended to us in our materia medica, in some cases of Diseased Lungs, to try your preparation of Prunus Virginica or Wild Cherry. It is sufficient to say that I was so much pleased with the result of that and subsequent trials that I now prescribe it in preference to all other remedies where an expectorant is indicated, in the much dreaded Pneumonia or Disease of the Lungs, in the alarming form in which it appears in Kentucky, I regard it as an invaluable remedy in the treatment of that disease. To all who know me I have said enough, but as this may be seen by persons out of the vicinity of Frankfort, I will briefly add, that I have been engaged in an active practice of my profession for 12 years, and am a regular graduate of Transylvania, and this is the first patent medicine I ever thought enough of to express an opinion in writing.  
 J. H. ELLISON, M. D., Franklin Co., Ky.  
 FRANKFORT, Ky., Jan 7, 1847.  
 The above certificate is from one of our physicians living a few miles from here, he is doing a very good practice, and is considered a good physician, and stands fair; he is as he says, a regular graduate.  
 Dr. W. L. CRITCHFIELD, Druggist and Apothecary.  
 Since the introduction of my article to the public, there have a number of unprincipled individuals got up nostrums, which they assert contain Wild Cherry, some are called "Balsam," "Bitters," and even Syrup of Wild Cherry, but mine is the original and only genuine preparation ever introduced to the public, which can be proved by the public Records of the Commonwealth of Pennsylvania. The only safeguard against imposition is to see that my signature is on each bottle.

**A VOICE FROM NEW YORK.**  
**PERSONS** afflicted with Cancer, Scarcia, King's Evil, Tetter, Salt Rheum, Erysipelas, Old Sores, Mercurial Disease, and all complaints arising from impurities of the Blood, are requested to Read the Following!!!  
**Rowand & Walton.**—Gent.—Feeling grateful for the extraordinary cure performed upon me by your Dr. CULLEN'S INDIAN VEGETABLE PANACEA, I feel it my duty to furnish you with a short history of my case.  
 When about 12 years of age, I was attacked with King's Evil. I was under the care of an eminent physician, and after a long course of medical treatment, was pronounced cured. At 14 years of age a disease, pronounced by some of the medical faculty as "Scarcia," and by others "Cancerous," manifested itself. This disease increased in its ravages, till my throat was filled with ulcers, and my face was covered with them; my nose was ulcerated and swollen to apparently four times its natural size. I also had tumours in my breast, and ulcers under different parts of my person. I was placed under the care of various times of the most eminent physicians of New York, Philadelphia, Baltimore and Cincinnati, who after having used their utmost endeavors to effect a cure, my case by them was pronounced incurable. I have travelled over 21 states of the Union seeking relief; no expense was spared, and a large amount of money was expended, but all in vain. I then used large quantities of Swain's Panacea. I have also taken Carpenter's Scarcia Pills, Scherck's Pulmonic Syrup, Townsend's Sarsaparilla, and numerous other preparations without effect; my throat, nose and face were still ulcerated, and at length I lost entirely the sense of smelling. I continued in this deplorable condition for about two years, having given up all hopes of recovery, I resigned myself to the will of Providence, supposing that every means of relief had failed. On the 5th day of August last I commenced taking your Dr. CULLEN'S INDIAN VEGETABLE PANACEA, having but little hopes of its benefiting me. After having used one bottle, I discovered to my utter astonishment and gratification, that my sense of smelling was entirely restored, and that the ulcers were rapidly diminishing in size. I have now taken three bottles of the panacea; my face, mouth, throat and nose are entirely healed. I am now 40 years of age, and after 28 years of indescribable suffering, my general health is better, and in fact, at no period of my life have I felt as well as I have since using your invaluable Panacea.

**SOMETHING NEW!**  
 THE Subscribers have the exclusive right of vending J. M. THATCHER'S  
**Hot Blast Hot Air Cooking STOVES,**  
 in the counties of Northumberland, Columbia and Schuylkill; and from the encouragement met with already, they expect to do a large business. This stove is constructed on an entirely new principle, and on the only principle that can make both good wood and coal stoves. The inventor has overcome all the difficulties that so frequently belong to other stoves. He has by his arrangement, constructed a boiling  Oven in front, where, in boiling, roasting, frying or baking may be done, and all the smell that arises therefrom must pass into the combustible chamber, and is not at all blown out into the room. Besides this, there is an oven only two inches less than the whole size of the stove, wherein baking or roasting may be done as well as it can be in the common brick oven. This oven is also a fit for use when the stove is heated, as the whole draught of hot air passes around it constantly.  
 Public attention is particularly called to this stove. It can be seen at our Store and Tin Establishment in North Danville, at the sign of the Columbia Tin shop, and at the Foundry of Ruhlrich & Clement in Sunbury, where its particular qualities will be fully shown and explained to any person wishing to examine it.  
 The subscribers continue to have on hand all kinds of parlor stoves, such as radiators, cylinders, fancy and plain, suitable for all who may favor us with a call; also common sheet and Russia Iron, which can be made in any desirable shape; together with a general assortment of tin and japanned ware, wholesale and retail. County merchants are invited to call and examine our stock, as our work cannot be surpassed, and prices moderate.  
 N. B. We can rarely recommend the above mentioned stove to persons who wish to embark in a good business. The pantries will sell either county or state rights, to suit purchasers, and on reasonable terms. He or his agents may be found in Danville, Pa.  
 J. & J. ARTER.

The undersigned, having seen in operation the hot blast hot air cooking stove, invented and patented by J. M. Thatcher, certify that we believe, from the manner of its construction and operation, that it is the best one ever offered to the public. The arrangement is so complete and the construction so judicious, that there is a saving of one half the fuel and time, in doing any given amount of service, over other celebrated stoves. In short we recommend it in preference to all others, for the simplicity it embraces every branch of economy.

**IT IS WRITTEN IN THE BOOK OF NATURE AND OF COMMON SENSE,** that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to each peculiar climate.  
**WRIGHT'S INDIAN VEGETABLE PILLS,**  
 OF THE North American College of Health, are composed of all plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than Medicines imported from foreign climes, however well they may be compounded; and as they are founded upon the principle that the human body is a truth.  
**SUBJECT TO BUT ONE DISEASE,** namely, corrupt humors, and that said Medicines cures this disease on NATURAL PRINCIPLES, by cleansing and purifying the body, it will be manifest that, if the constitution be not entirely exhausted, a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.  
 When we wish to restore a swamp or morass to fertility, we drain it of the superabundant water. In like manner, if we wish to restore the body to health, we must cleanse it of impurity.  
**WRIGHT'S INDIAN VEGETABLE PILLS** will be found one of the best, if not the very best medicine in the world for carrying out this GRAND PURIFYING PRINCIPLE, because they expel from the body all morbid and corrupt humors, the cause of the disease, in an easy and NATURAL MANNER; and while they every day drive out all the disease of every name, it rapidly drives from the body.
