

# TUB, PUB Provide Recreational Facilities In Lieu Of SU Building

Until the Student Union building becomes a reality, Penn State men and women will be spending a good deal of their spare time in the Temporary Union Building, popularly known around campus as the TUB.

The men in the Nittany-Pollock area will find additional recreation facilities for their use in the Pollock Union Building, or PUB. Women students may relax and entertain themselves at White Hall.

The TUB, located on Shortlidge Road behind the College Infirmary, has twin lounges in each wing, a main lounge, a good-sized dance floor, a stage, and game facilities. Playing cards, checkers, table tennis, and other games are available.

**Has Snack Bar**  
A snack bar located in the main lounge offers ice cream, coffee, and candy. Several soft drink and cigarette vending machines also are located around the building. A juke box provides music for listening or dancing, and pinball machines are available for their enthusiasts.

Also housed in the TUB is the Student Book Exchange.

The TUB was purchased and brought to the campus from Lebanon, where it had served as a USO center during World War II.

On week days the TUB will be open from 8 a.m. to 10 p.m., and on Fridays and Saturdays, from 8 a.m. to 1 a.m. Sunday hours are from 2 to 10 p.m.

The PUB, for men only, and located in the middle of Pollock Circle, offers a lounge where men can play cards, checkers, and chess. A variety of magazines are available at the office, and pinball machines as well as soft drink and cigarette vendors are located throughout the build-

ing. The PUB also has table tennis equipment.

Also housed in the PUB is the main office of the Student Dry Cleaning Agency. Hours for the PUB are the same as those of the TUB.

Mary Beaver White Hall, commonly called White Hall, was built with the relaxation and enjoyment of the co-ed in view.

**Built In 1938**  
Constructed in 1938, the building not only houses women's physical education and recreation classes, but also offers recreational facilities for the individual woman, as well as for clubs and organizations.

The large gymnasium in the center of the building has room for three basketball courts, and also is used for badminton and indoor tennis.

To the left of the gym is the rhythm room, where classes in rhythmic fundamentals, modern dance, and square-dancing are taught.

Table tennis and bridge facilities are located in the playroom, which is open to the co-eds at all times.

White Hall also features a 75-foot-long, 135,000-gallon swimming pool, from three to ten feet deep.

Also offered to the women

students are two bowling alleys, a shuffleboard court, a squash court, an indoor rifle range, and a fencing room.

Offices of the women's Physical Education department, a large lounge, and the meeting rooms of the Women's Student Government Association and the Women's Recreation Association are also housed in the building.

White Hall is open from 8 a.m. to 9 p.m. every day except Sunday.

### Petrol Eng Officers

New officers of the Petroleum Engineering society are: Harry Bauer, president; Harold Heber-

ling, vice-president; Leslie Plumb, secretary-treasurer; and Richard Sennett, corresponding secretary.
