

News from AP and UPI

Bill aids hard-hit areas

WASHINGTON (AP) — Sens. John Heinz, R-Pa., and Joseph Biden, D-Del., proposed legislation yesterday they claimed would combat "the human and economic suffering" caused by this winter's cold weather and natural gas shortages.

Federal aid for laid-off workers, businesses and communities hard-hit by energy shortages is needed to forestall a "regional recession" in the industrial Northeast, the senators said.

Their bill would allow laid-off workers to receive up to 85 per cent of their regular weekly paychecks for three months and then up to 70 per cent for another three months if they remain off the job.

The two senators said such assistance, which would supplement regular unemployment insurance benefits, is needed because some factories without natural gas may be unable to reopen until next autumn.

The bill also would make special low-interest loans and federal grants available to hard-pressed businesses and communities.

Deal promised gunman

INDIANAPOLIS (AP) — Authorities promised a vengeful gunman total immunity from prosecution last night if he released the mortgage company executive he has held hostage

for two days in an explosive-rigged apartment.

There was no immediate response from the gunman, Anthony G. "Tony" Kiritis, 44, of Indianapolis, who has vowed vengeance for what he thought was a plot to cheat him on a \$130,000 loan.

The immunity offer, which authorities said would mean no arrest and no psychiatric treatment, was authorized by Prosecutor James A. Kelley more than 36 hours after the tense drama started in Richard O. Hall's downtown real estate office.

Kelley had said he would offer immunity "if it is necessary to save a life and prevent anyone from being injured."

Earlier, Hall, a 42-year-old father of four, told police Kiritis was treating him well.

"This is Dick Hall. I've got food. I've got water and I'm being treated all right," Hall told authorities trying to negotiate his release.

ERA nearing ratification

By UPI

With only three more states needed to ratify the Equal Rights Amendment, the North Carolina House of Representatives voted for the measure yesterday, 24 hours after it suffered a setback in Idaho.

The ERA amendment went to the Senate in North Carolina, and advocates put pressure on the South Carolina legislature.

Nevada state senators, under an implied threat that Hollywood's stars might boycott the Las Vegas casinos if they

didn't, passed the amendment Tuesday. But opponents said the vote was illegal and would be tested in court.

The Screen Actors' Guild had announced its members were reluctant to perform in a state which had not passed ERA.

In Idaho, the second state in the country to pass the amendment when it gave overwhelming approval five years ago, the legislature retracted the measure Tuesday.

But supporters of ERA declared yesterday the vote was illegal — an issue the U.S. Supreme Court may have to decide.

Rubin Carter sentenced

PATERSON, N.J. (AP) — Former middleweight boxer Rubin "Hurricane" Carter and codefendant John Artis were sentenced yesterday to life prison terms for the murder of three bar patrons in 1966.

The sentences were the same they received 10 years ago at their first trial — a proceeding replayed here in December with similar guilty verdicts as the result.

Superior Court Judge Bruno L. Lepizzi sentenced Carter, 39, to two consecutive life terms and one concurrent life term, making him eligible for parole in 1995. Artis, 30, received three concurrent life terms. He will be eligible for parole in 1982.

Carter and Artis were convicted in 1967 of murdering three people in a local bar. They fought to overturn the verdicts for nine years. Their request for a new trial was granted by the State Supreme Court.

But after weeks of hearing evidence a jury again returned guilty verdicts.
