CARLISLE, PA.

WEDNESDAY, DECEMBER 24, 1845.

SEARS' NEW PICTORIAL AND ILLUSTRATED FAMILY MAGAZINE.—We have received the January number of this new and beautiful Magazine. It appears in large octavo form of fifty pages, and contains thirteen page engravings. The contents are of a useful and and practical character. Price $1,50 per annum, and five copies furnished for one year for five dollars. See p.o pe.s us.

ARREST OF TIRELL, THE SUPPOSED MURDERER OF Miss BICKFORD.—Capt. Younes, of the New Orleans police, has arrested Albert J. Tirrell, charged with the murder of Mrs. Bickford at Boston, on board the ship Saltana, just arrived at that port. He was fully identified by two citizens of New Orleans who formerly had known him in Massachusetts, and afterwards he himself acknowledged his identity. When first arrested he attempted to jump overboard and drown himself. He was fully committed to await the requisition of the Governor of Massachusetts.

MINOR MORALS IN CONGRESS.—The Washington correspondent of the New York Gazette, complains that an honorable member from Indiana smokes segars in the House, directly under the gallery occupied by the ladies.

A correspondent of a Baltimore paper mentions that he saw a member of Congress led down Capitol Hill, in a state of royal elevation shut up in measureless content, and so fortunate was he in his "aids," that they partook in a considerable degree, of his qualities, and made a clean job of the side walks.

THE FLIGHT OF THE MORMONS.—Twenty-five companies of 100 families each, are about leaving Nauvoo for California, and it is said that the wagons which are to convey them and their baggage, will number 5000, and will form a line of 25 miles long! In the front is to be a printing press and type, from which will be issued every morning a paper, to be sent back to inform the rear guard what is going on in the van.

☞ Rev. Mr. Scott, a clergyman who figured very extensively during the late campaign as a slanderer of HENRY CLAY, charging that gentleman with playing cards &c., is now on trial before the Presbytery of Louisiana, on charges growing out of his conduct He will doubtless have to follow the example of Mr. CLAY's other slanderers—confess himself a calumniator.

☞ Prentice says, it was stated some time ago, that the Administration had been making a diligent but unsuccessful effort to ascertain the whereabouts of Delazon Smith, sent abroad by Mr. Tyler, in order to recall him. We now learn that Mr. Polk has succeeded in discovering that he is at the capital of the Republic of La Plata, South America, where he was sent *to find out whether it had a Government*. Mr. Polk could find out where he was only by stopping his supplies. Then Delazon "turned up" very quick.

PRENTICE'S LAST.—The Louisville Journal says: "A Rocky Mountain correspondent of the New York Post, who signs him elf Henry E. Land, describes Oregon as the most delightful country in the world. Our readers in they choose, can go out ther and see how the Land *lies*.

☞ A man in Cincinnati objects to the Order of the Sons of Temperance, because in a certain place the Scripture says, "Let there be no *divisions* among you."

Another Triumph over Consumption.

BY THOMPSON'S Compound Syrup Tar and Wood Naphtha. Consumptives read the following:

HARRISBURG, November 18, 1845.

Dr. S. P. Thompson:—Dear Sir—I consider it a grateful duty to publicly acknowledge the benefit I have derived from the use of your invaluable medicine, the Compound Syrup Tar and Wood Naphtha. In the spring of 1844 I was taken sick with Bilious Fever, and was very ill for a long time. After I had partially recovered, my physician informed me my lungs were affected, and treated me accordingly. His skill had no effect, for instead of getting better, I daily grew worse. I was finally informed by him that "I was incurable and must die, and that nothing remained but preparation for another world." My weakness increased until I was confined to my bed; I had very severe pains in my breast, side and back, shortness of breath, and I was so very hoarse that my voice could not be heard unless the ear was applied close to my mouth. My cough was terrible, harrassing me night and day, so that I could obtain very little rest. While suffering in this manner, with no hope of relief, I saw your advertisement in the "Union" of this borough, with the certificate of a lady of Philadelphia appended, which so nearly described my case, that I resolved to try your medicine, and its effects upon me. I accordingly sent to your Agent, Dr. McPherson, and procured a bottle. I had not used more than one third of it before the hoarseness left me; I then took it regularly; the pain in my breast, &c. left me, shortness of breath and cough removed, and I am now able to walk about with renewed health and strength. You can make what use you please of this. I am willing to give any satisfaction that may be required of me if called on personally.

With great respect, I remain yours, &c.

A GREAT SAVING MACHINE,

AND NO MISTAKE.—ECONOMY THE ORDER OF THE DAY!

R. MILLER'S PATENT, for cutting and grinding or crushing Corn Fodder, which entirely obviates all the objections heretofore made for cutting and grinding or crushing Corn Fodder, &c. The subscribers have the satisfaction of announcing to the agricultural community, that they have purchased the right of manufacturing and vending the above mentioned machine in Cumberland county; and also that it is in successful operation at York, Pa. Every difficulty to its perfect execution having been fully surmounted, they feel warranted in stating that it is the most economical and excellent invention of the day for the purpose to which it is designed. For durability and power it has no equal in the many machines presented to the public for the same object; and all scientific men, machinists, mechanics and farmers, who examined or tested it, give their verdict in its favor. Its superiority consists in this, that it may be used by steam, horse, water or hand power, that it is more easily kept in order, and it performs its cutting and crushing by the same operation and does the work in a perfect manner. It is a great saving machine both in fodder and labor, as by the operation of it the farmer can make good feed of the whole corn stock from its root to its top, as it cuts and grinds or crushes the stock so fine that horses, cattle, or sheep, consume the whole of it; consequently it enables the farmer to feed five head of horses, cattle or sheep, to one with the same quantity of fodder, and makes better and stronger beef. With this machine one man can cut corn fodder sufficient to feed ten head of cattle in twenty minutes, and when attatched to horse power can cut or grind and crush in fifteen minutes sufficient to feed fifty head of cattle. For cutting hay or straw there is nothing can equal to it. For its simplicity and usefulness it commends itself at once to the farmer, and only requires to be seen to be duly appreciated.

The machine may be examined and purchased at either of the undersigned. At the Plough Manufactory of Jacob Plank, in Monroe township, Cumberland county, or at the Foundary of Franklin Gardner, Carlisle, Pa.

SCHOOL BOOKS,

J. M. KNEEDLER keeps constantly on hand all the various kinds of books used in the Public and Private schools, and is determined to sell them at a less price than they can be bought at any other establishment, in Carlisle, notwithstanding one of the book sellers sending notices to each of the teachers in Carlisle, to be read publicly in the schools, that he would sell the books at a less price than they can be bought elsewhere. Those families who bought books before the subscriber came to Carlisle know full well that he sells them at least 25 per cent less than they could be bought and that he was the first who reduced the prices of books in Carlisle.
