RECIPES for CURING BEEF & PORK

Several correspondents having desired the editor of the Germantown Telegraph to repub lish his receipt for curing beef and pork, he complies with the request, and not only inserts his own which he thinks cannot be surpassed but several others, comprising altogether the very best known.

The Germantown Telegraph Recipe,

The Germantown Telegraph Recipe,

To 1 gallon of water, take 1 pounds of salt, 1 pound of sugar, and 1 oz. of saltpetre; also, it will be better to add 1 oz. of pearlash. In this ratio the pickle to be increased to any desirable quantity. Let these be boiled together until the dirt from the salt and sugar, (which will not be a little,) arises to the top, and is skimmed off. Then throw the pickle into a large tub to cool, and when perfectly cool, pour over the beef or pork, to remain the usual over the beef or pork, to remain the usua time, say four or five weeks, according to the size of the pieces. The meat must be well covered with the piekle, and should not be put down for at least two days after slaughtering, during which time it should be slightly sprinkled with powdered saltpetre, to free it from th blood, &c. This pickle has been tried, with out boiling, and proved to be excellent.

T. E. Hamilton's Recipe.

The hams of Maryland and Virginia have long enjoyed a wide celebrity. The one which took the first premium at the late exhibition of the Maryland State Agricultural Society, was oured by Mr. T. E. Hamilton from the follow ing recipe:

To every 160 lbs of pork, take 8 lbs of G. A. salt, 2 oz saltpetre, 2 lbs brown sugar, 14 oz potash, and four gallons of water. Mix the above, and pour the brine over the meat, after that hain in the tub for some two days. Let the hams remain six weeks in the brine, and then dry several days before smoking. I have generally had the meat rubbed with fine salt, when it is packed down. The meat should be perfectly cool before packing.

New York Recipe.

A correspondent of the Albany Cultivator communicates the following recipe, which is regarded as very fine:

Make a pickle with eight pounds of salt, six ounces saltpetre, two quarts molasses, and three gallons of water, to one hundred pounds. Boil and skim the pickle thus propared. Then pack your ham in the barrels, and when the pickle is cold, pour it on to the mest, and in four weeks you have excellent ham, very ten der and sweet.

The Newbold Recipe.

The following is the famous Newbold receipt, which has acquired so much celebrity:

Soven lbs. coarse sait, 5 lbs. brown sugar, 2 oz. pearl ash, 4 gallons of water. Boil all together, and scum the pickle well when cold.— Put it on the meat. Hams to remain in 8 weeks—beef 8 weeks. The above is for 100

lbs. weight. These recipes all differ-but we think that though all may be good, the first will be found the best. Boiling the pickle is a decided advantage, as it tends to clear it of all impurities, and adds to the color and purity of the meat. If our friends cannot have good meat from the above, they may depend upon it the fault is their own, and not owing to the recipes. The ham should not be put down until the animal heat is entirely removed.

TO FARMERS & HORSE DEALERS

DOCTOR J. S. SEIBERT, Veterinary Surgeon, has returned to Carlisle, and located himself permanently for the purpose of operating upon diseased horses, and pledges himself to cure the most of diseases to which this noble animal is subject. He is able to cure Ring Bone, Tooth Bone and Bog Spavin, and all weak eyes which are supposed to be affected by hooks, without cutting the gland of the eye, and all eyes supposed to be affected with Wolf Toeth, without extracting the teeth. He can coure a fresh foundered horse in forty-eight hours as sound as ever. He also cures all distempers hoof bound, sprung knees, shulder jams, string halt, fistulas and pole evil. He can remove all callous enlarguents, and perform all, surgical operations that may be required of him. Persons having diseased horses who cannot leave them with him, can be supplied with all the medicines and directions for use. He charges nothing for examining a horse and locating their diseases. So, bring on your cripples.

He may be found at Henry Glass's Cumberland and Porry Hotel, Carlisle, where those wishing to engage his services are requested to call.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.
These Bitters are worthy the attention of invalids. Possessing great virtues in the recitification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED. Testimony of the highest character! HON. GEO. STROOP, Judge of the District Court in Perry county, Pa., Nov. 18th, 1852 said: "your 'Hoofland's German Bitters' has been in use in our place over a year past, and to the astonishment of many has performed wonders. We may notice a few instances that have come may notice a tew instances that have come under own immediate notice:—almost every person who has stopped at the hotel of Wm. Lackey, one year since, predicted from his emaciated countenance and debility; that he could not live much longer. He was unable to attend to his buiness, and for the greater part of the time confined to his room. We recommended but her the Georgea Sitters he part of the time confined to his room. We recommended him to try the German Bitters; he did; and to the surprise of all his friends he is now able to attend to his usual business and perform manual labor. The case of Henry Asper a stone mason, whom no one supposed would ever recover from the debility of his system, but was looked upon as fast approach ing the grave, took eight or mus buttles of the ing the grave, took eight or nine buttles of the Bitters during the last winter, and this sum-mer he has been [to the surprise of all who knew his case] following his trade. The case Bitters during the last winter, and this summer he has been Ito the surprise of all who knew his case] following his trade. The case of William Murphy is no less astonishing.—
He too was so far reduced as to induce the general belief that the grave alone would be his only remedy. Mr. Lackey recommended him to try the Hoofand's German Bitters; he is now apparently a well man, and able to do a hard day's work. We could mention many other cases of a similar character, if it were necessary. I myself derived much benefit from their use. I have given considerable of it away, not for your benefit alone, but to relieve suffering humanity, and let me assure you I am pleased to see the happy result. To the afflicted we say, try them fairly and I will warrant relief."

These Bitters are worthy the attention of it will be readed.

These Bitters are worthy the attention of is valids, possessing great power in the restoration of a healthy action of the liver and the WHOLES ALE and RETAIL lesser glands, giving tone to the stomach and nervous system, and bringing the system generally to a high state o, health.

MYERS' EXTRACT OF FOCK ROSE, An Invaluable Remedy for all Scrofulous Dis eases, Indigestion, Salt Rheum, Sick Head-ache, Cancer, Nursing Sore Mouth, and General Debility, and as a Purifier of the Blood it is

Unequalled. The Rock Rose has gained a reputation a The Rock Rose has gained a reputation at home and abroad, which no other medicine has ever done in the same length of time. According to the opinions of eminent Physicians, the Rock Rose Plant is unequalled in Curing Scrofula in its Various Forms!

STATEMENT OF REV. E. R. WARREN, (Pastor of the 2d Baptist Church, New London, Ct..) relative to Myers' Extract Rose.

To The American Public.

As my name has been used in connection ith recommendations of Mr. Myers', Rock Rose Syrup, in various advertisements by the manufacturer, I beg leave to make the following statement with reference to my acquaintance with the remedy and tests to which I have subjected it, and the reasons for having intro-duced it to the notice of private friends in the community in which I reside, long before the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sedulously. **Betaned from recommending them to the public, believing them frequently the spawn of quackery and humburg, and as tending to increase, instead of lessening human disease and suffering. Such, I tear, is the character of a large portion of the patent panaceas of this medicine making age. "Thoir name is legion," and from their influence, sa from the demoniacal spirite, we have reason to pray for a safe deliverance.

from the demoniacal spirits, we have reason to pray for a safe deliverance.

The First Test.—I had myself suffered occasionally with sudden attacks of Sick Headache is great variety of curative agents to but little purpose; and suffering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon myself. The results were beyond my expectations. It was a powerful alterative, and the morbit action of the sistem was changed, and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs, and gave me that inestimable blessing—health. This test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. My Sick Headache is entirely Cured. but I took four or five bottles in perhaps as many months. Since that time I have suffer-ed but slightly from these derangements. My Sick Headache is entirely Cured.

Other Tests .- Finding this medicine so useful to myself, I at once gave it to several inva-lid friends. About this time, I was earnestly severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The humor resembled black specks of mortified flesh. In addition to some other remedies. solicited to give advice in reference to a child, was thought doubtful whether she would live, The humor resembled black specks of mortified flesh. In addition to some other remedies, a gave the child this Syrup for about six weeks, when she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with G.d's blessing, to my remedies.

This test satisfied me that the Rock Rose family feel that they own her life, with G d's blessing, to my remedies.

This test satisfied me that the Rock Ruse possessed specific powers for Scrófulous humors. I then tested it in cases of Cutaneu. Seruptions, in Mensles, Chicken Pox, Cane x. Sure Mouth, Erysipelas, Salt Rheum, Piles, 80. In all these cases with perfect success. After testing this Syrup for more than a year, I wrote Mr. Myers (October 7th, 1850) enthusiastically, not expecting my letter would be published, that his Syrup was a "Pankorite," all healing, and I gave him the result of its operations in several instances. I stated in that letter that "it was invaluable as a remedy in Cutaneous Eruptions. Dr. Loudon says that in 1799, it was so valuable in Eugland, that it was cultivated from seeds. Ever since 1806, Professor Ives of Yale Col-lege, has habitually used it with great success n Scrofula and Chronic diseases, and through him its virtues were made known, until, as Dr Tylor says, "it is now in this section (New Haven) a common article in domestic practice for the cure of Scrofula and Cutaneous dis-

Dr. Whitlaw, a Scotch Botanist of notoricty, Dr. Whitiaw, a Scotch Butatist of notoricity, while travelling in America in 1814, learned its use in Canada. Returning to England, he employed it in medicating his baths, which became greatly celebrated for the cure of similar discrete.

Dr. J. H. Thompson, of the same place, pre-scribed it in bad cases of Scrofulous patients at Wills' Hospital. His success attracted the at Wills' Hospital. His success attracted the attention of senior physicians. He reports the following remarkable case of white swelling of the hip, in February, 1614:—The lad was seven years old, and had the disease three years. The bone was dislocated both upward end outward. There was a large opening in the hip leading to the bone; into which I could thank my force. I cannot divers there. He the nip leading to the bone; into which I could thrust my finger. I counted three ulcers. He had been under several physicians, who had given him up, I ordered a decection of Reck Rose. In two days his night sweats coased I then ordered a teaspoonful of Rock Rose three times a day. Thirty nine days after he was entirely well. Webb, of Madison, Ct., testifies to the

value of Ruck Rose, as evinced in the cure of numerous cases of the Scrofula, especially in Manufactured by W'm Franklin & Co., New

Mr. Z. LARE—Sir: Please send me mother bottle of Fit Medicine, as I do not like to be without it on hand. When I commenced giving the medicine to my son Edgar, he had from one to three his per day. He has now taken the medicine over five months, and has had, I think, but two fits his that t me, and those very light. His body and mind are very much improved; and by the blessing of God, I feel that the medicine will restore his body and mind to their conted activity. He is 28 years old, and has had fits over 12 years, which have been very frequent, and very destructive to his constitution and mind. Hundreds of dollars have been exprended for medicine to "cune firs," but nothing has relieved him until he used your medicine. Respectfully yours, POLLY BROOKS.

My opinion of its value for the above named diseases, remain unchanged, and the same as when I wrote Mr Myers in Oct. 1850. I do not recommend it for all the ills of our suffering humanity; but I unhesitatingly say, that as a remedy for Scrofulous affections I believe it superior to any known curative agent.

It has been sufficiently tested by domestic practice to establish its adaption to extensive usefulness in mitigating human suffering and removing diseases.

The increased interest manifested in the Rock Rose plant, in consequence of the many wonderful cures effected by Myers' Compound Extract of Rock Rose, calls for a brief history of it, in order to correct any errone is opinion that may have been entertained oncerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

"We are indebted to the United States Dispensatory of 1847, for the following description of it:

"It is entirely different from the common Rose. It is a red-stemmed, oblong leaf plant, having a bitter taste. In addition to remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says, that in the months of Nosymenhor and December, he has seen hundred of these plants, sending out near their roots, broad, thin, curved ice-crystals, about an inch in breadth: which melted during the day, and
