# Little Folks.

#### Susan Taylor and the Rose.

Susan Taylor was a very 'discontented girl; she was never pleased with anything always looking out for what is disagreable, and not for what was pleasant in anything. She was going away from home, and her grandmother asked her if she would have a rose to stick in the bosom of her dress So, being fond of flowers, she told ber she would like one .-Away went her grandmother, with her cane in her hand, into her little garden, and gathered the finest rose that grew there. There were two buds growing on the same stem with the rese, and the leaves were as fresh and as green as the leaves of a rose-bush could be. You may suppose that Susan was not a little surprised when her grandmother nipped off the rose the two buds, and the green caves with her scissors, and offered Susan Taylor the stem alone all covered with thorns.

"O, Grandmother this is not a rose. -Do you think that I will stick that ugly stem in my dress, without a single flower or leaf upon it? No: that I never will.

You do not deserve to have roses growing in your garden, if you spoil them in this way."

SERVED FRUITS, &c.,

In every variety and at all prices, all of which are pure and fresh, such as can be confidently recommended to his friends and the little folks. He stock contrasts every thing in the little folks.

"Perhaps not," mildly replied her grandmother; "but there are other people in the world beside me, who spoil their roses."

"Then," said Susan, "They must be very silly people."

"I think so, too," replied her grandmother. "And now I will tell you the name of one of them; it is Susan Tay-

She reddened to her very ears, while her grandmother said, "it has pleased God, Susan, to mark your life with many blessings, mingled with a few cares; and you are continually neglecting your blessings and remembering your cares. If, then, you thus wilfully despise your comforts, and repine over your troubles, what is this but throwing away the flowers and green leaves of your life, and sticking the

thorns in your bosom?" Who is like Susan Taylor?

### The Boys of To-day.

An admirably written paragraph has been going the rounds lately setting forth the responsibilities which the boys of today are soon to take upon their hands,-It is indeed a thought full of interest, that splendidly bound and embelished and a in a few short years, all the governments of the Christmass Holidays. The idea is suggested not to inflame the vanity or feed the self-complacency of youth, for there is no need of that, but to lead them to reflect seriously and earnestly on the great responsibilities awaiting them. Boys with such a future before them, should strive to be found capable and worthy of their destiny.

The more enlightened and virtuous the boy can render himself, the better prepared he will be for that great future, and the more he will shine, and be honored among his fellows. The signs of the times indicate that the ignorant and the vicious will be less and less regarded as the world grows older and wiser. Only the virtuous, the large-hearted the pure and the enlightened, will be of much account in the coming time. Boys, do you

It you have contracted the terrible disease which, once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring false-hoods, too well calculated to deceive the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.
The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known.—It is a medicine perfectly pleasant in its taste, and very innecent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, does not dry up the disease in the blood.
Constitutional Deblity, brought on by selfabuse, a most terrible disease, which has brought thousands of the human race to untimoly graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benefit everybody, from the shuply delicate, to the confined and despairing invalid, no equal is to be found acting both as a Cure and preventive.

I feel it a duty incumbent upon myself to declare publicly the great blessing Dr. Marchis's Uterine Catholicon has proved to me. For two years my health was miscrable: I was almost unable to walk. Physicians pronounced my case falling of the womb, extensive ulcerations, commencing with fluor albus. The pains, irritation, prestration, &c., rendered life a burden. In this miscrable condition, Dr. F. P. Newland recommended Dr. Marchis's Uterine Catholicon. After taking four bottles I find myself in perfect health. Gratitude for my restoration makes me ardently desire that all my sex, alike unfortunate, may find sure relief from this inestimable medicine.

I have no hesitation in saying, Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally I have used it in Fluor Albus, Amenorchea, Prolapsus Uterl, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
