ECONOMY IS WEALTH

We understand what the people want. They want goods at the lowest possible prices.

They want to pay cash and save 25 to 50 per cent.

They don't want to pay enormous prices for the so-called "best goods in the market."

They don't want to pay their own bills when dealing with a store, which they are obliged to do, because the dealer must put on a profit to make up for his losses by those who don't pay.

But they do want to buy from a store that sells only for cash and one price all, which is the lowest possible price and who buys directly from the manufacturer and pays the cash, thereby saving the consumer the advantage of a large count; also, saving a druggist's profit and lastly, saving the consumer's account for paying cash.

The policy of the Bargain Store is to give the buyer all the benefit.

Everything in the line of Clothing, Tinware, Shoes, Hardware, Notions, to be had at public prices at the BARGAIN STORE, South-east corner Diamond, Somerset, Pa.
