NOTICE. Hereafter the Post Office will be losed every evening at 8 o'clock. On Sunday it will be kept open from 8 to 10 o'clock A. M. Mail Closed at 6 L. LUTHER, P. M.

Dr. Earley, will please accept our hands for a copy of the "General Laws cassed by the Legislature of the State of Pennsylvania."

We have received the seventeenth annual announcement of the Female Medical College of Pennsylva. nia. The institution, if we are to judge by the number of students, is an excel.

Lieutenant-General Winffeld Foo t died at West Point on Wednesday last at 11.05 o'clock. He was surrounded at death by many friends, and the officers and professors of the milita. ry academy.

THE COURT HOUSE .- The Court House is now undergoing some repairs, which are badly needed. Williams & McConnell are the workmen engaged; and they have made the Court room look better than if new by a late process called Calcimining.

ST MARY'S .- We were struck upon a recent visit to St. Mary's, by the unmistakeable evidences of its prosperity. Wherever you turn you are greeted with the sound of the hammers of ma. sons and carpenters engaged in the erection of new buildings. Not only so but the hotels and stores were crowded even at this dullest season of the year. We were pleased to find that those business men who advertise were receiving the patronage they deserve.

Henry Warner, Esq., whose mathematical query as to our pigeons is yet unanswered, propounds a new ques. tion. He seems to think that our state. Sent of the number of pigcons slaughtered might be a trifle exaggerated and that the odd 770 may be thrown off without much violence to the truth. His question as now presented is " Allowing each pigeon to occupy one cubic inch, of what length must be the side of a cabical pit to contain 1,000,000,000, c00,000,000,000,000,000, pigeons? ' Where is the schoolmaster?

FIRES .- A destructive fire occurred in Oil City on the 26th instant. Seventy-five stores, eight hotels, forty dwellings, a church and a semisary were destroyed. One hundred and seventy-five families are rendered home. less. The loss is estimated at \$1,000, 000, on which there was insurance for only about \$100,000. The portion of the city on the east side of Oil Creek Repeating Pistols, Rifle Canes, Revolving Rifles, Rifle and Shot Gun barrels, and gun was entirely consumed.

On the 25th instant, the castern end of the old Harrisburg bridge was destroyed by fire. This bridge was projected in 1811, and the first toll taken in 1816. The original cost of the bridge was \$192,000.

The store and boarding house of Wright & Pryer were consumed by fire on the night of the 24th inst. Supposed to be the work of an incen-

On last Thursday about noon the house of Isaac Keefer, at Wilcox, this county, was totally destroyed. The fire is supposed to have been originated by children playing with matches.

THE VIRGIN GOLD MINING COM-PANY OF COLORADO, 1250 "Origi-nal interests"—\$100 each, of which 250 are reserved for Working Capital.

Subscribers elect their own Officers, themselves manage the affairs of the Company; each subscriber being eligible as one of its officers.

THE PRESIDENT

THE DIRECTORS
are to be selected by the subscribers from among themselves, at the first meeting for

organization.
THE SECRETARY AND TREASURER is to be a subscriber and selected by the Directors. BANKERS.
The Central National Bank, Philadelphia.
SOLICITORS.

Theodore Cuyler, Esq.,
Robert D. Coxe, Esq.
Americans are proverbial for the avidity
and commendable zeal with which they participate in enterprises having for their object the development of our national resources. At one time "Railroads"—at another "Coal"—then "Copper" or "Iron," and more recently "Oil" have

been the all absorbing topics.

In all these several enterprises, as will be recollected, those who first took hold of them made money; some larger amounts than others, according to their investments. Mining operations in the fields of Colorado and elsewhere new mainly engross the public attention. Considering that several such companies have been already organized—that they are now at work—that the reports from their mines are highly favorable—that it is known that at the present time there are on the way from the ledges. time there are on the way from the ledges of Nevada and Colorado numerous "bars of silver" and "bricks of gold," it is believed that the enthusiasm already mani. fested on the subject will, in a little time, be so greatly increased on the receipt and exhibit of these "returns," that innumerable companies will spring up, whose stock, being based at the then greatly inflated prices of ledges, will necessarily be less de-sirable than that now to be had—thereby giving to those who avail themselves of the occasion now presented, of securing "ori-ginal interests," an opportunity of then disposing of the large amount of stock each holder receives, at a handsome advance.

With these preliminary remarks the fol-lowing PROSPECTUS is respectfully presented.

The property of the Company proposed to be organized by the sale of these "original interests," consists of the following Ledges, all situated within a radius of five miles of Central City, Colorado, TRAIL CREEK DISTRICT.

Mammoth Lode,* Never Fail Lode,† Vanderbilt Lode,‡ of 100 feet, of 200 feet, of 200 feet, Union Lode, Old Ophir Lode, of 200 feet of 100 feet, TRAIL RUN DISTRICT. Holman Lode, | of 200 feet, BANNER DISTRICT. St. Louis Lode, of 100 feet of 100 feet Pensacola Lode UPPER FALL RIVER DISTRICT.

Abe Lincoln Lode, Washos Lode, Minnie, or "Louisa" Lode, Riddle Lode, § of 200 feet, of 200 feet, of 200 feet of 200 feet *This Lode is very well developed, with vein of ore 4 feet in width; ore prospects

† There is one shaft on this Lode 20 feet deep and 50 feet long, and the crevice is feet in width.

† This Lode is well developed, and considered one of the best in the district; there is a shaft on it 60 feet in depth with a vein of sulpherets four feet in width. Assays made of this ore prove it to be very rich.

This is an A. I. Lode, and has a shaft of 75 feet in depth—vein of ore three feet in width and of good quality. Ore taken from this Lode yielded \$106 per cord in

& This is really the richest Lode yet discovered in the district; it is well developed, and ore taken from this Lode yielded up-

wards of \$800 per cord.

"Being a total of 2000 feet or nearly a half a mile in length horizontally, of rich Gold-producing territory, of unlimited depth, together with all the dips, spurs and angles, and also all the metals, ores, gold, silver and other metal bearing quartz, rock, and earth therein, and all the rights, privileges and franchises thereto incident, apusually had or enjoyed, under and subject to the jurisdiction of the Government of the United States."

The titles to all of which claims have been examined by a member of the Bar, resident

His opinion is as follows—
This is to certify that I have earefully examined the titles to the foregoing lodes or ledges, and am satisfied that they are perfect.

THOMAS MASON, Att'y at Law.

The space of a circular is too limited to give the opinions of numerous distinguished cirirens and men of science who have examined this district; the following extrac-

relate thereto, and that of Professor Ld. ward N. Kent in particular, of the New York U. S. Assay Office is directly in point. Our late lamented President—Mr. Lin-

coln—during an interview with Speaker Colfax, relative to the hidden wealth of Col-orado, Navada, &c., said— "I have very large ideas of the mineral wealth of our nation; I believe it practices

inexhaustible."

The Hon. J. P. Upsher, Secretary of the Interior, in the Official Report presented to Congress, dated December 5th, 1864, referring to the then present condition of our Western Territories, says. "The wealth embedded in the rocks of that extensive reembedded in the rocks of that extensive re-gion is actually inexhaustible, and it will furnish in future years, indirectly a princi-pal part of our means of liquidating the debt contracted by the Government for the overthrow of the Great Rebellion."

The Hon. H. P. Bennett, delegate in Congress from Colorado, in a speech before the House of Representatives said :- 'Judge ing from what I know of the undeveloped resources of this country; from what I am told by practical miners who are well in-formed upon this subject, I do say here to day before this House and before this Country, to be placed upon the records and read of all men—that within five years' time. rend of all men—that within five years filme, and by the year 1860, the gold fields of Colorado Territory will produce \$50,000,000 annually; and even then its full resources of mineral wealth in gold alone remain not wholly developed. I speak from the united testimony of many practical miners who have spent many years in the mines of California, when I say:—that the gold-bentian region of Calorada is for more or bearing region of Colorado is far more tensive, quite as inexhaustible, and the gold-bearing quartz of a much richer quali-ty than in California."

Professor Edward N. Kent, of the New

York Assay Office, says:—

'As to the extent of the gold mines of Colorado. I am not prepared to give an esti-mate, as I found enough to fully employ my time within a radius of five miles of Central City. [the location of the above Ledges,] but as to the richness of THEM, I have no hesitation in saying, that I believe them to be the richest ever discovered. With science, capital and the Pacific Railrowl, Colorado is destined in my opinion, to rival or supercede California and Australia, and become the El Dorado of the World."

The opinion entertained by those abroad of claims in this district, is shown by the

of its officers.

THE PRESIDENT
is to be chosen from among the Board fof 000 of the Colorado mining lands, and their agents and employees are now cn routs to develop the same. The claims are princi, pally in Russell and Trail districts, and a

recent purchase has been the Scaton Lode of 1000 feet for which they paid £100,000.

An idea of the value of some claims (100 feet each) may be formed when the fact is considered that it often occurs that they yield millions of dollars, and have in several instances been sold for \$25,000 per foot. Mr. Fields, from 835 feet of the Bobiati Lode has taken out already over \$200,000 in gold, and \$266,000 has been offered and refused for 833 feet of this same lode, equal to \$800,000 for a claim of one hundred feet.

As the purchase of either of the above lodes would require more money than the majority of persons have at command, it has been determined to consolidate them, and to divide them into Twelve Hundred an i Fifty.

ORIGINAL SHARES

which will cost the subscribers hereto ONE HUNDRED DOLLARS EACH.
thus affording the man of limited means, as well as the capitalist, an opportunity to se oure an interest in this region of "practically inexhaustible" wealth.

As all are aware, the usual plan adopted

for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered preliminary to the formation of two or more Companies on these properties, which are subject to no royalty, leases or mortgages.

The Subscribers can then upon this solid

and substantial basis, elect officers from among themselves, each subscriber being eligible to the position of an officer of the Company: In order that handsome returns may be

speedily realized, these subscriptions are based upon the proposition that the subscri-bers immdiately on receipt of the Deeds (now ready for delivery, and which may be examined at the Office of the undersigned before subscribing,) may lease their lands on heavy royalties, or at once organize Companies in the usual way for which there is an ample basis.

To accommodate these of moderate means.

these "interests" are put at \$100 such, in order to get the list filled at once, and to prevent any delay in the organization of the

Company.

Considering the numerous valuabla "Ledges" which constitute the basis of this enterprise-the fair and equitable features -the low prices at which "interests" in it are offered, and that each interest entitles the helder to his pro rate share of stock in all the Companies that may be organized upon them—also recollecting that in all, there are only 1000 interests to be sold, and it would only require one hundred gentle-men each to take ten (\$1000) to absorb the whole, it is presumed that it is hardly neceseary to suggest to those desiring to secure one or more of these original interests, to at once send in their subscriptions. Checks or Drafts should be drawn to the

order of the undersigned, whose endorse, ment will be a receipt, in addition to the one that will be promptly sent on receiving

United States 5-20's-10-40's-7-30's and other Government Bonds taken at par, and any premium or accrued interest thereon allowed. Bonds may be sent by registered mail or by express.
