As will be seen by advortisement Turley. in this issue, "original interests" in this company can now be had at \$100 each. We are informed that subscriptions are coming in from all quarters, and the list is rapidly filling up. As it is expected that the Books will shortly close, those desiring to avail themselves of the opportunity now presented of se. curing one or more of these " interests " should at once send in their subscriptions.

MR. EDITOR :--- I was interested in Mr. Warner's question about the pigeon's and computed that 6,155,000,009, (six billion, one hundred and fifty five Million) states the size of Pennsylvania, would not hold them all ; allowing each pigeon to cover one square irch. In the Advocate of May. S1st you say Mr. lowing each pigeon to occupy one cubic must be 1,000,000,000, (one billion) miles-quite a large pit to be dug in property of Thomas Lynn. this little earth. But your printer has given here one Octillion instead of one Septillion, multiplying by one thousand, side of the pit to be only one tenth as miles might possibly be described within the domain of Uncle Sam, and the depth less than a quarter way to "China," or if he wished a square of fitteen thous. and, it would make a difference whether he must dig fifteen thousand miles or only filteer.

orada, Navada, &c., sud-"I have very large as loid of the minera-wealth of our nation / I b.1 eve it practically inexhaustible."

The Hon, J. P. Upsher, Secretary of the Interior, in the Official Report presented to Congress, dated December 5th, 1864, referring to the then present condition of our Western Territories, says. "The wealth embedded in the rocks of that extensive re gion is actually inexhaustible, and it will formish in future years, indirectly a pulmi-ral part of our means of liquidating the debt contracted by the Government for the

overthrow of the Great Rebellion."

The Hon. H. P. Bennett, delegate in Congress from Colorado, in a speech before the House of Representatives said :- Judg ing from what I know of the undereloped resources of this country ; from what I am told by practical minurs who are well informed upon this subject. I do any here to day before this House and before this Country, to be placed upon the records and read of all mon-that within five years' time, and by the year 1869, the gold fields of Colorado Territory will produce \$50,000,000 numually ; and even then its full resources of mineral wealth in gold alone remain not wholly developed. I speak from the united testimony of many practical miners who have spent many years in the mines of California, when I say ;-that the gold-bearing region of Colorado is far more extensive, quite as inexhaustible, and the gold-bearing quarts of a much richer quali-ty than in California."
