 L. LUTHER, P. M.

We issue our paper one day in advance this week so as to give all had an opportunity to go and see the show.

The Donation for the benefit of the Rev. Archibald was well attended. The amount of money raised was, we understand, \$138 00.

The Treasurer's Sales, we believe were adjourned over until the Tuesday of Court Week. There yet remains a large number of valuable tracts.

The "History of Elk County" is too late for publication in this issue. It will hereafter be inserted on the outside pages of the paper.

C. M. Dickinson has retired from the editorial chair of the *Cameron Press*. The paper will still be published as heretofore, by Mr. Gould.

The *Elk Dispatch* is out in favor of our townsman, Mr. Henry Souther, as the next Congressman. Well, if we are to be again cursed by being represented by a Radical, our choice would be Mr. Souther.

Yesterday, while Mr. P. T. Brooks was engaged at work on Dickinson's saw-mill, he somehow brought his left hand in contact with the saw and cut it terribly. Dr. Bordwell was called, and gave it as his opinion that amputation would have to be resorted to. Whereupon Dr. Hartman, of St. Mary's was sent for and the hand amputated above the wrist joint.

ENLARGED.—The *Elk Observer* has been enlarged to an eight column sheet. This is as it should be. The *Observer*, from the time it was first started, has been a consistent and fearless advocate of Democratic principles; and from the fact that their business has required them to enlarge, we think that their paper is gradually throwing light into the minds of the people in that benighted stronghold of abolitionism.

Morris of the *Warren Ledger* has added another column to his excellent paper. Well, we should like to do the same thing; perhaps we will one of these days. The *Ledger* is a good paper, and the Democracy of Warren should see that it is well sustained. By the way, all the Democratic papers in the district have taken an upward leap within the past few years; and we think that if the present non-representative in Congress gets on the track again, he might stand an elegant chance of being defeated.

THE VIRGIN GOLD MINING COMPANY.—As will be seen by an advertisement of this company on third page, the large and valuable properties which constitute its basis are offered to the public on such conditions and accompanied by such fair and equitable features, that the Company will at once commend itself to the confidence not only of the man of moderate means, but to the capitalist.

Already a large number of subscriptions have been received. The list is rapidly filling up, and it is expected in very short time to issue notices to subscribers for their first meeting for organization. Those desiring to avail themselves of the opportunity of securing one or more of the remaining \$100 "original interests" in this large and ready powerful Company, should at once send in their subscriptions.

THE latest scheme of the party of progress is only faintly hinted as yet, but will doubtless appear in their next year's platform. It is to make an equitable division of the duties of citizenship between the blacks and the whites. The blacks are to do the voting and the whites to pay the taxes. Everybody in this way will have something to do with the government, and nobody can possibly grumble. Geary likes the plan much—*Age*.

MARRIED.
 On the 16th inst., by Charles Mead, Esq., Capt. J. C. Luther to Miss Charlotte Horton, both of Ridgway.
 —God bless, Cal. We congratulate you. Thus, one by one, they go. We hope all the impressions you make will be good. And that as you journey through this crooked world that success may attend you always.

SHERIFF'S SALES.

BANKERS. The Central National Bank, Philadelphia.
SOLICITORS. Theodore Cuyler, Esq., Robert D. Case, Esq.

American are prepossessed to the ability and commendable zeal with which they participate in enterprises having for their object the development of our national resources. At one time "Railroads"—at another "Coal"—then "Copper"—or "Iron," and more recently "Oil" have been the all-absorbing topics. In all these several enterprises, as will be recalled, those who first took hold of them made money; some larger amounts than others, according to their investments. Mining operations in the fields of Colorado and elsewhere have mainly engrossed the public attention. Considering that several such companies have been already organized—that they are now at work—that the reports from their mines are highly favorable—that it is known that at the present time there are on the way from the ledges of Nevada and Colorado numerous "bars of silver" and "bricks of gold," it is believed that the enthusiasm already manifested on the subject will, in a little time, be so greatly increased on the receipt and exhibit of these returns, that innumerable companies will spring up, whose stock, being based at the time greatly inflated prices of ledges, will necessarily be less desirable than that now to be had—thereby giving to those who avail themselves of the occasion now presented, of securing "original interests," an opportunity of their disposing of the large amount of stock each holder receives, at a handsome advance. With these preliminary remarks the following Prospects are respectfully presented:

The property of the Company proposed to be organized by the sale of these "original interests," consists of the following ledges, all situated within a radius of five miles of Central City, Colorado.

TRAIL CREEK DISTRICT.
 Mammoth Lode, of 100 feet.
 Never Fail Lode, of 200 feet.
 Vanderhill Lode, of 200 feet.
 Union Lode, of 200 feet.
 Old Olympic Lode, of 100 feet.

TRAIL RUN DISTRICT.
 Rohann Lode, of 200 feet.

BANNER DISTRICT.
 St. Louis Lode, of 100 feet.
 Pennsylvania Lode, of 100 feet.

UPPER FALL RIVER DISTRICT.
 Abo Lincoln Lode, of 200 feet.
 Washoe Lode, of 200 feet.
 Minnie, or "Lodina" Lode, of 200 feet.
 Rhille Lode, of 200 feet.

*This Lode is very well developed, with vein of ore 4 feet in width; ore prospects well.
 †There is one shaft on this Lode 20 feet deep and 50 feet long, and the ore vein is 8 feet in width.
 ‡This Lode is well developed, and considered one of the best in the district; there is a shaft on it 60 feet in depth with a vein of sulphurets four feet in width. Assays made of this ore prove it to be very rich.
 §This is an A. I. Lode, and has a shaft of 75 feet in depth—vein of ore three feet in width and of good quality. Ore taken from this Lode yielded \$100 per cord in gold.
 ¶This is really the richest Lode yet discovered in the district; it is well developed, and ore taken from this Lode yielded up wards of \$200 per cord.
 **Being a total of 2000 feet or nearly a half a mile in length horizontally, of rich Gold-producing territory, of unlimited depth, together with all the dips, spurs and angles, and also all the metals, ores, gold, silver and other metal bearing quartz, rock, and earth therein, and all the rights, privileges and franchises thereto incident, appertaining and appurtenant, or therewith usually had or enjoyed, under and subject to the jurisdiction of the Government of the United States.

The titles to all of which claims have been examined by a member of the Bar, resident in Colorado.
 His opinion is as follows—
 This is to certify that I have carefully examined the titles to the foregoing ledges or ledges, and am satisfied that they are perfect.
THOMAS MASON, Atty at Law.
 Central City, Colorado.

The space of a circular is too limited to give the opinions of numerous distinguished citizens and men of science who have examined this district; the following extracts relate thereto, and that of Professor Edward N. Kent in particular, of the New York U. S. Assay Office is directly in point.
 Our late lamented President—Mr. Lincoln—during an interview with Speaker Colfax, relative to the hidden wealth of Colorado, Nevada, &c., said—
 "I have very large as led of the miners' wealth of our nation; I believe it practically inexhaustible."
 The Hon. R. P. Upsher, Secretary of the Interior, in the Official Report presented to Congress, dated December 6th, 1864, referring to the then present condition of our Western Territories, says: "The wealth embedded in the rocks of that extensive region is actually inexhaustible, and it will furnish in future years, indirectly a principal part of our means of liquidating the debt contracted by the Government for the overthrow of the Great Rebellion."
 The Hon. R. P. Bennett, delegate in Congress from Colorado, in a speech before the House of Representatives said:—"Judging from what I know of the undeveloped resources of this country; from what I am told by practical miners who are well informed upon this subject, I do say here to-day before this House and before this country, to be placed upon the records and read of our men—that within five years' time, and by the year 1870, the gold fields of Colorado Territory will produce \$50,000,000 annually; and even then its full resources of mineral wealth in gold alone remain not wholly developed. I speak from the united testimony of many practical miners who have spent many years in the mines of California, when I say—that the gold-bearing region of Colorado is far more extensive, quite as inexhaustible, and the gold-bearing quartz of a much richer quality than in California."
 Professor Edward N. Kent, of the New York Assay Office, says:—
 "As to the extent of the gold mines of Colorado, as I am not prepared to give an estimate, as I found enough to fully employ my time within a radius of five miles of Central City, [the location of the above ledges,] but as to the richness of them, I have no

hesitation in saying, that I believe them to be the richest ever discovered. With some capital and the Pacific Railroad, Colorado, located in my opinion, for its resources in California and Australia, and becoming the El Dorado of the World."
 The opinion entertained by these above named claims in this district, is shown by the following extract—
 English capitalists have purchased 1,000 of the Colorado mining lands, and its agents and employees are now endeavoring to develop the same. The claims are located, partly in Russell and Trail districts, and a recent purchase has been the Benton Lode, of 1000 feet for which they paid \$100,000.
 An 1/4 of the value of some claims (100 feet each) may be formed when the fact is considered that it often occurs that they yield millions of dollars, and have in several instances been sold for \$25,000 per foot. Mr. Fields, from 33 1/2 feet of the Bobrail Lode has taken out already over \$200,000 in gold, and \$265,000 has been offered and refused for 2 1/2 feet of this same lode, equal to \$800,000 for a claim of one hundred feet. As the purchase of either of the above ledges would require more money than the majority of persons have at command, it has been determined to consolidate them, and to divide them into Twelve Hundred and Fifty.

ORIGINAL SHARES
 which will cost the subscribers hereto ONE HUNDRED DOLLARS each, thus affording the man of limited means, as well as the capitalist, an opportunity to secure an interest in this region of "practically inexhaustible" wealth.
 As all are aware, the usual plan adopted for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered preliminary to the formation of two or more Companies on these properties, which are subject to no royalty, leases or mortgages.
