A carious affair has been brought to light in Bay City, Michigan, within a few days past, the history of which is as follows: Some time last fall a man and his wife came here from Columbus, 5it. Chair county. The man is a laborer, and the lady who shared his fortunes here is a second wife. The man found ready work, and the family flourished. A month or two duce a nice looking boy, apparently about nineteen years of age, came into the family circle, claiming to be the son of the lord of the house by his former wife, and as such the la dy of the house, who knew nothing of her predecessor, showing her kind attentions and care upon the visiting son. All went well for a month or more, when, to the horror of the lady in question, she discovered that her husband had sold everything he could, and had left country with his " son," which per. son the wife found not only to be not her step son, but indeed not a boy, but a young lady, fond of her husband, and unscrupulous enough to live more than a month with him representing herself to be his son, and finally to depart with him to parts unknown. The wife of this man is left in destitute circumstances, and is now seeking means with which to return to her former home.

Mormonism in England is collapsing. In Liverpool, where, in 1861, their was a church of one thousand persons, their are not now twenty members. And so it is all through the country. Poverty has settled upon them all. The Presi. dent of a conference was once maintained in fine style. But now he is scarcely able to maintain himself. The "Saints" possessed of the means have emigrated to Salt Lake, and no new recruits are being obtained. "There are hundreds of unmarried sisters." writes an apostle, "waiting for the day of deliverence, and looking to the mountain for help."

-A new York police officer, seeing a negro whom he knew exclaimed,-"Ah, Sambo, you are an honest faith-

ful fellow. I will give you a drink."
"Wid all my heart, sa," said Sambo; "wid all this Leart. Some niggers are hauty and proud, and proud and won't stoop to drink wid a police officer most, if not ebery way, as good as a nigger-'specially when dat nigger's dry."

"John, my son," said a doting father, who was about taking his son into business, "what shall or the style of the new firm?" "Well, Governor," said the one and twenty youth, looking into the heavens to find an answer, "I don't know—but suppose we have John II. Sampling & Father." The old governor was struck at the originality of the idea, but couldn't adopt it.

-An editor out West has married a girl named Church. He says he has experienced more appiness since he joined the Church han he did in all his life before.

EMBROCATION! FOR ALL DISEASES INCIDENT TO Horses, Cattle and the Human Flesh Thorses, Cattle and the Haman Flesh, requiring the use of an external application.

This new Compound, prepared by a practical Chemist having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind yet of-fered to the public as an external application for the diseases for which it is recom-mended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that send it forth as the grand remedial agent

and useful animal, the HORSE, is subject. Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretending Farriers. Their wishes are at length fully gratified, by Dr. Beale prevailed upon to allow this valuable Em-brocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.
