" It's Dud."

An old gentleman farmer who had two or three very pretty daughters, was so very anxious of his charge that he would not permit them to keep the company of young men. However, they adopted the following expedient to en joy the company of lovers, without the knowledge of their father. After the old man had retired to rest, the girls would hang a sheet out of the window, which was quite a distance from the ground, and the beaux would seize the sheet, and with the assistance of his lady love, would thus gain an entrance. But it so happened, that one evening the girls lang out the sheet teo early, and as it was by some ill wind blown around a corner, and the old gentleman esoving the sheet could not conjecture the meaning of its being there. He took hold, and endeavored to pull it down. The girls supposing it to be one of their beaux began to hoist, and did not discover their mistake till the head of the old man was level with the window, sill, when one exclaimed: 'O Lord, it's dad!' and letting go their hold, down went the old man, breaking his arm. The girls received their beaux at the door after that, and the old man gave them his approbation.

The Lake Michigan , Monster.

The Milwankeens some time since were agitated by stories of a mysterious monster in Lake Michigan, who was said to be anywhere from twenty to fifty feet long, and horrible to behold. The Chicago people have since had sight of him, if we may believe the following from the Chicago Tribune:

The monster has actually been seen in our lake by the crews of several vesrels. An average description would give his length as between forty and fifty feet, his shape serpentine, the size of his neek about that of a human be, ing, the size of his body about that of an ordinary barrel. He is quite retir. ing in his habits, ducking swiftly under the water as soon as the vessel approach. ca bias, and steering away to some more retired spot.

He was described yesterday by the tug Crawford and the beller Sky Lark, off Evanston, lashing the waves with his tail, like a whale, into a perfect tempest. The vessel in question did not think it advisable to proach too near the creature, not beprovided with the means of resista leaf out in search of him in the course BURNSHIEL.

WHAT EVERY YOUNG MAN SHOULD 150 .- i. Elvery young man should make the most of himself, intellectually, mor. ally, socially and physically.

2. He should depend upon his owe efforts to accomplish these results.

PRINTERS.-In a sermon delivered last Sunday, Rev. Henry Ward Beccher is said to have remarked that more pube men of eminence have started from the business of type setting than probaly from any other occupation. We Lnow not how true this is, but it is prety certain that there are few public men hat have not been made eminent by the representers-a class which, if not always great in themselves, are often the cause of greatness in others.

EMBROCATION! FOR ALL DISEASES INCIDENT TO Horses, Cattle and the Human Flesh, This new Compound, prepared by a practical Chemist having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warran-

its own road into the confidence of all who nse it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it to be the best application ev-er used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that send it forth as the grand remedial agent for the various diseases to which that noble

Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretending Farriers. Their wishes are at length fully gratified, by Dr. Beale being prevailed upon to allow this valuable Embrocation (which has proved so efficacious to the various diseases) to be prepared and

This embrocation was extensively used y the Government during the war. Address all orders to DR. EDMOND BEALE.
