Sept. 5-'67.-6m. I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the HORSE, is subject.

Many remedies have been offered to the

Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended. A judicious and really useful composition A judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and preticuling Farriers. Their wishes are a length fully gratified, by Dr. Beale being prevailed upon (a allow this valuable Embrocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.

This embrocation was extensively used by the Government during the war.
