

LOCAL INTELLIGENCE.

Car Time at Ridgway.

Table with 2 columns: Direction (East/West) and Time (e.g., 10:13 p. m., 3:52 a. m., etc.)

Hyde, Gillis & Co. have just received a splendid line of Confectionaries, which they will dispose of cheap.

JUST RECEIVED.—A large stock of Flour and Groceries, at the store of Hyde, Gillis & Co. Give them a call.

The best assorted, largest and cheapest stock of Hardware in the county, at Hyde, Gillis & Co's.

MAGNOLIA WATER.—A delightful toilet article—superior to Cologne, and at half the price.

Read the advertisement of H. H. Thomas in to-day's paper. He has a splendid assortment of everything in his line. Give him a call.

See the picture of the Morning Glory in another column. It is a splendid picture, and Service has the reality at his shop on Main street.

BUSINESS DIRECTORY.—Mr. J. M. Lyon is now in our village canvassing for a business directory of Ridgway. Specimens of other directories which he showed us are beautiful. He is meeting with a deserved success in this place, and intends visiting St. Mary's on the last of the week for the purpose of getting up one in that thriving borough. The citizens of that place can therefore be on the lookout for him.

WHEATON'S OINTMENT is an old and well tried remedy, which keeps constantly increasing in popularity as its merits become known. It has been before the public for more than sixty years, and is universally acknowledged to be the most certain and speedy cure ever discovered for Salt Rheum, Ulcers, Chilblains, Tetter, Pimples, Blotches, and all eruptions of the skin, while it is a sure cure for the itch, and will eradicate the most obstinate cases in forty-eight hours.

"BLESS'D BE THE MAN WHO FIRST INVENTED SLEEP," quoth Sanebo Panza. Sleep has often been "murdered," not in Macbeth's case only, but in many modern instances, by Indigestion, Nervous disorders, Headache and a host of other complaints. For all such there is a remedy, and sufferers may now exclaim, "Bless'd be the man who invented the PLANTATION BITTERS!" This delicious Cordial and fine Tonic is now hailed by millions as the great Health Giver and Restorer. Resolve to buy a bottle, and don't "sleep on it." "Be wise in time."

"THE CHILLING DAYS."—Although the weather for the past week has been like an unbroken summer day, we are constantly reminded of the near approach of the winter by the whirling about of the falling leaves and the appearance of the naked branches, that must ere long be born down with a weight of ice and snow, or writhed and crackle in the wintry gale. The poor dread the winter, as it is to them fraught with untold terrors and privations. The rich may find a field of charity without seeking for it among the South Sea Islanders. There is in every town many whose receipts are barely enough to support them through the summer, and in the winter, unless assisted, their families must suffer. A load of coal left at the door will look more like genuine gratitude than a ship load of tracts to distribute among the heathen.

THE NORMAL SCHOOL.—Some weeks ago a correspondent sent a communication to this paper on the above subject, suggesting therein a method of establishing said institution within the limits of Elk county. As yet we have heard nothing further on the subject, and it seems to us that our citizens are standing in their own light in not going immediately to work and seeing what can be done in the matter. We believe the State appropriation gives the sum of \$15,000 for building purposes, and there is not a township or borough in Elk county but is able to give the same amount, thereby making \$30,000, which when put into a building, would make an institution which our citizens might be proud of. Right here in Ridgway is one of the most beautiful spots in the State for a Normal School. Let our citizens move in this matter. It is well worth the trial.

GREENE 19 Temple place, Boston, Mass.

PREDICTIONS ABOUT THE WINTER.—We see it generally stated that European meteorologists are predicting an early and hard winter this year, for the reason that the birds of passage have begun their migration southwards at least a month earlier than usual. Storks, wild ducks and other birds are reported to be passing southwards over France and Belgium in large numbers. Similar signs of a severe winter have, from time to time, been noted in our own country, and we are inclined to attach more importance to them than weather prophecies usually deserve. Meteorologists say a wet summer signifies a dry winter, and winters are always proverbially cold. Housekeepers should make a note of this inference, which we think will prove correct.

The great sale of army clothing, and camp and garrison equipage, commenced in New York on Tuesday. Over three million dollars' worth of property was sold. The sale was largely attended and went off with spirit, but the goods brought rather low prices. The sale will realize about one-quarter the cost of the articles.

The London Times says that the Pope has repeatedly and even very lately expressed his firm resolution to abide at his post, and, indeed, ever since his return from Gaeta he has made no mystery of his aspirations to the crown of martyrdom, and of his readiness, under any pressure of necessity, to take refuge within those catacombs whence the church originally came forth triumphant.

In concluding a paper on cotton spinning machinery, read before the Institution of Mechanical Engineers at Birmingham, Mr. Platt stated that the number of spindles now employed in the cotton manufacture in Great Britain exceeds 36,000,000. The produce of yarn when in regular work is 64,000,000 miles in a day of ten hours, which gives enough to wind four times around the globe every minute.

A man in Chicago stole some money a year ago from an acquaintance, and a day or two after confessed the crime and promised restitution. The next day instead of fulfilling his promise, he ran away. His wife then procured a divorce and married the man her husband had robbed. On Tuesday the thief came back, and was at once arrested at the instance of the man who had taken his wife in payment for the money he had stolen.

It is stated it will cost £2,400,000 to complete the reconstruction of the fortifications in France, and that the amount will be voted in five annual instalments. A French writer adds that they will cost a least another £2,400,000 in the general mistrust and paralysis of trade to which these works give rise. By the time they are completed the causes which have given rise to them will probably exist no longer.

In rejoicing over their recent victories, the Democracy are not wasting their strength in idle joy. Everywhere, we learn, they are beginning to organize for the next contest. This is well and promises great results in the future. Our Democratic friends should see that their papers are circulated as far and wide as possible. We shall be glad to enter a large number more of new names to our list before winter, providing they are accompanied with the cash.

The defeated Radicals, through their organs in this State, are attempting to treat the election as though it had not been held—at least they are raising and threatening to raise contests for dozens of offices for which they were defeated by the people. They had better be careful in this matter. The "Buckshot war" resulted from the attempts of a minority faction (led by the present leader of Pennsylvania Radicalism) to thwart the verdict of the people. The people meant what they said and did on the 8th inst., and they don't intend to allow Radical politicians to revise or set aside their work.
