

Club V-ball team ready for action

by Ilia Belkin
Collegian Staff

This January, the men's volleyball club will be starting another season of play.

Last year, the team was led by President Kevin Hess and did remarkably well in their league.

The team finished first in

their division, and was the only team to beat Grove City which has an extraordinary volleyball club.

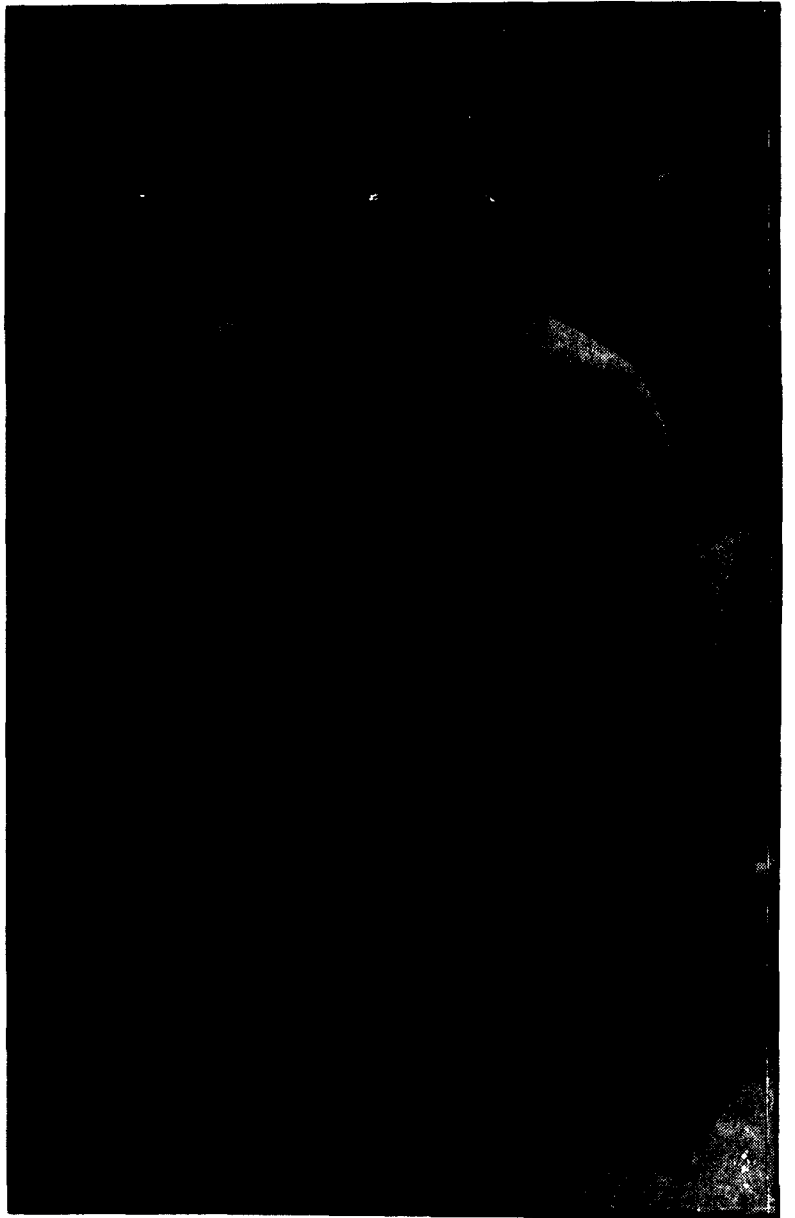

The Behrend volleyball club was recognized for their great play, and was rewarded by being selected to go to the East Coast Regional Championship in Maryland. All the great volleyball clubs throughout the east coast were there.

"This year the team is looking as good or maybe even better than last year's team," said president of the team Senior Dave Hoffman. Hoffman continued, "we are all physically ready. We only lost three of our players from last year's team, and gained many great ones for this year's squad."

This year's team consists of 13 players presently, but that could change before the season actually starts. The club will be holding a pre-season tournament at Behrend on November 28 to raise money for their season.

The club's regular season will start off in late January. They will be playing teams like Gannon, Edinboro, and Pittsburgh.

Like last year, if the team finishes first in their division, they will make the playoffs and earn a right to play in Maryland.

In two weeks: Watch for the exciting preview of the women's basketball team which will feature a complete look at the 1993-94 Lady Lions.

Do you want to be famous? If you are concerned about your alcohol problem, read on.

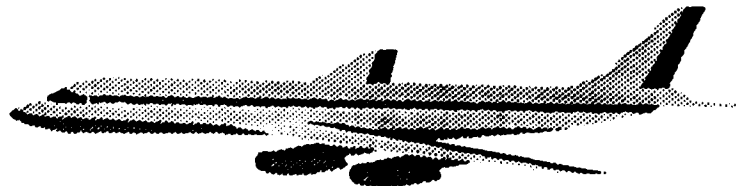

The U.S. Center for Substance Abuse Prevention (CSAP) announces the 2nd National College Prevention Materials Competition for college students and student organizations. Winners will receive cash prizes, and winning entries will be published nationwide. The materials must be designed to prevent alcohol problems among college students. Categories include: video production, radio public service announcement, print public service announcement, "special issue" newspaper, prevention booklet or handbook, and specialty items.

Entries must be judged for originality, design and layout, and scientific accuracy. Entries must be received by February 1, 1994 and must include an official entry/release form. To obtain an entry kit, contact your school's alcohol and drug coordinator, or call 1-800-723-6888, extension 5992.

The Impaired Driving Initiative

Despite gains, impaired driving continues to:

Kill: More people than in a 747 crash every week.

Injure: As many people as in 20 747's crashing every week.
