

This week's TOP TEN

by Ryan Bogart & Eddie Edwards
Collegian Staff

This week's TOP TEN LIST is "Why the Cleveland Brown's won't make the Superbowl." We took a different direction this week because we didn't receive as many entries for music and movies as we hoped. If you would like to enter an idea for a TOP TEN or your opinion as to the best music or movies, drop them off in the Collegian office, or tell Eddie or I. (As you can guess, we are both Pittsburgh Steelers fans.)

10. Mistake on the Lake
9. With a receiver names like Michael Jackson you just can't win.
8. Any team with orange and brown uniforms deserves to lose.
7. No dogs allowed in Superbowl stadiums.
6. They're from Cleveland, need we say more?
5. They're not Pittsburgh!
4. They traded Eric Metcalf!?!?
3. Can't afford to travel to the Superbowl because they spent all their money on fire insurance (Andre Rison)
2. Vinnie Testaverde
1. They just plain suck.

Candlebox returns; "Lucy" rocks hard as first

by Joe Ryan
Collegian Staff

Candlebox first got their break when a song called "Far Behind" made it big on MTV. This lead to their appearance at Woodstock '94 and their continued airplay on radios.

Through all this exposure, they have developed a certain following: these people are young and repressed. They are attached to the powerful, hard-rocking sound which has become Candlebox's style.

This week, Candlebox has returned to the scene after a brief, two year layover, and has produced another hard-rocking album filled with the rage that made them what they are today.

Recorded just two years after the finish of their first album, "Candlebox", "Lucy" provides us with a harder-rocking, more

mature follow-up. The practically unpublicized album by the quartet appeared in stores Friday.

This album is very similar to their original in that it gets it's message across through hard chords and angst-filled lyrics; however, it takes the original a step beyond. With loud songs such as it's first single: "Simple Lessons", and slower songs such as "Butterfly", the album combines a vast diversity of tempos.

The basic theme behind the all the songs is anger. This rage has been Candlebox's signature, dating back to songs like "You" and "Cover Me", from the first album.

The first released single from Lucy, "Simple Lessons", is a loud, rage-filled song about loss. The accompanying music video depicts a variety of mug shots

from the Seattle Police Dept., which probably best depicts the song's meaning, you can't trust anyone to help you.

I highly recommend all Candlebox fans to check this album out. If you liked the first one, this one will surely fill your palate. The short layover had little affect on the songwriting of "Lucy". It continues to be extremely relevant and it still rocks just as hard as the first.
