

# Don't disregard Wink

By Joe Ryan

A band of local college students and graduates, Wink has made a name playing the clubs of Erie.

With sounds ranging from today's alternative sub-culture to that of such 80's legends as Depeche Mode, the music is very catchy and the lyrics decorous. Their sound is much like that of the Counting Crows.

David Cox, the band's leader and vocalist, is a student at Gannon by day, and writes all the lyrics. His lyrics are very thoughtful and insightful, unfortunately, a lot is lost with his singing. His voice gives a great first impression but it is quickly lost as his lack of depth and limited range are quickly apparent.

Mike Diluzio makes up for the vocals with a powerful performance on lead guitar.

His musical range expands through sound similar to Depeche Mode on "Uh-umm" and modern alternative and ska on tracks such as "Alignment," and "PLT."

His influences are mostly classic rockers such as Dream Theatre and Rush. The influences are apparent as he powers his way gracefully through the tracks.

The other surprise of the band is drummer Rick Martin. Martin received his training at Dana's School of Music and at Youngstown State University. His influences include such diverse musical styling as Tracy Chapman, PJ Harvey and Devo.

The other members, Shawn Hunsberger on rhythm and Mark

Clockwise from lower left-hand corner the members of WINK: Shawn Hunsberger, Michael DiLuzio, Mark Murphy and Rick Martin

Murphy (Behrend student) on bass complete the sound with noteworthy performances. Hunsberger, from Turtle Creek, has been playing guitar for over 10 years. His influences include such modern talents as Smashing Pumpkins, Alice in Chains, and the rock of Iron Maiden.

Mark Murphy has been playing bass for seven years and said he is the most influenced by the Grateful Dead and Classic rock.

The wailing riffs and pure finger plucking mastery of Wink are omnipresent in the styling of the band.

Perhaps the most

distinguishable feature of the band is that they're indistinguishable as to where they're from. The sounds would work equally well in Seattle, New York, Los Angeles, or my native Boston.

I feel the band has a lot of talent and that the thing that may require work is the lead vocals.

Wink's first CD, titled *disregard*, is due out at the end of the month or call Rocket 101 for more information (725-9101).

I definitely suggest this for anyone's collection; you can pick up Wink's new release at Barnes & Noble, Disc-Go-Round, Eerie Records, Media Play or the Penn State Bookstore on campus.
