Students at all Penn State locations are invited to participate in the four-week, four-credit course offered in Trier, Germany by Behrend. The program, under the direction of Dr. Stephen deHart, associate professor of German and humanities, is offered May 13-June 11 by the School of Humanities and Social Sciences at Penn State-Behrend. Deadline for application is February 13.

Trier was founded in 16 B.C. during the rule of Emperor Augustus, and many of the buildings from the Roman period still survive. Located in westernmost Germany, Trier is a short distance from Luxembourg, France, the Netherlands, and Belgium. It is located in the Moselle Valley, one of Germany's premier wine-producing regions. Named Europe's "Cultural City" in 1995, Trier attracts about 3.5 million tourists annually.

In addition to travel, participants in the Trier program will be able to take one of the following Penn State for-credit courses: intermediate German, German conversation and composition, international business (graduate level), or independent study in Germany. During the Study Abroad program, classes will meet Monday through Thursday in local settings that will help participants absorb the German language quickly. This is the only German language Study Abroad program in the Penn State system appropriate for students enrolled in the normal twelve-credit language sequence. The trip is open to faculty, staff, and students from all colleges and universities as well as members of the community. This year's tour includes round-trip transportation, lodging in two and three person rooms, and side trips. For more information about the program, please contact Dr. Steven deHart at (814) 898-6448 or by e-mail at sad2@psu.edu.

The **Computer Center** has made tutorials accessible from any PC con-

nected to the network. Tutorials included are Windows NT 4, Word 97, and Excel 97. Tentatively, the tutorials for Powerpoint and the Access database will be available from the vendor later this semester. To use the tutorials in the lab, click on the Start button and then select the following items from the cascading menus: Programs/Utilities & Tutorials/LearnIt Tutorials. It is recommended that new users select the tutorial lesson, Using LearnIt Interactive Training, to get acquainted with the tutorial's navigation tools. If there are any questions concerning the use of the tutorials, the student consultants are available for assistance.
