Engineering Textbook

If you are an engineering student in need of a textbook, you should contact the Student Affairs Office before you buy. Thanks to the Society of Manufacturing Engineers of Erie, a lending library of textbooks is available in the Student Affairs Office for all engineering students. Each student is permitted to borrow one book per term for use during that term. All books are returned to the Student Affairs Office at the end of the term. Don't lose out on a great opportunity — contact Student Affairs as soon as possible.

Statement on the Handicapped

No qualified handicapped student may be excluded on the basis of handicap from participation in or denied the benefits of any course or course of study.

Procedural adjustments involving modification of course requirements for attainment of a degree should not result in substantive differences in course requirements. Academic requirements which are demonstrated to be essential to the program of instruction being pursued will not violate the policy.

The University shall not impose rules upon handicapped students that have the effect of limiting participation (such as the prohibition of tape recorders in classrooms or the use of dog

guides).

The University shall provide methods of course examination or other procedures for evaluating academic progress of handicapped students who have a handicap that impairs sensory, manual, or speaking skills, which test academic progress rather than the impairment (except where such skills are factors to be measured).

No handicapped student will be discriminated against in the access to classes because of mobility impairment. The University shall take steps to ensure that no handicapped student is unable to obtain an education because of a lack of auxiliary aids.

ROTC Offers Leadership Experience

ROTC is a student-run organization that gives leadership and management experience seldom found in other college courses.

ROTC courses are taken as electives, or as part of a program leading to a commission in the National Guard, Reserve, or Active components of the U.S. Army. They are open to all students, require no prerequisites, and have no service obligation when taken as electives.

ROTC at Behrend provides

many extracurricular activities, including the rangers, the rifle team, weekend outings, and other social functions and activities generated and conducted by the students. In addition ROTC also offers one, two, and three-year scholarships which include \$100 per month spending money. Juniors and seniors enrolled in ROTC also receive \$100 per month subsistence allowance.

For further information, contact CPT Jeff Witherel in the basement of the Administration Building, or call (814) 899-7028.

Disciplinary Actions

Disciplinary actions will be taken on that University campus where an infraction has occurred, regardless of where the concerned student or students may be attending classes in the University system.

It is necessary for students visiting any other University campus to be aware of the rules and regulations that are pertinent to that campus.
