## Academic Majors: The Colleges of the University

Undergraduate resident instruction programs are carried out by the ten colleges of the University and the Division of Undergraduate Studies. When students are admitted to baccalaureate degree programs, they are given "common year" majors corresponding to their college of enrollment, e.g., Liberal Arts, Science, etc. Associate degree students are assigned directly to the programs to which they were admitted, and this becomes the major designation, e.g., 2 Nursing, 2 EET, etc. Following is a list of college representatives and program advisors on campus who can provide information about programs of study in their respective areas.
