ADMINISTRATION AND FACULTY Continuing Education

Mr. John N. Hamilton, Assistant Professor of Management Development Administration Building

Student Awards And Scholarships

The Behrend College recognizes its outstanding students annually through a number of awards, honors, and scholarships. These awards include the following: 1. THE THOMAS H. TURNBULL AWARD

The Turnbull Award honors a Behrend College student of seventh term standing or above, who has demonstrated outstanding qualities of character, scholarship, leadership, and citizenship. In addition, the student has directed these qualities into programs and services that have positively influenced fellow students and have contributed to the prestige and well-being of Behrend College, and thus, to the reputation of the University.

2. THE ERIC A. AND JOSEPHINE WALKER AWARD

The Walker Award recognizes a student who is completing two full years of freshman-sophomore study at a Commonwealth Campus, and who demonstrates outstanding qualities of character, scholarship, leadership, and citizenship. Each Commonwealth Campus selects a campus recipient, who in turn becomes a candidate for the university-wide Walker Award.

3. THE GUY W. WILSON AWARD

The Guy W. Wilson Award honors that student who, although not a member of the Student Senate, has performed consistently above and beyond the call of duty. The Student Senate chooses the recipient of this award.

4. THE DIVISION OF NATURAL SCIENCES AND ENGINEERING SCHOLARSHIP

The Division of Natural Sciences and Engineering presents two scholarships to outstanding students pursuing their degrees in the Division's own four year majors. The scholarships exemplify the commitment of Natural Sciences and Engineering faculty in giving special recognition to deserving students. They are provided from the royalties derived from Behrend College sales of a widely adopted mathematics text authored by Professors Roland Larson, Robert Hostetler, and David Heyd.

5. ACADEMIC AWARDS

Academic awards are presented in several disciplines to students who excel in a specific field of study. Recipients are selected by faculty members. The academic awards are presented at the annual Honors and Awards Ceremony each spring.

Students must apply for the following scholarships. The application procedures and requirements are available in the Student Affairs Office and are publicized in the student newspaper, on bulletin boards, and through faculty members. BAYARD D. AND ETHEL M. KUNKLE SCHOLARSHIP

The Kunkle Scholarship aids and recognizes outstanding students at Penn State campuses who need funds to meet necessary college expenses. Scholarship recipients must exemplify good citizenship, give evidence of leadership, and exhibit professional promise.

These scholarships are awarded by a committee on the basis of the aforementioned qualities and financial need. For the 1981-82 academic year, fifteen Kunkle Scholarships were awarded to Behrend students. Application information is available in the Student Affairs Office.

THE BEHREND COLLEGE FACULTY WOMEN AND WIVES SCHOLARSHIP

This scholarship, presented annually by the Behrend College Association of Faculty Women and Wives, is directed to outstanding seventh- and eighth-term baccalaureate students in a Behrend College major. A committee composed of representatives of the Association of Faculty Women and Wives and a member of the Student Affairs Office selects the scholarship recipient(s). Consideration for the scholarship is based on the criteria set up by the association and includes the following:

- the student must be pursuing a Behrend College major.
- the student must be in his/her sixth or seventh term, at the time of submitting the original scholarship application.
- the student must be enrolled on a full-time basis and must be in good academic standing.

Watch for further information about the application procedure for the Faculty Woman and Wives Scholarship during spring term.

THE PENN STATE BEHREND COLLEGE SCHOLARSHIP

This scholarship is directed to all potential freshman at Behrend College. Consideration is given to those who have achieved superior academic records, have distinguished themselves by extracurricular involvement and service, and have documented financial need. Students must file appropriate financial aid applications in order to be considered.

THE JULIE ANN MASTELLER MEMORIAL SCHOLARSHIP

This scholarship was instituted in memory of Julie Ann Masteller, a former sophomore at The Behrend College, majoring in Ceramic Science. Its purpose is to provide scholarships to undergraduate students enrolled in a baccalaureate degree program at The Behrend College of The Pennsylvania State University. Consideration for this scholarship shall be given to all undergraduate students enrolled as baccalaureate degree candidates who have completed at least three terms, and who have achieved superior academic records or manifest promise of outstanding academic success.

Tutoring Services

Tutoring services are offered through the Office of Student Affairs. The tutors are upperclass students who have taken a particular course previously and have received no less than a B as a final grade in the course. Students who qualify as tutors fill out a card in the Office of Student

Affairs, listing their class schedule, name, address, telephone, most convenient time to be reached, and the courses they can tutor. Any student interested in tutoring or being tutored should contact the Office of Student Affairs, second floor, RUB for further information.
