

## SGA discusses plans for fall semester

by Barbra Kimmy  
Collegian Staff Writer

The Student Government Association held its first meeting on Aug. 27. Discussed at the meeting were three upcoming events to be held this month.

A concert provided by the University Concert Committee will feature the KINKS and will be staged on the 15th at University Park. Tickets were sold on the 6th.

Also held at University Park is "All University Day" which gives students the opportunity to see the Nittany Lions football team take on East Carolina. There was the possibility that SGA will sponsor a chartered bus to take students to this event. However, after later

discussion, the Student Services Committee decided against the idea due to high costs.

The final event will be a student poll taken either during the last week in September or the first week in October concerning whether or not the University should divest its funds involved in South Africa. Video tapes will be shown to inform students more about this issue.

SGA also announced that there are two openings offered to freshman on the Senate. Students picked up petitions on Sept. 4 and the voting will take place on Sept. 14.

During this meeting, President of Commuter Council, Bryan Schuster, expressed his concern

about the parking fee requirement. He brought up the question of why Behrend Campus unlike other campuses didn't eliminate the parking fee and instead raise the tuition. Dean of Student Affairs, Dohn Harshbarger answered, "Behrend College along with University Park, and Capitol Campus has such a high percentage of dorm students that raising the tuition wouldn't be fair because the majority of them do not have motor vehicles." Students should be aware of this and realize that strict ticketing will begin in the near future.

There is a chance that a new club will be added to the SGA. The 'Behrend Film Production Club' will familiarize students who are interested in communications and the stages of film production and also provide the student body with an additional activity. As discussion of this new club is pending, a decision will not be reached until the conclusion of the SGA's Sept. 11 meeting.

Doug Gerow, SGA President appointed members of the organization to their different positions and committees.

SGA holds meetings on Wednesdays at 5 p.m. in the Reed Seminar Room. All are welcome to attend.

## Kappa Delta Rho on the go

by Mark Wuerthele  
Collegian Staff Writer

Kappa Delta Rho, one of two fraternities at Behrend, plans to complete several goals in the 1985 school year.

Although the fraternity's major concern is for students that will remain at Behrend for four-year majors, Mark Stanley, president of Kappa Delta Rho will accept any students having GPA's of 2.0 or higher. At least a second semester standing is also required.

Those showing interest participated in Rush Week which began September 3. Kappa Delta Rho intends to have over 50 acting members by December so they can apply for chapter status.

Also planned are a 10 kilometer run and an arm wrestling tournament. The 10-K race will be held

on September 21 and acquires funding through Erie Runners Club. The date of the Arm Wrestling Tournament is not yet scheduled.

Stanley's objectives as president include: introducing members to the Gannon Chapter, letting students become familiarized with Kappa Delta Rho and "to be 1 on campus and to do it with class."

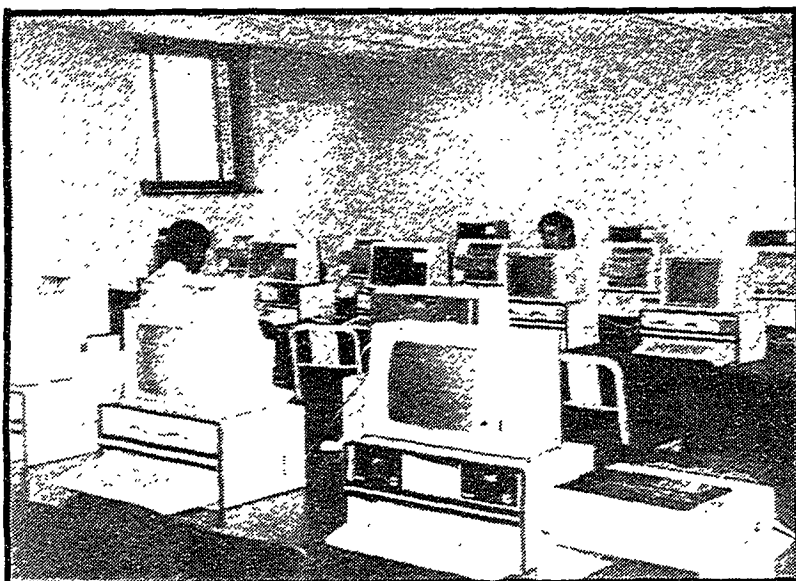

## Computer Center ready for use

continued from page one  
by the Computer Equipment Endowment Fund from General Electric. A sum of 45 to 50 thousand dollars is being used to purchase the order. With this purchase, the total amount of equipment on campus is worth several hundred thousand dollars.

immediately after it is received, which should be approximately October 1. The users of the new equipment will be primarily advanced and graduate students. Security measures will be taken to fasten the computers down and devices will be installed to insure protection of the equipment. George Dudas acts as coordinator of the computer center.

The new equipment will be used
