MIS club

by Heather Van Slyke
Collegian Contributing Writer

The Northwestern Pennsylvania chapter of DPMA (Data Processing Management Association) held their seventh annual "Computer and Management Seminar-Exposition" today (Oct. 24) at the Erie Hilton.

Representatives from over twenty area computer stores and firms were on hand to promote their products. A wide variety of

computer hardware and software was on display and demonstrations were given throughout the day. Workshops on Lotus, Fiber-Optics, and CAD-CAM were held, and several films were shown. After a noon luncheon, Martin V. Powers gave a lecture on "Computers in Business".

This annual show is the big event for our local DPMA chapter. The organization now has over 120 members from in-

dustry, finance, and education. Three student chapters are also affiliated with the local unit: Behrend, Edinboro, and Mercyhurst. Members of our MIS Club participated in today's show by manning the registration tables at the entrance to the show.

Everyone enjoyed both the chance to see the latest models of computer equipment on display, and the chance to help out our "parent" organization at the same time.

ROTC cadets will also have the opportunity of visiting Aberdeen Proving Grounds in Aberdeen Maryland again this year. The tour offers an introduction to the Ordnance Branch of the Army, which is responsible for the research, development, and testing of the military's munitions. This years trip will include running an obstacle course, touring the Ordnance Museum, and a visit to the officers club on Saturday night. The tour is scheduled for the first weekend in November.
