8:30 Informal discussion of keynote address.

9:00 Reception in Gorge Cafeteria of Reed Union Building.

**General Motors makes financing easy for college graduates**

DETROIT--General Motors Acceptance Corporation announced today a program to make financing a new General Motors Vehicle for graduating college seniors and graduate students.

The 1986 GMAC College Graduate Finance Plan features assured credit approval at a favorable finance rate provided the graduate is employed or has a commitment for employment and has no derogatory credit references.

Other features of this aggressive marketing plan for graduates, who are principally first-time car buyers, are: low down payment requirements and the option of deferring the first payment for 90 days after purchase or a \$250 rebate. The rebate may be applied to the selling price or may be used as part of the down payment.

"Our market research tells us that most graduates need dependable transportation as they begin their careers, yet they are hesitant to attempt to purchase a new vehicle due to their lack of credit experience. This GMAC program guarantees financing even for

those graduates with no established credit or those who have little or no job experience, provided there is no derogatory credit history. This amounts to preapproved credit for most of this year's graduating seniors or graduate students," said Robert F. Murphy, GMAC chairman.

Graduates can take advantage of the GMAC College Graduate Finance Plan through April 30, 1987 by contacting their local GM dealer. All models of Chevrolet, Buick, Oldsmobile, Pontiac, GMC Truck and Cadillac vehicles are eligible.

Additional information concerning the program is available by calling toll-free 1-800-245-9000.

GMAC, a financial services subsidiary of General Motors Corporation, extends automotive credit through General Motors Dealers. A pioneer in the field of instalment financing, GMAC since 1919 has helped people buy more than 100 million cars and trucks. GMAC provides nationwide service through more than 250 branches.
