

XGI's Plan Activities

by Lu Ann Berulis

Chartered in the Spring of '68 — 12 members strong — the Chi Gamma Iota Fraternity is expected to reach an estimated 75 members this school year.

Responsible for such social functions as the annual "Awards Presentation Banquet" and the "Years End Picnic", the service fraternity has been nationally acclaimed for the services it has contributed to our fellow man.

On the floor of our Nation's Congress only a short year ago, Senator Cranston recognized the efforts of the XGI Committee, which works in conjunction with H.A.C.C., in assisting ex-servicemen with college procedures and benefits offered by the Veterans Administration.

Very close to the XGI Committee is the Scholastic Committee which consists of brothers who are willing to offer their free time to members who fall into scholastic turmoil.

Operation Santa Claus, conducted annually, is an attempt to procure normally hard-to-obtain items for our combat servicemen in Viet Nam.

Another activity of the XGI involved three-year-old Wayne Granger of Middletown who received 20 pints of blood from the Capitol Campus GI/Highspire Blood Bank for his hemophilic condition. This Blood Bank is run in conjunction with the Highspire Jaycees and is available to residents of Highspire and all members of the Capitol Campus Community.

Guest speakers in the past included Coleman Herpel, Dr. Fred Neubauer, Hon. Harry Judy, mayor of Middletown and hope to include names, in the future, such as Joseph Baker, Superintendent of Education Unit at the Veterans Administration, Walter Reider, Vice-President of Members Service Dept. of the Chamber of Commerce of the Greater Harrisburg Area and Secretary of the Middletown Association of the C. of C. of Greater Harrisburg, and a host of others.

Currently, the brotherhood is working diligently to obtain facilities for very-near-future Fraternity Festivities. They are also attempting to procure a Fraternity House in the not-to-distant-future. The XGI Fraternity plans to continue with the normal operations of which the school and community will indeed benefit.

The membership meets the first and third Tuesdays of the month at the Blue Room in Middletown at 8:00 p.m. Prospective members are cordially invited to drop in and become a part of the Chi Gamma Iota Service Fraternity or stop by room W112 for an application.

Developmental Lab

Lee Levan, SGA President, thanks Dr. Herbert Eisenstein for coordinating the Developmental Lab, last year. Anyone wishing to see the final report on the lab as prepared by Dr. Eisenstein, please see Lee Levan.

Cops On Campus... Paranoia!

by Skip Lewis

"Who protects us?" "Who has jurisdiction in Meade Heights?" "How much happy B.S. must I take from the Globe Security Guards?" These and questions like these have come in the wake of vehicle code violations, tickets, and disturbing the peace warnings. None of this took place last year, or if it did, not so blatantly. But even in Utopia, rules for conduct must be adhered to and someone or somebody must be delegated to keep peace and provide safety. Who are these someones?

Glad you asked. Capitol Campus is state owned property and is subject to all pertinent Penna. state laws, which of course means that the state Police have authority over one and all at this campus. Although they work in conjunction with Lower Swatara, it would be unwise to believe they cannot arrest nor ticket you for violations of the law. So keep off the "grass".

Capitol Campus is located within the fifteen square miles that comprise Lower Swatara Township, and must abide by the laws that govern this community. The Lower Swatara Police Department, for better or worse, has the responsibility for our protection and safety. That they have met the challenge with forethought has been evident judging by past events and by the attitude taken by Chief of Police James M. Shannon.

In an interview with Chief Shannon, I became aware that he believes that community projects has its own social norms and that a police force should acknowledge this projection and take into consideration in administering to the letter of the law. That is why the "Midnight Alley Cats" are allowed to parade without a permit in Meade Heights at two-thirty in the morning. Watch out if you try it in another Lower Swatara Community!

Although small, Capitol Campus does have its own security force under the direction of Mr. Paul. As Director of Security, Mr. Paul is interested in making sure that what buildings stand today will be standing tomorrow. Mr. Paul and his hired guards of Globe Security, are

Mr. Paul — New Director of Campus Security.

responsible for the protection of property and traffic safety; they are not empowered to administer the law. They may, however, detain a student for arrest by the Lower Swatara Police Department or the State Police. All other violations such as disturbing the peace or having guns on campus are state and local matters and must be handled by duly appointed peace officers. It is Mr. Paul's hope that all matters involving students be handled within the Capitol Campus family. Mr. Paul has worked in behalf of the student body with law enforcement agencies in the past and we have no information that he plans to reverse himself in the future.

Our student government is by no means dormant to this problem of security and safety. Proposals such as the elimination of Globe Security guards with the compensatory "beefing up" of the permanent security force and the use of student Marshalls have come forth in answer to this problem. Both proposals deserve discussions of their merits and drawbacks keeping in mind that students are not here to be peace officers nor do they have power to be.

So is the story of security and safety at Capitol Campus... Sleep well. Big Brother is watching.

Mrs. W. E. DuBois Speaks At Lincoln "Egypt Is Africa"

by Chandler D. Wolf

Mrs. W. E. DuBois, wife of the late Dr. W. E. DuBois founder of the Pan American Movement, renowned black author and lecturer spoke at the campus of Lincoln University. Mrs. DuBois spoke to an over flowing crowd of about 450 to 500 at the Lincoln University Chapel. Addressing herself to the theme "Egypt is Africa", she articulately capitalized upon the contributions of black men and the unity of black citizenry around the world. Emphasizing the beauty of BLACKNESS, Mrs. DuBois pointed to Egypt again in reference to Cleopatra for whom Mark Anthony led the armies of Egypt against Roman invasion. Cleopatra as evident was no white woman (L. Taylor) but "BLACK IS BEAUTIFUL." The

point that most enlighten me was prompted by a question asked from the audience. The question addressed to Mrs. DuBois concerned her late husband's leaving — an emphasis upon his leaving America for reasons of the hopelessness of this society — and inequities of American justice. Mrs. DuBois refuted the idea that her late husband had left for reasons of injustice within the system because he would never run away from a fight. Dr. DuBois had left America to complete his most outstanding work in the composition of the "Encyclopedia La Cron." A work that would lend light upon African contributions to such a great Black Heritage.
