Body-Building Equipment Available

by Tony McGovern

A question I found myself asking when I wanted to release some tension from the daily academic activities during the winter term, last year was, "Where is the Athletic Building?" I referred to the student handbook and found myself in the middle of a room with all types of equipment quite unfamiliar to me.

The weight pulleys, the gripping bar, and the rowing machine were a few of the foreign contraptions. To an athletic minded person, they would be a common sight. The equipment was, and still is, in good condition. In another section, is the weight room where various length bars and weights of all sizes can be found.

Bob Stantley, the athletic-recreation coordinator told me of his intentions to form a flag football team very shortly, for girls.

The Judo Club meets Tuesdays and Thursdays from four to six, and the slimnastic group meets the same days from 7 to 8:30 in the athletic building.

The Base Gym is located on the Air Base facing the entrance to the school directly off Route 230. Turn left when you reach 230 and turn right when you hit the light on the top of the hill.

got to go . . .
