"All The News That Fits . . . We Print"

Vol. 3, No. 1

CAPITOL CAMPUS - MIDDLETOWN, PA.

January 20, 1971

NEW PARKING REGULATION ENFORCED

Students at Capitol Campus were reminded at registration to notice the changes in the Student Vehicle Regulations which became effective on January 1, 1970.

In paragraph III, A: "Each registered vehicle shall display its use permit by affixing the one bumper sticker marked FRONT to the registered vehicles front bumper and the one bumper sticker marked REAR to the registered vehicles rear bumper." Paragraph III, C: "The speed limit in Meade Heights Area is 20 miles per hour. The speed limit at all other locations on campus is as posted or as governed by prevailing conditions and safe driving practices, but in no case in excess of 35 miles per hour."

In paragraph VI, A, the changes are: "Car pools for full-time students NOT living on campus can be arranged with the Vehicle Registrar. However, only one use permit can be issued for one fee and the members of the pool are obligated to display the permit in the windshield of the vehicle in actual use. Because of the low cost (\$.10 per night) pool stickers are not issued for evening students."

Students were also asked to note the section, Violations, A:

"Actions in violation of the Vehicle Code of the Commonwealth will be dealt with by either campus authorities or public authorities, or both." And Section C: "Failure to display the use permit (bumper stickers or pool stickers), failure to report a change in vehicles, failure to respond to a violation notice within two days are all troublesome and time-consuming problems for the Vehicle Registrar. After two days the Vehicle Registrar will regard the violator as in default and will report the circumstances to the office of Student Affairs for action." Section D: "Violations of a non-moving nature, i.e., parking, failure to display campus registration, are subject to fines as follows: First Violation, \$1.00; Second Violation, \$3.00; Third Violation, \$5.00; and Fourth Violation, \$10.00. Violations of a moving nature, i.e., stop sign violation, speeding, driving on grass, reckless driving, not handled by public authorities will be subject to actions in accordance with the seriousness of the violation charged. These violations are counted anew in each vehicle registration period. Fines are

paid to the Vehicle Registrar, 114 Main Building, and must be cleared before the end of the term in which they are incurred. Fines are credited to Student Activities Fund."

The time during which appeals can be made has also been changed, paragraph B: "An appeal must be filed within two business days after the date that the violation notice is issued. If the violation is not appealed within the two day period, the fines as stated in Paragraph VII, D, will be upheld." And, Section C: "Any violation that is not cleared (excused or fine paid) prior to the end of the term will result in a hold being placed on records. A hold means (1) no transcripts are released (2) the student cannot re-enroll (3) the student does not receive a diploma."

Wimmer Resigns SGA

by Miss Rotondaro

SGA, not being a very strong organization, does not merit much respect or interest from the student body. Now, it seems, it has come to the point that the members themselves are also losing respect and interest. Decide for yourself.

Terry Wimmer, junior senator-at-large, resigned Monday, January 11, from Student Government. To some this move came as quite a surprise, but there were others who say they expected this and knew the reasons why. Some say, "Terry did a brave thing" others called it a "political move." I wanted to hear Terry's reasons for myself and I must say he didn't hesitate expounding on them.

Terry started off by saying that the senate was inefficient, insincere and unable to cope with the problems of the students, let alone play games with them. He stressed this point of the SGA playing games with the student body. He feels it is going to take at least 5-10 years to build a good student government and it can't be done the way the organization operates now.

One of the big points was the "supposed" Black Student Union threat that was to be made if Patty Patterson, SGA treasurer was fired. Terry felt that Lee Levan didn't have guts enough to fire Patterson who had violated rules established by the senate and recognized by the senate. Again Terry stressed, "Levan is playing games with the people." If Levan thought there would be trouble with the Black Student Union, he could have appointed a Black student to take her place." He said he doesn't think Levan has the abilities to be president. He also feels Chandler Wolf, Vice President of SGA is playing games along with Levan. Wolf made comments that he was going to claim racial prejudice if Patty was fired. All Chandler (Continued on Page 4)

TOBY SINGER EXHIBIT CONTINUES

An exhibition of sculpture, glass art, ceramics, prints, and crafts by Toby Singer, nationally known sculptor from Washington opened Thursday, January 14, at the Capitol Campus.

The exhibition, sponsored by the Capitol Campus Faculty Women's Club is being held on the first floor of the Main Building on campus.

It will be open from 10:00 a.m. to 3:00 p.m. weekdays through Friday, January 29.

The exhibition features a wide variety of works by Mrs. Singer, who is the daughter of Cantor and Mrs. Henry Borenstein, of Harrisburg.

A former student of sculpture and ceramics at the American University in Washington, Mrs. Singer has also pursued the study of copper enameling and printmaking.

She has taught at the District of Columbia Recreation Department glass craft program

MRS. HEINDEL—Helps with the Toby Singer Exhibit.

and has exhibited her work in several shows in the East, including an exhibition in November at the Jewish Community Center, Harrisburg.

NEW STUDENT OFFICES AND LOUNGE KEYNOTE BUILDING CHANGES

A comprehensive plan to provide increased and improved facilities for Student interaction and support of student groups is now nearing completion in the Main Building. According to John R. Grimm, Dean of Student Affairs, the total program includes the creation of a large student lounge and art gallery, a drug information center, offices for student organizations, a TV lounge and a new Student Activities office suite. The plan was developed by the Student Affairs office in conjunction with students and faculty.

"These steps should go a long way toward providing a more adequate setting for leisure-time learning programs," Dr. Grimm noted. "We have long strived to create an environment which would encourage and strengthen formal student groups as well as more casual student interaction."

New student organization offices are arranged in a suite pattern with the entrance being through W-110. Six student offices are included in the complex. At present, the Student Government Association will continue to use its current office in W-104. Radio Station WZAP will expand its facilities in Room W-106.

The student lounge and gallery will be located across the hallway in W-107 through W-113. The room is currently being used as a library reading room, pending the arrival of new lounge furnishings. The motif of the lounge was designed by a student-faculty committee.

"We earnestly hope that the new facilities and rearrangement of staff locations will better serve student needs. We would appreciate the comments of students and staff in regard to our efforts toward increased effectiveness", Dr. Grimm commented.

Furniture is scheduled to begin arriving in early February.

In order to provide a closer relationship with these new facilities, the operations of the Student Affairs Office have been realigned. Functions related to Student Activities (student groups, functions and activities) will be centered around Room W-105. This should provide the opportunity for closer contact with all students. In order to be more accessible to student records, Miss Toni Jennings, Financial Aid Counselor will be located in Academic Services, Room 104.

The offices of Dr. Grimm, Miss Vance and Mr. Millman will be in W-101. Mr. South and Miss Murphy are located in W-105.

Committee Appointments

SGA President Lee Levan announced the following appointments to the Physical Education Building Committee which held its first meeting this Tuesday. The appointments are: Linda Fischel of 833B Nelson Drive (944-9759) and Donald "Bill" Garrett of 1765 Rosedale Avenue (939-7941).

Dr. Moore Heads New Division

Dr. J. Herbert Moore has been named head of the new Division of Engineering and Technology at The Pennsylvania State University's Capitol Campus.

The appointment was announced by Dr. Richard H. Heindel, Dean of Faculty.

The division to be headed by Dr. Moore is one of three to be established under a new academic administrative structure effected at the campus. (Continued on Page 4)

TOBYSINGER TALKS ABOUT ART

TOBY SINGER EXHIBIT—There's still plenty of time to visit. It will be open until January 29th, sponsored by the faculty wives.

by Tom Hagan

Toby Singer is an artist. Although she doesn't usually travel from her home in Washington, she did open her "Toby Singer Arts Exhibit" here at Capitol Campus on January 14th.

The exhibit consisted of a variety of types of art, including woodcut prints, clay sculpture, glass and metal works, and, most notably, plastic forms.

Some of the more intriguing works were produced from copper or silver wire, shaped into a figure. Clear or colored plastic had been dripped onto the wire. It sometimes took as long as two weeks to dry.

Most of the works that were shown were from plastics. The artist started working with this material extensively after she had a small amount left over from a previous project. After a little time, she produced her first plastic sculpture, "Horse".

Miss Singer has had a

relatively limited amount of formal training. Some of her experience is from the American University which she attended eight years ago. Other attempts at expression in different media were initiated by observing the techniques of others.

Her favorite medium is clay. She has been told by many people that she should concentrate in that area alone in order to develop it even more fully. But she feels that she must explore new ideas in new materials and forms.

Her exploration of new ideas can be demonstrated by an incident where she spent an entire afternoon sorting through a neighbor's collected junk for materials and inspiration. This is certainly one way of recycling materials for new uses to save on waste.

Besides this area of interest, Toby Singer is also a talented dancer and a member of a Washington choir.
