G.R.E. Dates Announced

The Educational Testing Service has announced that undergraduates and others preparing to go to graduate school may take the Graduate Record Examinations on any of six different test dates during the current academic year.

The first testing date for the GRE is October 28, 1972. Scores from this administration will be reported to the graduate schools around December 4. Students planning to register for the October test date are advised that applications received by ETS after October 3 will incur a \$3.50 late registration fee. After October 10, there is no guarantee that applications for the October test date can be processed.

The other five test dates are December 9, 1972, January 20, February 24 (only the Aptitude Test is administered), April 28, and June 16, 1973. Equivalent late fee and registration deadlines apply to these dates. Choice of test dates should be determined by the requirements of graduate schools or fellowship sponsors to which one is applying. Scores are usually reported to graduate schools five weeks after a test date.

The Graduate Record Examinations include an Aptitude Test of general scholastic ability and Advanced Tests measuring achievement in 19 major fields of study. Full details and registration forms for the GRE are contained in the 1972-73 GRE Information Bulletin. The Bulletin also contains forms and instructions for requesting transcript service on GRE scores already on file with ETS. This booklet is available on most campuses or may be ordered from: Educational Testing Service, Box 955, Princeton, New Jersey, 08540; Educational Testing Service, 1947 Center Street, Berkeley, California, 94704; Educational Testing Service, 960 Grove Street, Evanston, Illinois, 60201.
