

## DTK Proposes Shuttle Bus System

by Victor Pawluk

At the last Delta Tau Kappa meeting, the idea of establishing a free "mini-bus" service between Meade Heights and the main building was discussed.

It was suggested that a mini-bus which can seat 9 to 12 people by purchased by the school for this purpose. It was noted that if the school purchased a mini-bus, a separate fund needed to be established in order to operate the system because the school would not support a system which had no income coming in to support itself. Therefore, it was suggested that a charge of 5 cents or 10 cents per ride be charged students using the mini-bus service.

Another proposal suggested that a free motor pool be established by the students themselves.

The way the motor pool would work is that several strategically located points on campus would be designated as "pick-up" locations, much like bus stops. Students desiring a ride would wait at one of these locations until a student driving his car would stop to give the waiting student a ride. Only students desiring a ride would wait at the pick-up location, thereby, eliminating the guessing game factor of which students "want" a ride. Students driving

may then easily determine if another student wants a ride, and he may then stop and give the waiting student a ride if he so desires.

Undoubtedly, this proposal depends greatly upon the co-operation among the students themselves in order to work. Students interested in establishing some type of transportation system between Meade Heights and the main building (Whether it be mini-bus or student car pool) are asked to go to the DTK office next to the T.V. Lounge and make their desires known.

This information is important to determine whether there is a need for a system of student transport on campus. Remember those cold and rainy days walking along the roadway?

The next DTK meeting is scheduled for April 24 at 7:00 p.m. in the Gallery Lounge. The primary purpose of this meeting is to acquaint prospective DTK members with the organization. Any student interested in joining this honorary society is cordially invited to attend the next meeting on April 24th. Prospective members are reminded that in order to join DTK they must hold a 3.0 grade point average or better, and express an interest in the social sciences.

## SGA sets Spring Election schedule

Definite plans for the SGA spring elections were enunciated by Sen. Marilyn Levin, Chairman of the Election/Screening Committee at the Senate meeting on Monday night.

Election day has been set for Thursday, April 26 with the presidency for 1973-74 up for grabs along with the offices of vice-president, secretaries (recording and corresponding) and treasurer.

In addition, senate positions for six program seats and four at-large seats are open. Candidates for these senior positions for next year can pick up petitions in the SGA office, W-104, beginning today and must be returned by 5:00 p.m. on Monday, April 16 according to Levin.

Reportedly, both seniors and juniors can vote in the April 26 election.

## Traveling Art Exhibit on Display

The Graduate Commons Traveling Art Exhibit will be displayed in the Gallery Lounge, through Monday, April 23.

The exhibit is comprised of the works of nineteen artists, most all of whom are Pennsylvanians and includes batiks, drawings, paintings and prints.

The works, which are not for sale, represent a fine assortment of techniques, media and subject matter symbolic of the works regularly in the Common Gallery.

The Graduate Commons Gallery has been an active innovator in the arts since its opening two years ago. It functions on the philosophy that exhibiting local talent is conducive to building an art conscious public.

Their efforts are extended offering other colleges and universities the opportunity to share these traveling exhibits at negligible expense. This exhibit will also be shown in other colleges and universities

throughout Pennsylvania, Maryland, and West Virginia.

Included among the works is a lithography by Joelynn Snyder Ott, a former resident of the Harrisburg area. Ms. Ott is currently an instructor of drawing in the College of Arts and Architecture in Penn State's Department of Continuing Education. A graduate of the Moore College of Art, Philadelphia, she has works in collections throughout the United States and in private collections in Italy and Paris, France.

The free exhibit is open daily, 9 a.m. to 5 p.m., and open to the public.

## Phone Number

As we stated last week, the editor of The Capitolist has moved to 824 B Nelson Dr., Meade Heights. His phone number is 944-9641.

## 15 MARCH 73

I, twice thus cast in spiral orbits, hurled  
By pow'rs dispatched from things not of myself,  
Ask how I earned this exile from your world:  
How did I lost my setting on your sheld?  
What actions or admissions make me feel  
Rejected as a minstrel in a hedge?  
What spark across your memory revealed  
Realities of LOVE appearing dead?  
Now, once again discarded from your hand,  
Not complementing any of your sets,  
With no utility I swirl as sands  
In seas of souls you casually forget.  
I strain; I get the glimpse that brings the Fear:  
From distant spaces your malicious sneer.

C-B

## Capitol Calendar of Events

APRIL 12 -- At 1:30 p.m., the campus chapter of the College Republicans will meet in the Gallery Lounge to pose for a yearbook picture.

APRIL 13 -- Petitions for executive officer and senate positions for intended SGA candidates are due in the SGA office, W-104, at 5:00 p.m. Election date is April 16, at 8:00 p.m., the Do Nothing Club presents the award winning film "Hotel" in the Student Center. The XGI's stage one of their famous keggars beginning at 9:00 p.m. at the Hummelstown Fire Company Entertainment is by "The Watchtower."

APRIL 16 -- The Resident Student Council meets at 6:30 p.m. on the second floor of Church Hall. All students are welcome. The Student Government Association meets at 6:30 p.m. in E-335, Main Building. Martial Arts instruction is set for 7:30 p.m. in the Recreation/Athletics Building. Resident Assistant applicants for next year's duties meet at 8:00 p.m. in the Gallery Lounge.

APRIL 17 -- At 7:00 p.m., the Soccer Club faces Millersville State College under the lights at the athletic field. Also at that time, the Photo Club meets in the darkroom in the Dispensary (Placement Office). At 7:00p.m., Women's weight training is scheduled for the Rec/Ath Building. At 8:00 p.m. there is men's weight training. The XGI's stage a meeting at the Middletown American Legion at 8:00 p.m. At 9:00 p.m., there is a Folk-In at the New Birth Coffee Cabaret, 946 A Kirtland Ave., Meade Heights.

APRIL 18 -- NO SCHEDULED EVENTS

APRIL 19 -- at 8:00 p.m., the film "Occurrence at Owl Creek" will be shown at the New Birth.

## BE SURE TO HEAR THE ADVENTS

explain why Advent speakers, with relatively little advertising and fewer dealers than several other brands, have become best-sellers (the first became so before it was advertised nationally at all), and why people go out of their way to tell us how pleased they are with them.

For a reasonable, affordable amount of money, you can build as good a stereo system as you're ever likely to want around either of them. And it is why Advent speakers, with no visible indication that anything really extraordinary is inside their simple cabinets are worth listening to critically and thoroughly before you buy.

Nothing about these speakers is accidental. They are the result of eighteen years' previous experience in making high-performance acoustic-suspension speakers, and the striking value they represent was made possible by what the Advent Company has learned about taking the most simple and direct route to highest performance. Nothing audibly useful is missing, and nothing unnecessary for home listening is present.

The only basic difference in performance between them is that the original (\$102 - \$116 depending on cabinet finish) will play slightly louder in bigger rooms than the smaller (\$70). Both have the same clarity and accuracy, bass response approached by few speakers of any price or size, and an octave-to-octave musical balance chosen to suit the widest range of recording techniques.

We at L.B.R. AUDIO would be most happy to demonstrate the Advent speakers for you in our listening room, but if you can also hear Advents at a friends house, you can get an idea of just how good they sound in a home, and of what your friends think of them and us.

We wouldn't suggest you make sure to hear these speakers if we didn't think you will find it worth your while. Thank you.

Before you buy your first or your next pair of loudspeakers, it will pay you to hear the Advents.

Both the original Advent Loudspeaker and The Smaller Advent Loudspeaker were designed to make the top level of loudspeaker performance available at a fraction -- less than half -- of the former going cost. They are meant to be compared directly in every aspect of performance, including frequency response from the lowest to the highest frequencies of musical interest, to the most expensive and elaborate speakers available, and they sound clearly and dramatically better than many far more expensive systems.

Those are strong claims, but no stronger than the feelings expressed every day by satisfied Advent customers. They help
