

Where's my free coupon

Some people have been asking, "Where's the McDonald's Free Coupon?" The answer to which is, it's down at McDonald's waiting for someone to pick it up.

Why hasn't anyone gone to get it? Well, as you know, the Reader is short staffed and as a result it is not the paper it should be. We have very few ads in our paper and would like a lot more. But we have no one willing to go out and get these ads. As editors and students we do not have the time to take on this job too. The "one" student who has been responsible for this in the past, is now just as busy as the editors. (We like to eat too.)

What we need is a few conscientious students, (graduate and/or under-graduate) to go out to individual stores in the area, (Middletown, Highspire, and East Mall to solicit ads.

It was a weekly, now a bi-monthly job that employs the use of a car and a few hours of your spare time. The Reader will pay your expenses, (10 cents a mile) and asks only for your time and selling ability.

If you're interested, then stop by our office. We're not only looking for the McDonald's ad, but other ads that will help cut the cost of running a school newspaper. Thank You.

THINGS TO DO

by
John Bradford Langdon

Just a few days ago, Al Houser, from Church Hall asked me where he could rent a bicycle. I informed him that several bicycles were available in the Recreation/Athletic Building, over by the football-soccer field.

"No kidding? Boy, that's great! No money, just an ID card (from Capitol)."

"That's right."
So, I figured that you, the Capitol Campus Public, might want to know what other free-rental items are available at the Rec Building. On Wednesday afternoon, Bud Smitlee (Athletic Director) and Mrs. Arehart helped me compose the following list of items, which only require a person's ID card and his or her own signature.

When it's too cold this fall and winter to engage in outdoor sports activities, you should consider in-door exercise on the physical-fitness equipment at the Rec/Ath Building.

There are three main workout rooms. One is principally used for body building, and a second room for physical conditioning. The third room, which is the largest, contains plenty of room for exercising practicing falls or wrestling.

In addition, locker rooms and showers (for men and women) are conveniently located between the workout rooms along the hallway. Soap and towels are provided for use WITHIN the building.

A list of the physical exercise and/or conditioning equipment, which is available for your use, is below.

Rowing machines - 2; Floor and Chest pulley weights - 3; Frictional Wrist Roll - 1; Shoulder Wheel - 1; Wrestling Wheel - 1 (in need of repair); Chinning Bars - 2; Table Tennis Equipment - table, paddles, balls and net; Stall bars; Mini-Gym - incorporates an abdominal board and a pair of Floor - Chest pulleys.

Universal Gym - an extremely versatile weight machine. Leg machine and adjustable weights; Dartboard; Heavy and Light-weight punching bags (with gloves for each).

Tennis rackets and balls; Badminton rackets and birdies; Golf Clubs - no balls; Basketballs; softballs and bats; Footballs; Quoits (rubber); Volleyballs; Horseshoe Set (rubber); Soccer Balls; Archery Equipment and Bicycles - men and women's.

NOTE: A whirlpool bath is available, but may only be used when prescribed by a doctor.

I.E.E.E.

L to R Jim Yorgey, local chairman confers with Mr. Asdal, IEEE Staff co-ordinator of student activities.

Early Saturday Morning, October 13, two Capitol Campus students boarded a plane for the Institute of Electrical and Electronic Engineers Region 2 Convention for counselors and chairmen. The plane was heading for Pittsburgh, Penna. Our representatives were Jim Yorgey and Earl Showalter, the Chairman and Treasurer of our local IEEE branch.

Mr. Michael M. Vartanian, Region 2 Student Activities Chairman, opened the meeting to discuss the purpose of the convention. The main purpose was to instruct counselors and chairmen on how to better govern their respective students branches of the IEEE.

The group was then divided, and Mr. Vartanian led the counselors in the discussion of their responsibilities.

Mr. Robert Asdel, Coordinator of Student Activities, and Mr. James Long, member of the Student Policy and Planning Committee led the chairman in their discussions of branch activities, finances and career development. The enthusiastic exchange of information was helpful to all 30 or more student branches that were represented.

At 3:00 p.m. the counselors and chairmen reunited to further discuss their ideas.

Returning to Harrisburg, Yorgey and Showalter held greater expectations and ideals for our local branch of IEEE this year.

DTK

Delta Tau Kappa is once again sponsoring a Graduate School Seminar during the fall term. The purpose of the seminar is to acquaint students interested in attending graduate school with the procedures involved in applying to prospective schools. All those students interested in applying to a graduate school should make it a point to attend the seminar as it is designed to help in this regard.

The Graduate School Seminar is to be held in the school's auditorium on the school's second floor. The program will be held twice in order that all interested students will have an opportunity to attend this very helpful program. The seminar will be held on November 13, 1973 during the 3rd period (10:50 p.m. til noon) and again on November 15, 1973 during the 4th period (12:15 p.m. til 1:30 p.m.). The tentative schedule for the program is as follows: Marian Krieger and Ed Beck will speak on the procedures to follow and how to apply to a graduate school; Peg O'Hara will talk about how to obtain financial aid; and Dr. James McAree will discuss graduate exams and other related tests important in gaining admission to a graduate school. A special note of thanks goes out to Elaine Parker, DTK Vice-President of Activities, for her work in co-ordinating this fine program.

Again, all students interested in going to graduate school-make it a point to attend

Organizational News

the seminar--since this program is just for you! The seminar is open to all students and faculty members interested in learning more about application procedures to graduate schools. There is no admission to this very useful program, and thanks to DTK, you can learn about some of the mysteries of graduate school for free. Don't miss out; see you there!

A Pinocle tournament will be held this term. You must register as a pair by November 19. A fee of 50 cents each will be used for money prizes for first, second and third place teams. It will take place from Monday, November 26 to Thursday, November 29 at the Coffee House. Refreshments will be served for the players and spectators.

The new laundromat hours were discussed with the tentative hours set as 8 a.m. to 11:30 p.m. Monday thru Saturday and 10 a.m. to 11:30 p.m. on Sunday. Last wash is 10 p.m and last dry is 10:30. The cost will be 25 cents wash and 10 cents dry. It will hopefully be open by the middle of the month at 810 B Weaver.

Also the problem of security was discussed. Please, for your own safety - lock windows and doors. PLAY IT SAFE!

I.T.E.

The third meeting of the Institute of Traffic Engineers took place on October 25. The meeting was called to order by President Gene Quinn who also asked for a treasurer's report which was provided by David Naffin. Also, topics under old business were given by George Baran and David Pressman.

George reported on the buying of T-shirts and jerseys. It was decided to place an order using the ITE colors of blue and white. Any member not present at the meeting who wants to place an order can contact George Baran at 815 A Weaver Avenue.

Dave Pressman, also chairman of the program committee, reported on the progress of getting Mr. Roy Falcone to speak to the ITE members. Mr. Falcone is a graduate of Capitol Campus and is currently working as City Traffic Engineer at Lancaster, Pennsylvania.

New business consisted of a discussion about the road rally

to be held in conjunction with the Social Committee. It was agreed that the ITE would provide volunteers to help.

The ITE would like to see more junior members at future meetings. The next meeting is on November 15 at 815 A Weaver Avenue. Please plan to attend.

Blood Bank

The X.G.I. fraternity will be sponsoring a blood drive Thursday, November 15. The blood mobile will be located in the front of the school from 9-5.

The X.G.I. fraternity hopes to have at least two blood drives this school year. All blood donated goes into the X.G.I. account which in turn is available to any student, faculty member, or employee of the Capitol Campus, and their immediate family.

Often times people do not realize how costly it can be to have a blood transfusion. Anyone who is not covered by a blood bank, and who needs blood must either replace two pints for every pint used or pay approximately \$50 a pint.

This service is performed by the X.G.I.'s free of charge. The only thing we ask is that those who are able to give blood --- give.

As an added incentive to give blood on the 15th, there will be a 50 cent reduction on the admission price of the Keggar on November 16, for all those donating blood.

Everyone's cooperation will be greatly appreciated.

Dave Miller
Chairman of the X.G.I.
Blood Bank

Drama Club

Casting for the Capitol Campus Drama Club's next production took place on Thursday October 25.

Two one-acts, "The Marriage Proposal" and "The Stranger", were chosen by the club members. The production dates have not been set.

During the meeting officers were elected. They are Phoebe Sechler, President; Trudy Drake, Vice President; and Eileen Veljacic, Secretary - Treasurer.

The group will perform at the Fair - Hop on November 8 in the Student Center. They will do some improvisational skits organized by Sherri Speer.

How do you break the A.M. habit?

Simply listen to stereo 92.7fm radio Starview whenever possible... it's good medicine.

a nice habit...

WA WATU

all we need is you

By Elizabeth Suber

The Black Student Union of Capitol Campus began another busy and enterprising year by awarding the B.S.U. scholarships to a number of worthy students.

Entertainment and events began this year with the Rod Rodgers Dance Group and the B.S.U. Bake Sale. The Black Student Union is also sponsoring a dance at the Student Center starring Diamond Funk on November 9, 1973.

Sports fans can take their skates out for the B.S.U. skating party on November 29. But these are just a few of the activities planned for this year and all we need is you!
