Jetsy Jo Kissinger, a nationally renowned archer (Pennsylvania 1974 female champion; placed 3rd in national competition this past summer in North Carolina), recently spent a day on Capitol Campus helping to get the Archery Club underway. She went to our Archery range and in short order we all had an opportunity to see why she is a national champ! She shot 7 arrows for demonstration purposes and all 7 crowded each other around dead center. She and her husband will be back on campus on January 28 for an archery exhibition in the auditorium. It will be worth seeing!!

THANKS TO MRS. JEANNIE AMMON we now have an advisor for the Archery Club! She has very graciously consented to add this program to her busy schedule!!

Accounting Internship Program

by JOSEPH MINNICI

This past summer Mr. Phil Buchanan of the business faculty contacted sixty-four public accounting firms, corporations and government agencies regarding participation in the Capitol Campuses new accounting internship. Out of these contacts, fifteen indicated interest in an accounting internship.

"The primary objective of the internship is to afford students the opportunity to gain practical on-the-job experience in the field of accounting, which is currently not possible in the classroom. The interns will have the chance to interact with accounting practitioners which it is hoped, will assist students in developing career goals", states Mr. Buchanan.

A secondary objective of the internship is to assist in the placement function. Thirteen Capitol Campus students have been accepted for the

Mr. Phil Buchanan.

program. Prerequisites for this program depend upon the nature of the job as evaluated by the Accounting faculty. Mr. Buchanan hopes that all will receive internship offers.

The internship will be offered winter term and run for ten weeks. Each student successfully completing his assignment shall receive credit for one course. Grading will be on a pass-fail basis only and all interns will be well compensated for their work.

This year, all but two of the participating employers are C.P.A. firms. Mr. Buchanan says, "The majority of internships are located around the Capitol area. However, through contacts with the "Big 8" public accounting firms we could place students in various major metropolitan areas such as Baltimore, Pittsburgh, New

York and Philadelphia".

The unique thing about the Capitol Campus program is that all firms employing recent accounting graduates are being encouraged to participate, which includes both national and local public accounting firms, corporations, private companies, and health care and governmental agencies. Most internships are designed exclusively for the "Big 8" firms.

"We hope in the future to expand the program into the local, state and federal government", comments Mr. Buchanan.

Mr. Buchanan believes the internship is of benefit to the entire Capitol Campus. Even if a firm doesn't employ an intern they at least become aware that Capitol Campus exists and if at some point they need an intern or a full-time employee at Capitol is hope they will keep us in mind. This type of exposure is required if the Campus is to be recognized as the Pennsylvania State University in the Harrisburg area.
