Crack READER columnist Jimmy Olson is tracking down a lead for his next column, featured exclusively in the C.C. READER. With Jimmy on the go, Sy Hersh and the Eastern liberal press-be forewarned...Muckraking is alive and well in the hearts and minds of the nation's smaller tabloids.

Hello sports fans. Jimmy here once again mukraking my way into your hearts. Jimmy has a few important questions to ask about the women's liberation movement. I'm not being negative to any cause by writing this article, because I am emphatically for women's Lib. But, in any movement there is always room for improvement. So, here are my suggestions to all women on how to ascend one step beyond liberation.

As you all know, my ex-boss, Superman, was the epitome of male chauvinists of the century. Poor Lois Lane just stood by and took all the crap he gave her. So, I feel that I have some real, first-hand insights into the matter. Once the equal rights amendment is passed and legally exercised, women across this vast country will be called upon to take that "one step beyond". This step, is growing out of the secure, convenient status that most women now maintain. I challenge women to totally assert themselves by becoming a total human being! No longer will laws and social stigmas dictate women's relationship with men. No longer will women be able to sit back and hide behind the veil of being discriminated against. In other words, it's up to you women to make the first step.

Stop forcing men to be the dominate sex. Stop playing roles. If two people meet, and are in someway attracted to each other, why should it be the man who must ask the woman out? There is no excuse for the woman not to exhibit her attraction to that man by asking him out. I am tired of having to act as the asker. Many women feel that men will be turned off if the one who asks the men out. So, true! But, there are plenty (or at least some) men who can easily handle that situation. That's one hell of a challenge to accept.

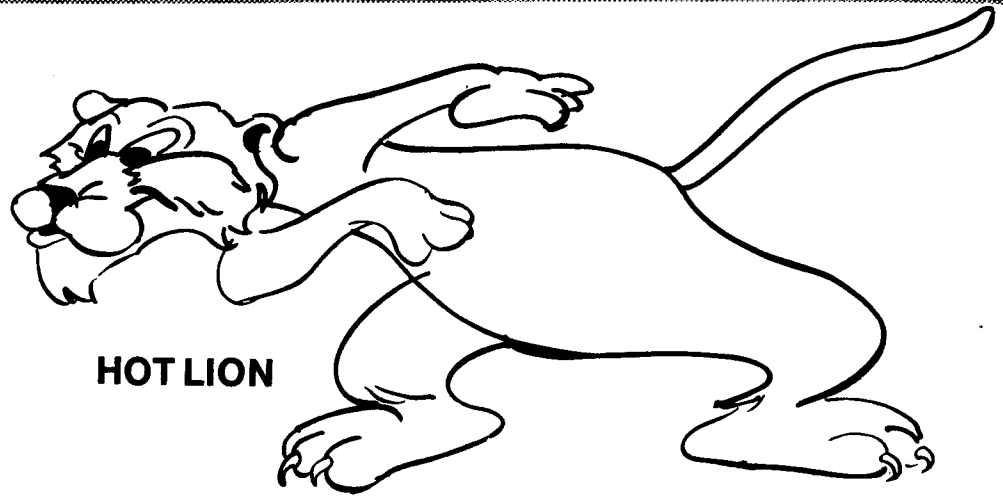

What about sex? Generally, why must it be the man who initiates the vibrations leading up to a sexual relationship? Women have sex drives just like men, so why not express them? Don't feed me that moral bit either. Again, many women feel that men would believe themselves to be inadequate if women are the sexual aggressors. If the man has his "head together", there's no reason for a break down of a fantastic sexual relationship. In fact, Jimmy feels that equal aggression and expression of sexual feelings is quite stimulating. Ever hear of equal time? Well, here it is.

What about financial matters? Say if some fantastic woman wanted to take me out to dinner, would I feel insulted if she paid the check? Absolutely not! My pride is not over-bearing enough to not accept the warm friendship of a friend. The money makes no difference. In no way is Jimmy Olson cheap. It's just the principle (of the game) of the man asking a woman out to dinner or other entertainment, and automatically paying the expenses. Many women students are just as poor as their male cohorts, so why not be thoughtful and share. Have you women forgotten about sharing? Come out behind the games, and let me see your face. I could ramble on and on with examples. But for your sake, I won't. I have made my point about equal responsibility in relationships, whether they be emotional or sexual. If women are to be truly free to express themselves as real, loving human beings, they must drop the old social roles of being the passive partners. What about men? I haven't forgotten about them. You all say that there are too few man who can handle it? Perhaps you women are absolutely right!

I can only speak for myself, and not for anyone else.

The only reason why I, Jimmy Olson - the world's most renown combater of mediocrity, have presented this challenge to women, is simply because I do most sincerely love all of you.

Jimmy Olson just wants something beautiful.
