

Spring Rite Tax Bite

(CPS)--Taxation even with representation can be tyranny as many people are discovering again this winter. To get those tax refunds in plenty of time for spring frolics, wage-earners must first do a mad scramble with forms, instructions and tables.

Students are not exempt from this annual rite. Even students under 21 years who have a gross income of at least \$2350 or have any other unearned income (like interest on savings accounts) must file returns.

Smart taxpayers will file their returns in January and early February when refunds will be mailed in four to five weeks. Procrastinators who file just before the April 15 deadline might be waiting two or three months for their refunds.

New tax laws passed in 1975 mean slightly less tax for many people. The standard deduction has increased from 15% to 16%. Also, the low-income allowance has been raised from \$10,000 to \$15,000.

Students who have worked on and off for the year can take the standard deduction and in many cases, so can their parents. If the student is over 19 years old, was a full-time student for five months of the year, both students and parents can claim him as a deduction.

If you didn't have an income tax form sent directly to you, contact the state or federal revenue office. Ask for a short form, 1040A, if you have an income less than \$15,000 or earned less interest than \$400. It's simpler and can sometimes save the taxpayer money.

Chief Paul Suggests

Turning Off

In conjunction with the efforts of The Executive Energy Conservation Committee at the University, Chief Paul of the Dept. of Safety, Security Police requests that all members of the staff, faculty and student body make every effort to conserve on energy in the form of heat and electricity.

Chief Paul stated he learned from reports from his patrols, that lights are left burning in unoccupied classrooms and other areas in the Main Building, and it is not until midnight or later that these lights can be turned off by the Security Police. If the last person out of the room or area would just turn off the lights, a fantastic saving in resources could be realized.

Another savings can be easily realized if occupants of rooms and houses would be careful about open doors and/or windows when the heat is turned up and if Meade Heights would please extinguish their night lights outside their houses, some noted to be burning for 24 hours.

Three Receive Scholarship

Dr. Robert McDermott, provost, has announced the names of the recipients of the R.T. Brown Scholarship for the winter term.

Jorn Jenson, Todd Malpass and David Wolf were presented with the award by the Committee on Academic and Athletic Standards, Awards and Scholarships. The three students were recommended by the Scholarship Com-

mittee of the Engineering Technology Department.

Jorn Jenson, the son of Mr. and Mrs. Hans Jenson of Arnold, is married to the former Roberta Masse of Tarentum. He is a transfer student from the New Kensington Campus and is majoring in Mechanical Design Engineering Technology.

Todd Malpass is the son of Mr. and Mrs. Thomas Malpass of Forty Fort. He is a transfer student from the Wilkes-Barre Campus and is majoring in Building Construction Technology.

David Wolf, majoring in Electrical Design Engineering Technology, is a transfer student from the Hazelton Campus. He is the son of Mr. and Mrs. Karl L. Wolf of Lebanon.

The R.T. Brown Scholarship is awarded to Engineering Technology students demonstrating academic excellence, leadership and potential ability. The scholarship was conceived by the XGI fraternity in memory of R.T. Brown, adviser to the fraternity, and assistant professor of engineering. The scholarship was funded by donations from faculty, staff and students following the death of Dr. Brown in November 1973.

R.T. Brown was an innovative and demanding educator who was highly respected by the entire campus community.
