## More Letters To Editor

To the editor,

Got some good input on the car pool. People liked the idea and thought it was needed. Someone mentioned there are five brick shelters in the heights and suggested more than one be used.

I looked into using the school van as a shuttle bus but the business office told me it was sent to Main Campus before the summer and is not available. If it was, we would unfortunately not have a priority. Furthermore, it doesn't look like the car pool will happen this term. Next term is the one.

Volunteers we ask of you, your van space, your front and back seats, your consideration and a little of your time. Those of you with a steady schedule and a van are needed. Lend a hand, drive your neighbors to school. The ride home is optional. Sign up next term at the round table or the SGA office. Leave your name, departure time, and phone no.

Charlie Lament

To the editor,

Waking up hung over last Sunday morning, I ventured to look into my closet and realized that I needed to again go through the menial task of doing my laundry. I searched through my drawers for change and was able to find only a quarter and a dime. After checking with my roommates, I was only able to come up with 30¢ more. I then proceeded to walk to the coffee-house which I found closed. I then decided to take a long walk over to the dorms where I received some change but still not enough for my wash. I finally headed for the Main Building and was able to get change in Venderville. Doing laundry is a big enough drudgery without having to waste over an hour running all over campus for change. When will the administration start thinking about student needs and install a change machine in Suds City?
