### Spring Weekend

### Favored

### By Majority

To obtain student's input as to the kind of entertainment they want in place of the spring concert, a survey was published in the Reader last semester.

Three proposals were listed and students could indicate how high their personal interest was on each proposal by circling a number from 1 to 5 on each one. The survey was to be cut out and returned to the C.C. Reader office.

After receiving about 30 replies three weeks later, a Reader staff member cut out surveys and approached stud-

ents in the hall and all over campus asking them to fill out a ballot. Consequently, 200 surveys were turned in.

The overall, interest, was for a spring weekend with several events such as a picnic, sport tournaments, an art festival, club carnivals and live music. Sixty nine percent was its corporate popularity. Next was the band concert in the gym-fifty seven percent. Having small music and other cultural events throughout the year was third with fifty four percent.
