

Studios Are Saved

And it came to pass that early in the morning of the last day of the term there arose a multitude smiting their books and wailing.

And there was much weeping and gnashing of teeth, for the Day of Judgment was at hand, and they were sore afraid

For they had left undone those things which they ought to have done, and there was no help for it.

And there were many abiding in the dorms, those who had kept watch over their books all night, but it naught availeth.

But some there were who arose smilingly, for they had prepared for themselves the way, and made straight the path of knowledge.

And the wise ones were known as the burners of the midnight oil, but by others they

were known as curve-raisers. And the multitude arose and ate a hearty breakfast.

And they came to the appointed place, and their hearts were heavy within them. And they came to pass, but some passed out.

And some of them repented of their riotous living and bemoaned their fate, but they had not a prayer.

And at the last hour there came among them one known as the instructor, he of the diabolical smile, and passed papers among them, and went upon his way.

Many and varied were the questions asked by the instructor, but still more varied were the answers which were given, for some of his teaching had fallen on fertile minds, others had fallen fallow among the

fellows, while still others had fallen flat.

And some there were who wrote for an hour, others wrote for two, but some turned away sorrowful.

And of these many offered up a little bull in hopes of pacifying the instructor, for those were the ones who had not a prayer.

And when they finished they gathered up their belongings and went away quietly, each in his own direction, and each vowing to himself in his manner, "I shall not pass this way again." But it is a long road that has no turning.

Blessed are the meek and studious, for they shall receive the 'A'.

Sheldon Speaks Out

Mike Sheldon, president of SGA, voiced student concerns at the Faculty Council meeting last Wednesday.

Sheldon talked against the \$10 per term parking fee, citing that the money goes into a pool at U. Park for which students at Capitol do not benefit. He said that students at least deserve an answer as to why the parking fee won't be repealed or reduced.

Sheldon also brought up

the problems of the bookstore, problems of inadequate lighting on campus at night, lack of summer courses and the lack of a dean's list.

Another issue discussed at the meeting was the problem of student and faculty apathy in dealing with the unconcerned U. Park. Sheldon proposed that students and faculty work together to prevent their concerns from

being "pushed away" by University Park.

"Capitol Campus is sometimes looked upon by University Park as a bastard child. The wants and needs of Capitol Campus are ignored if not downright chided," Sheldon said.

Next fall the Faculty Council plans to meet twice a month to discuss problems and projects concerning students and faculty.

Bill Lewis who has previous experience as chairman of the Faculty Organization, said that he expects the program for the coming year to feature a "hard look at our organization" and a "positive outlook."

He issued the following statement: It is especially important in these times of

stress, that the average faculty member view his organization as an efficient vehicle for fair and effective representation of individual and collective faculty concerns. It is my understanding that the Capitol Campus Administration wants a strong Faculty Organization here.

Have a Good Summer

Does work have you watching the clock?
Is the day making you a nervous wreck?
Does school have you worn out?

If you said yes to any of the above, why not drop by Sera-Tec Bio where you can lay back and RELAX for 1 1/2 hours or so and be PAID! In fact by donating plasma you can earn about \$88 a month.
