

# senatorial platforms

## Alan Foote

In my rather short time at this campus I have encountered some rather alarming situations which I feel have gone on entirely too long. I spent two years at a small liberal arts college where I was involved in student government. At this school we encountered some of the same problems that Capitol is having, and we were able to correct them. I believe that the same can be done here with my help. This school is an excellent opportunity for higher education and with some work by someone that knows a higher level of education at this university will be accomplished.

## Robert Steven Hesselthaler

S.G.A. Junior Senator Platform

1. Qualifications  
1978-1979

Montgomery County  
Community College  
Hospitality  
250 member club  
1977-1978  
Hospitality Club member  
1975-76

Upper Moreland High School  
S.G.A. member

A.A.S. Degree Hospitality  
Management Restaurant-op  
tion

2. Platform: is one designed to benefit student at Capitol Campus, whether they live on campus or commute. Major emphasis will be placed on the ideas of getting students involved with the campus, and also to get students to interact with each other socially.

Ideas of Major Consideration  
1. Registration- investigate better and easier flowing methods in which students can register.

2. Orientation- design better programs for students to meet the school as well as meet other students.

3. Social gatherings-Parties-dancing or interesting social gatherings designed to allow students to socially interact with one another.

a. on campus gatherings  
b. office campus gatherings

4. Books-  
a. Can prices be lowered?  
1. if so, how can it be done  
2. if not, why not, and a explanation to the students why they can not.

5. Fund Raisers-designed to raise money, but more importantly designed to get students involved.

## Tony Lagasse

It is my contention that there are areas of student life that can be improved on this campus.

When considering the registration process for 7th

termers, the process for removing books from the library and the purchasing prices of books from the bookstore, I feel strongly that there is a need for improvements.

As a student of accounting I am interested in becoming a part of the decision making process of this organization.

As a student who spends time on campus I am looking forward to spending my time with the students so that I can be a responsive member of the S.G.A. I am interested in the welfare of the students, both academically and socially and if elected I will do everything in my power to see that the SGA is moving in the directions that are most beneficial to the students of this campus.

## Robert A. McDonald (Mac)

My qualification is that I'm a student of Penn State University who takes an active part in its processes and functions. Before coming to Capitol Campus, I had been both a part-time and full-time student of a P.S.U. branch campus-for close to 4 years. During that time, I helped S.G.A. in many of its functions: orientation week, spring day, slave sales, dances and of course parties. I have a good understanding of the rules and policies of this university: therefore I can realize which policies should be accepted and which ones should be changed.

My reason for running is simple. I wish to have a closer say-by means of representation-in the working, processes and functions that will affect myself and other students like me, for the remainder of our stay at Capitol Campus. My primary interest would be concerned with: 1. Dormitory life and how it could be improved, 2. Policies or rules-which ones I believe should be implemented and which ones dropped.these of course, would all be done thru student votes for they are who make up the this campus. 3. Allocation of school resources and 4. to try to break the gap that exists between the Heights and the Dorms. I will admit that I have never held (officially) an S.G.A. office before, but I feel that a person full of fresh ideas and who is willing to give up some of his time to implement these ideas is what the S.G.A. WANTS. Thank you.

## Harry H. Moyer

for SGA Junior senator at large

I want to voice student concerns (through the SGA) to the administration, and have a positive direct impact on important campus matters that govern students. As an engineering student, I want to

instate a Dean's List on this campus to encourage students to excel academically. And if elected Senator, I will do my best to make sure all policies made will be IN THE BEST INTEREST OF THE STUDENTS ON THIS CAMPUS.

## Rosanne Rosenberger

To: Election Screening Committee

I have always had an avid interest in the activities of student government. I am socially conscientious and devoted to my fellow students. I maintained 3.2 cumulative average at the P.S.U. Beaver Campus, but unfortunately was given no opportunity to run for office. I have made many friends in the Mathematical Science department and would be happy to represent them.

## Sandra L. Shirk

I am interested in the student body and the policies by which it is governed. I would like to be a part of the student government and help to improve policies for students.

Being a Social/Public Policy major, I feel that I am exceptionally qualified for a junior senatorial position. As a junior senator not only will I be able to help in the functioning of student government, but I will also gain much knowledge from the position. It will be a beneficial learning experience for me since I am interested in government and politics and plan to attend law school.
