

Clubbin' around

ACCOUNTING CLUB

On Jan. 29 the accounting Club elected a new slate of officers for the winter and spring 1980 terms: President - Warren Smith Vice President -

Gary Ratajczak Secretary/Treasurer - Eileen Benfer.

The club is planning several programs of interest for all accounting majors. A representative from the IRS will discuss tax audits and careers with the IRS. Two panel discussions will also be held. One panel will be comprised of a representative of a big 8 CPA firm, a corporate accountant, and a government (GAO) accountant to discuss what the "real" world is like in their career areas. The second panel will be comprised of accountants from a public utility, the P.U.C., and a consumer advocate group to discuss the impact of accounting on rate structure.

Reminder: All Accounting majors are automatically members of the Accounting Club. Any other business major may hold an associate membership in the club.

All accounting students are urged to attend and participate in regularly scheduled meetings, and to assist in planning trips and arranging for speakers on career opportunities.

BETA CHI SAYS THANKS

The members of Beta Chi would like to thank all those who supported the Valentine's Day Flower Sale. Thank you, it was a huge success.

XGI NEWS

The winners of our night-on-the-town raffle were John and Melissa Parkovic, R.D. #7 Harrisburg, Pa. And was it a relief. Fraternity members hope the evening was one of extreme enjoyment.

Those interested in participating in the Fraternity trip to the Lebanon VA Medical Center on Friday, Feb. 29 should be able to leave campus by 6 p.m. Members would like to thank all individuals who have graciously donated the wide variety of reading material which will be distributed.

Election for new officers will be held before the end of Winter Term. All members who desire to vote should keep their eyes open for a candidate list and voting date.

CAPITOLITE 1980

Yearbooks can be purchased and final payments made in the Student Activities Office.

An interesting phenomenon has just come to our attention. The 1980 yearbook will contain over 150 pages of photographs, each page having approximately three to five photographs. All told, that's more than 600 photographs that will be needed.

We'd like to think that every time the shutter is clicked we have a usable photograph, but we realize that all things aren't perfect. This means that the shutter will have to be clicked some 3000 to 4000 times!

Needless to say, our photographer - our lone photographer - is getting a sore eye and shutter finger. If you like to help our lone photographer, please let us know. We have paper; we need the prints. If interested, please read the notice in front of the yearbook office, or leave a note in the Capitolite mailbox in the Student Government offices.

HILLEL

Hillel has planned a costume party Sunday evening, March 2, to celebrate the holiday of Purim. Also on Sunday, March 9, from 12 to 4, Hillel will sponsor a booth in the Jewish Community Center for the Purim carnival festivities. The center is located at Front and Vaughn Streets in Harrisburg. All are invited for this occasion.

CHESS CLUB

If you don't know how to play, we'll teach you. If you do know how - great!!

Bring a Friend!
Come play chess, Fridays at 8 p.m. in the Gallery Lounge

PRESIDENTS COUNCIL

The Presidents Council is a body of organization presidents who collectively voice the concerns of student organizations as they relate to the Student Government Association and its involvement with student organizations, stu-

dent affairs, and the development of student organizations. The Presidents Council also advises its members about program matters and the operation of individual organizations.

In January the Presidents Council voted on cosponsoring a series of eight movies to be held on Mondays during Winter and Spring terms.

The following dates were decided upon for the remainder of the movie series:
March 3 - The Goodbye Girl
March 31 - The Exorcist
April 21 - Oh God!
May 5 - A Clockwork Orange
May 19 - One on One
June 2 - Woodstock

The next meeting of the Presidents Council will be Monday, Feb. 25 at 7:00 p.m. in the BCAC Lounge.

IAA NEWS

The International Affairs Association would like to thank all individuals who have given time, effort, and space for the success of this year's Model United Nations. The response from students and campus personnel to our needs has been quite encouraging. We trust that all those assisting will enjoy the experience as much as the delegates.

Keith Yundt
President, IAA

Student census info

The U.S. Census Bureau will be conducting its national census this spring. Some of the information collected will involve the names and campus addresses of students. These items have been designated "Directory Information" and as such may be released unless students specifically refuse to permit disclosure. Other items that are considered "Directory Information" include:

- Permanent Address
- Telephone Number
- Date and Place of Birth
- Major
- Student Activities Including Athletics
- Weight/Height (Athletic Teams)
- Dates of Attendance
- Date of Graduation
- Date of Graduation
- Degrees and Awards Received and Where Received
- Most Recent Educational Institution Attended
- Name and Address of Parents, Guardian, Spouse

Because of the extraordinary nature of the census, we shall provide this information to the Census Bureau unless students direct us not to release specific items. To restrict this disclosure, complete a Census Confidentiality Form, available in the Records Office (W-101) or Student Affairs (W-105) no later than March 20, 1980.

Financial aid update

SUMMER JOBS APPLICATION DEADLINE IS MARCH 15

Jobs-jobs-jobs!

Yes, there are a large number of College Work/Study jobs available for summer 1980. If you will be a Capitol student either this summer or fall, you may qualify for a FULL-TIME job on or off campus. Off-campus jobs, through the PHEAA Summer Work/Study, are available throughout Pennsylvania in a variety of non-profit social service agencies or government offices. On-campus jobs in various college offices or departments are also open.

In order to apply, you must immediately complete a PHEAA-BEOG or FAF form. Also, complete the special white Summer Application for PennState summer financial aid. All Summer Work/Study jobs require eligibility based on financial need. Part-time summer jobs, part-time Graduate Student Faculty Aide positions, summer loans, and other summer financial aid are also available. See Wayne Nelson (Financial Aid Counselor in the Admissions Office) TODAY for details and applications.

IMPORTANT NEWS REGARDING AID FOR FALL 1980

If you missed the recent recommended deadline for Fall 1980 aid through Penn State, don't despair! Applications will continue to be accepted, so send in your PHEAA/ BEOG or FAF today! Also, complete the blue Penn State Office of Student Aid one-page application, due April 1. Don't forget the Kunkle Scholarships, a special fund for Capitol Campus students, which also has an April 1 due date for applications. See the Financial Aid Counselor for full information.

THE LATEST WORD ON SPRING TERM AID

If you will need assistance to make it through Spring Term financially, you should apply immediately for the following types of aid:

- [1] Basic Educational Opportunity Grants (available for Spring or Summer)
- [2] PHEAA Student Loans
- [3] College Work/ Study jobs or University Loans.

These three types of aid ARE STILL AVAILABLE for Spring Term 1980. Don't delay; apply today.

Many jobs throughout the campus are currently open on campus under the College/Work/ Study or Graduate Faculty Aide programs, if you qualify financially. See Wayne Nelson in Admissions for full details.

New program

Energy Technology

The Board of Trustees of The Pennsylvania State University approved the creation of a new academic program in Energy Technology on Jan. 19. The new program will be offered at Capitol Campus through the Engineering Technology Division.

Dr. George Grenier, Head of Engineering Technology, says that the new program is unique in the nation. It will give holders of associate degrees in energy-related fields an academic program for completion of their professional training.

Professor David Kravitz will chair the new program. Kravitz holds degrees from Millersville State College and is currently program chairman of the Mechanical Design Engineering Technology program at Capitol Campus.

According to Kravitz, the new program "builds on the background of students with fossil, nuclear, and solar backgrounds." Students will learn "efficient management of energy systems."

"The need to conserve energy and reduce atmospheric pollution demands experts with broad knowledge of energy-conversion methods,"

says Kravitz. "The graduate of the Energy Technology Program will have the essential background subject matter and laboratory training to make him or her a valuable member of the energy-producing team."

The program is intended to produce leadership for the solution of energy problems of the next decade. "The energy technologist graduating from this program can accept higher level assignments in the field of energy-producing hardware and in the operation of power plants," says Kravitz. "The balancing mix of theory and practice provides the graduate with the know-how to translate the involved energy-production methods into operating systems."

According to Director of Admissions Mary Gundel, students will be admitted to the new program beginning in September, 1980. Applications for admission to the first class in Energy Technology are now being accepted.

Fully trained graduates of the Energy Technology Program will be available to regional employers in June 1982.
