New policies

As a result of recent legislation enacted by New York state, the Graduate Record Examinations Board has announced some changes in policy relating to the GRE Aptitude Test which will be effective nationwide. Since these policy decisions were made after the GRE Information Bulletin for 1979-80 was published, the following changes should be noted:

1. The questions used on the Aptitude Test given on national testing dates (Jan. 12, Apr. 26 and 28) will be published approximately nine weeks after the test date and offered for sale at \$2 a copy. The booklets will include correct answers to questions and instructions for computing scores from the number of right and wrong answers.

2. Examinees taking the Aptitude Test at national administrations on those dates may obtain copies of their answer sheets for \$3.50

3. Upon request, the examinee's answer sheets will be scored clerically (manually) for a fee of \$8. The results will be reported to the examinee. If there is disagreement with the previously reported score produced by the electronic scanning process, the clerically derived score will be re-

ported to all score recipients designated by the examinee. Examinees should be aware that rescoring may result in a lower score.

4. Requests for copies of answer sheets must be submitted within 90 days and for clerical scoring within 120 days of the date on which the scores are mailed to examinees.

The above services are not available for braille or cassette editions of the test, nor do they apply to GRE Advanced Tests.

The legislation enacted in New York state has an effect also on the Miller Analogy Test administered by The Psychological Corporation. MAT candidates have been informed that "no controlled testing center is to report a score to a New York institution after Dec. 15, 1979." PSU/ Capitol is such a "controlled testing center."

The Counseling Center has not yet received word about the Law School Admissions Test, the National Teachers Examination or the Graduate Management Admissions Test. Such information will be published as it becomes available. For further information, students may contact anyone in the Counseling Center.
