## ASME celebrates 100 years

Tuesday, April 22, 1980, was a day to be remembered by mechanical engineers and soon-to-be mechanical engineers everywhere. This date marked the celebration of 100 years (1880-1980) of service to our society by ASME.

The event was marked locally by a centennial celebration at the Hershey Motor Lodge. Members of the Mechanical Engineering Department, ASME students, and guests, all from Capitol Campus, were joined by other members of ASME in the Susquehanna area.

The evening began with a cocktail hour that was open, thanks to that great Pennsylvania Primary, and was followed by dinner. Birthday wishes were extended to ASME from all those who attended, led by the master of ceremonies.

Dr. Richard A. Kenyon, Region III Vice-President, then proceeded to give a talk on "The Engineering Shortfall." Dr. Kenyon stressed the idea that through a well-rounded education and involvement, the engineer and the

engineering student can become more responsive to society's problems and challenges.

Dr. Kenyon also presented the new ASME charters for the next 100 years. Those sections receiving new charters included the PSU Capitol Student Section and the Susquehanna Area Section.

Award ceremonies included centennial medallions presented for outstanding achievements in ASME. Our own Professor Trunk was one of the recipients of the medallion. Congratulations!

Professor Trunk, who is the Chairman for the 1979-1980 year, commented briefly on the year in ASME.

Past chairmen of the ASME Susquehanna Section, many of whom were in attendance, were recognized.

The membership drive and the new Heat Transfer Division were also touched upon by the professor. The program was capped off by a movie entitled "The Incredible Years."

## Dr. Poore Honored

Dr. Daniel M. Poore, Program Head, Public Administration, received the American Society for Public Administration Award for Excellence at the Society's recent conference on management at the Penn Harris Convention Center, Camp Hill.

Dr. Poore was cited for his superior academic and professional leadership in developing a quality educational program which substantially improved the Master of Public Administration Program at Capitol Campus.

Celina McG. Cassidy, who presented the Annual ASPA Award on behalf of the Central Pennsylvania Chapter, said, "Dr. Poore is being recognized for his significant contribution to public administration and for his dedication to bettering government at all levels."

Dr. Poore took over as head of the MPA Program in 1974 and led its development from a relatively small program of 55 students and 3 full-time faculty members to its current size of approximately 170 students and 6 full-time faculty. This MPA Program

has attained national recognition and presently is being reviewed for inclusion in the first official list of schools which comply with NASPAA standards.

Dr. Poore was the successful project director, from 1975 to 1979, of a major HEW grant to the MPA program which enabled Capitol Campus to strengthen its program considerably. To date, 200 students have received MPA degrees at Capitol Campus and approximately 85 percent of them are now working for public service agencies.

## Student Awarded

Thomas M. Stout, Mechanical Design Engineering Technology junior at Capitol Campus, has been awarded a Scholarship from the Society of Manufacturing Engineers, Greater Harrisburg Chapter #149.

An Altoona resident, Stout received his Associate Degree in Mechanical Engineering Technology with Highest Distinction from Penn State-Altoona prior to enrolling at Capitol Campus in the Fall of 1979.

He has maintained a high scholastic average here, in addition to taking part in such activities as the varsity baseball team.

The Society of Manufacturing Engineers will also assist Stout with expenses for his senior year and invite him to participate in 1980-81 Society Board Meetings and monthly Technical Sessions.

## Letter

continued from page 2

It seems to me that the managers involved in making these cutbacks, along with the service cutbacks at the beginning of the year, are trying to impress their supervisors by cutting costs at the expense of the student. This is just one more example of Penn State bureaucracy at work.

One other problem that deserves mention is the deplorable condition of some residence hall facilities, particularly those on Third Floor Church. When that floor was opened for winter term it was furnished with a meager amount of lounge furniture in poor condition and had only one water fountain to serve the entire floor. The furniture is now in even worse condition and there still is only one water fountain. Repeated queries to Housing and Food Service have yielded the answer that another fountain has been on order since November and new furniture will arrive in July. A lot of good that does this year's residents!

It should be obvious to anyone with any kind of business sense that these kinds of delays in shipment should not be tolerated. The simple solution is to contact different suppliers who can provide the necessary goods in a reasonable period of time.

Let's see what our new group of SGA officers can do about this problem. I say it is time to put the "SERVE" back in Housing and Food Service.

Leonard Wumke

## Olmstead University

"OH WOW MAN... A NEW SPACE OUT. GAME."

"HEY... WATCH OUT FOR THAT SHIP BEHIND YOU!"

"YOW"

"I THINK I'LL GO BACK TO PINBALL!"

## Hearings on Gun Issue

Public hearings on arming the campus police with guns will be held by the Capitol Campus Security Armament Committee from 7 p.m. to 9 p.m. on Monday, May 12, 1980, in the Auditorium and from 3:30 p.m. to 5:30 p.m. on Tuesday, May 13, 1980, in the Gallery Lounge.

The purpose of the hearings is to provide the opportunity for members of the Capitol Campus community (student, faculty, or staff) to make public statements on this issue.

Anyone wishing to make a statement must sign up, either beforehand

with Mrs. Cowher (Room 200) or at the time of the hearings, identifying his/her role in the community.

The remarks of each individual will be limited to 10 minutes. At the close of each statement, members of the Security Armament Committee will have the opportunity to ask questions of the speaker. When questions from the Committee are completed, the next scheduled speaker will begin.

Questions from the floor will be entertained, as time permits, at the end of each session.

## Classifieds

**EARN AT LEAST \$68** per month for four hours of your time per week. Donate plasma at Sera-tec Biologicals. Open Monday thru Thursday from 8:45 a.m. to 4 p.m. Stop in at 260 Reilly Street, Harrisburg, or call for information at 232-1901

**NEED INFORMATION?** Call Project Helpline at 944-5997.

**STUDENTS WANTED FOR EET-301:** Students interested in taking EET-301 during summer term are asked to sign a list in front of W-252. A total of 17 students and an instructor are needed.

**Attention All Bicycle Owners:** The one and only professional Capitol Campus bike repair shop is now in full swing, handling tasks such as brake adjustments, truing wheels and any other problem that your bike may be giving you. Call Kurt at x-2327 for your appointment. I am quicker and unbelievably cheaper than any bike shop. Kurt Lambert 938-B Mars Drive Middletown

**Hillel**  
The next meeting of Hillel will be a luncheon, and elections will definitely be held. Wednesday, May 28, is the date and members will be contacted as to the time and place. Our picnic is set for this Sunday, May 11, on the grounds near the dorms. We'll be having activities such as volleyball. Come on down about noon and bring something to munch on.

**Vendorville Schedule For Summer 1980**

The Vendorville cafeteria will be in operation on a limited basis during the 8-week summer program. On all scheduled class days beginning June 24 and ending August 18, Vendorville will serve a limited lunch menu from 11 a.m. to 1 p.m.

Preregistration for Summer and Fall terms will be May 7-21. Students are urged to pick up schedule confirmation (printouts) in the Lobby, Olmsted Hall, from June 2-6. This will enable students to revise their schedules before they leave campus for the summer, should this be necessary.

## Prospective Business Managers

Applications are being accepted for entry-level positions in business management, all majors accepted.

Excellent opportunities for professional and personal growth.

Salary to \$21,000 in four years, competitive benefits including tuition assistance for graduate study.

Relocation necessary. Position as a Commissioned Naval Officer.

Requires applicant possesses college degree and U.S. Citizenship.

Call or write to arrange future on-campus interview with
