The Public Affairs Association of Capitol Campus

The Public Affairs Association of Capitol Campus would like to take this opportunity to welcome all new students to Capitol Campus and welcome those students who are returning to the campus.

The Public Affairs Association is a newly formed organization whose function is to bring together those students who are interested in current events, political issues, and world affairs. The organization is open to students from all facets of academia. The club is monitored and advised by Professor Mike Young of The Division of Public Policy.

The association's plans for the upcoming school year include four guest speakers, a film series, student-faculty colloquiums, and a few campus-wide social activities. The first scheduled meeting is planned for Monday, October 12 at 7:00 p.m. in the Gallery Lounge. We will feature a film entitled, *The Soviet Union: A New Look*. Refreshments will also be served.

If you want more information concerning our organization, stop by our booth at the Organizational Fair in the Gallery Lounge on September 29.

We look forward to meeting everyone.

By Senator Bill Barger
Public Affairs Department

SGA News

On behalf of the Student Government Association, I would like to welcome the Juniors to Capitol Campus and to welcome back Seniors. As President of SGA, I'm looking forward to a good year with plenty of activities. There are a wide variety of clubs here at Capitol and I urge all of you to get involved in at least one of the clubs during your stay at Capitol Campus. The experience will be very rewarding. Without involvement from students, the clubs would not exist; so it is very important for you to get involved.

This coming year should be an eventful one. Here are a few of the events scheduled for the beginning of Fall Term: Monday night-Football Night in the Student Center where the football game is shown on a large screen television; Tuesday night - Special Event Night when the clubs will schedule their activities; Wednesday Night - is an Arts and Crafts night and two pinball tournaments are scheduled, Thursday night is Coffee House Night where bands will play.

I wish everyone a successful year here at Capitol Campus. Don't forget, get involved in a club this year!

By Roberta Bronson
SGA President

Chi Gamma Iota (XGI)

Chi Gamma Iota is a fraternity composed of veterans and non-veterans and is known on campus as the XGI's. The purpose of the organization is to provide varied social events for all students and fraternal activities for its members. The fraternity is also concerned with providing moral and scholastic aid to members.

The fraternity supports and initiates a variety of projects, including support for the community blood drive, visitations to veteran's hospitals, and various campus service projects. Support is also provided for school activities such as orientation and registration. Social activities include attendance of professional sporting events, intramural sports, fraternity sponsored dances, the annual XGI picnic, and other school sponsored activities. Meetings are held every other Tuesday at the American Legion in Middletown. For further information contact the XGI's in Room W-114 of the main building.

Heindel Library

Heindel Library and the Graduate Student Union invite graduate students and faculty to an open house in the library on Wednesday, September 23 and Thursday, September 24 from 5 to 9 p.m.

This is an informal get together — a chance for the librarians to meet graduate students, especially new graduate students, and for graduate students to become better acquainted with the librarians and some of the resources of the Heindel Library. Major resources, such as ERIC, LAC, HRAF, Envirofiche and selected business services will be demonstrated. Displays will explain interlibrary loan, courtesy services at other libraries and ODIN, our online database information network. Members of the Graduate Student Union will be on hand to discuss graduate student activities. Dessert will be served. As Carolyn Miller explains, "We want to meet you and we want you to meet us."

ASME

The American Society of Mechanical Engineers (ASME) has a lot to offer. Our scheduled events have all indications of being interesting and rewarding. Section Chairman, Ron Noel and Vice Chairman, Alan Miller are making final preparations for the plant tours to Utz Potato Chip, Alloy Rods and SKF Roller Bearings Division on October 8. Sign up outside W-262 by October 2 if you're interested in attending this all day tour.

Secretary Steve King and Treasurer, Dale Leopold are helping prepare for the membership party to be held October 1. Further details about these two events will be posted around campus and the bulletin board outside W-262.

Professor Edward V. Trunk, faculty advisor, is helping us schedule guest speakers through our parent organization, the Susquehanna Section of ASME. Further plans

include tours of Berg Electronics, York Borg Warner, and Mack Truck. Parties and informal meetings are now being planned.

An experimental meeting time will be tried Fall Term. Luncheon meetings will be held fourth period Thursday in a classroom to be assigned later. This will allow a more convenient time for all to participate in the meetings. The programs for the first three meetings will be presented by Peg O'Hara and the Placement Office Staff.

If you have an interest in mechanical engineering, good fellowship or a good time, come join our ranks. The \$8 per year dues include a year's subscription to *Mechanical Engineering* magazine. To join, see any member of ASME, Professor Trunk or pick up an application outside W-262 or come to a scheduled meeting. It may be the best decision you make today.

The library for the student's use.

LIBRARY HOURS

Monday-Thursday	8 am - 10 pm
Friday	8 am - 5 pm
Saturday	10 am - 5 pm
Sunday	2 pm - 10 pm
