

Homecoming

By Annette Childs

On Saturday, September 29, the Alumni Homecoming festivities will begin at noon with a cross country meet between Capitol, Juniata, Galladuet, and Misericordia College.

Gym facilities, including racquetball courts, will be open for alumni use throughout the day. Later on that evening there will be a smorgasbord buffet at the new student center. There also will be live entertainment provided by Maxwell, a high energy top-40 funk band.

From midnight until 2 a.m. a continental breakfast will be served bringing the event to an end.

Get to the answers faster. With the TI-55-II.

What you need to tackle the higher mathematics of a science or engineering curriculum are more functions – more functions than a simple slide-rule calculator has.

Enter the TI-55-II, with 112 powerful functions. You can work faster and more accurately with the TI-55-II, because it's preprogrammed

to perform complex calculations – like definite integrals, linear regression and hyperbolics – at the touch of a button. And it can also be programmed to do repetitive problems without re-entering the entire formula.

Included is the *Calculator Decision-Making Sourcebook*. It makes the process of using

the TI-55-II even simpler, and shows you how to use all the power of the calculator.
