Get The Responsibility You've Earned.

After you get your degree, get management responsibility and immediate decision-making authority.

In a civilian job, it could take years. As a Navy officer, after 4 months of technical and leadership training, you're in charge with all the responsibility and respect you deserve.

The opportunities are as varied as today's technology: fields like electronics, engineering, inventory control and purchasing, personnel administration and systems analysis.

With the important responsibilities, comes an outstanding benefits package: 30 days' paid vacation earned each year, medical and dental care, low-cost life insurance and tax-free allowances.

The requirements are simple: you must have a BS or BA, be no more than 34 years of age, pass aptitude and physical examinations, qualify for security clearance and be a U.S. citizen.

If you're interested in this kind of responsibility, call the Naval Management Programs Office:
