Every person operating a bicycle on streets or lanes designated for bicycles shall accord the right of way to pedestrians crossing roads, streets, and bicycle ways at intersections, marked crosswalks, and sidewalks?

The speed limit in Meade Heights is 20 miles per hour?

Specific limitation on driving, parking, speeding, stopping, noise-making, and the like as shown on campus signs, or as posted on bulletin boards also govern the use of motor vehicles?

You will be ticketed if you park in the marked 15 minutes spaces in front of Olmsted and you don't use your flashers, as posted

Bill Goodling, US Representative, "Nothing we do will affect how terrorists operate...I don't think you've encouraged anyone who isn't already determined to do those kinds of things."

Margaret Thatcher, British Prime Minister, " Britain rejects the idea of delivering lethal weapons to Iran. We pursue the policy of not delivering weapons to either side."

Senator Richard Lugar, R-Indiana, "I suspect that the president does not understand the law with regards to informing Congress on these things."

Senator John Glenn, D-Ohio "I think it was a terrible mistake. A series of one blunder after another. You can't continue to deceive the American people and expect us to trust him."

Senator Larry Pressler, R-S.D., "I'm not saying everything he did was perfect, but he was trying to do the best he could. I think the American people will support him."

Tariq Almoayed, Bahrain minister of information, "If the deal is to gain friends and bring reason to this area, it is consistent with the aims of the region."
